

Life beyond your Local Authority Payroll

We appreciate making the Academy switch can be stressful, especially when budgets are tight, and time is a precious commodity. That's why having long-term partners you can trust and rely on to deliver core services become invaluable to you in the years to come as your school finds its feet as an Academy.

Payroll is one of the central services that holds the school together and currently, your local authority has had the luxury of guaranteeing this provision without any alternative being offered since time began.

Why consider an alternative provider?

You now have choice. The choice to find a payroll partner who aspires to fit around your schools needs rather than the other way round. You will expect your Payroll Provider to be cost-effective, reliable, accurate, timely and flexible and you get to choose who that is.

What's the risk?

School payroll can be a complicated creature and requires specialist skills, experienced in handling local government and teachers' pension schemes, pay grades and scales to name but a few. Therefore, it is essential that any new provider who takes on this task has a strong track record in the Education Sector and can provide you with reliable testimonials before making the switch.

Benefits of switching have included:

- Academy Support Team - Named contacts within SGW Payroll contactable via phone
- Bespoke Reporting - Payroll reports, your data, the way you want it
- Quick Turnaround Times - Plenty of time and opportunity to check your payroll before final run
- Transparency In Pricing - Fair and honest price structure based on school's staff numbers
