## DRAGON CASTLE

5 LEVEL

**978**  
PIECES

WDTK085

**ENG** Do not set fire to it! **UKR** Не підпалювати! **DEU** Nicht anzünden!  
**FRA** Ne pas allumer! **POL** nie podpalaj! **SPA** No prender fuego! **ITA** Non dare fuoco!

**ENG** Caution! Sharp parts! **UKR** Обережно! Гострі деталі! **DEU** Vorsichtig!  
 Scharfe Details! **FRA** Attention Détails tranchants! **POL** Uwaga! Ostre  
 szczegóły! **SPA** Cuidado! Piezas cortantes! **ITA** Attenzione! Dettagli nitidi!

**ENG** Recommendation: if you have difficulty in connecting parts, treat toothpicks with paraffin. **UKR** Рекомендація: якщо виникли складнощі при скріпленні деталей, обробіть зубочистки парафіном. **DEU** Empfehlung: Wenn Sie Schwierigkeiten haben, Teile zu verbinden, behandeln Sie Zahnstocher mit Paraffin. **FRA** Recommandation: si vous avez des difficultés pièces de fixation, traitez les cure-dents avec de la paraffine. **POL** Zalecenie: jeśli masz trudności z połączeniem części, obsługiwać wykałaczki parafiną. **SPA** Recomendación: si tiene dificultades para fijar piezas, trate mondadientes con parafina. **ITA** Raccomandazione: in caso di difficoltà nel fissare le parti, trattare gli stuzzicadenti con paraffina.

**ENG** The assembling of constructor does not require to use glue. **UKR** Конструктор не вимагає застосування клею. **DEU** Für die Montage des Konstruktors ist kein Klebstoff erforderlich. **FRA** Aucune colle n'est nécessaire pour monter le constructeur. **POL** Montaż konstruktora odbywa się bez kleju. **SPA** El montaje constructor no requiere el uso de pegamento. **ITA** L'assemblaggio non richiede l'uso di colla.

**ENG** Fragile details! Be careful when removing the constructor from the card! **UKR** Крихкі деталі! Під час вилучення конструктора з карти будьте обережні! **DEU** Zerbrechliche Details! Seien Sie vorsichtig, wenn Sie den Konstruktor von der Karte entfernen! **FRA** Détails fragiles! Faites attention en retirant les éléments de la construction de la carte! **POL** Kruche szczegóły! Przedmioty należy wyjmować z karty ostrożnie! **SPA** Detalles frágiles! Sea prudente al sacar elementos de mecano del tarjeta! **ITA** Dettagli fragili! Gli elementi vanno estratti dalla scheda con cautela!

**ENG** All elements that interlock must be sanded with sandpaper and greased with paraffin. **UKR** Всі елементи, що входять у зачеплення необхідно зачистити наждачним папером і змастити парафіном. **DEU** Alle eingreifenden Teile müssen mit Sandpapier gereinigt und mit Paraffin eingefettet werden. **FRA** Il faut nettoyer tous les éléments de l'accrochage à l'aide du papier-meri et les traiter avec de la paraffine. **POL** Wszystkie zaczepione elementy należy oczyścić papierem ściernym i nasmarować parafiną. **SPA** Todos los elementos que se enganchan deben limpiarse con papel de lija y engrasarse con parafina. **ITA** Tutti gli elementi agganciati devono essere puliti con carta vetrata e ingrassati con paraffina.

**ENG** Design kit can be tightly connected in some places, so that the assembled model has solidity and reliability. We recommend using pliers and box cutter for a more convenient design kit assembly. **UKR** Конструктор може в деяких місцях туго з'єднатися, для того, щоб зібрана модель мала міцність та надійність. Для більш зручної збірки конструктора, рекомендуємо використовувати плоскогубці та канцелярський ніж. **DEU** Der Konstruktor kann an einigen Stellen keine gute Verbindung herstellen, so daß das zusammengebaute Modell eine ausreichende Festigkeit und Zuverlässigkeit aufweist. Für eine bequemere Montage des Konstrukteurs empfehlen wir die Verwendung einer Zange und eines Schreibwarenmessers. **FRA** Le jeu de construction peut être étroitement connecté à certains endroits, pour que le modèle assemblé soit solide et fiable. Pour un assemblage plus pratique de jeu de construction, nous vous recommandons d'utiliser une pince et un couteau à papeterie. **ITA** Le jeu de construction peut être étroitement connecté à certains endroits, pour que le modèle assemblé soit solide et fiable. Pour un assemblage plus pratique de jeu de construction, nous vous recommandons d'utiliser une pince et un couteau à papeterie. **POL** Le jeu de construction peut être étroitement connecté à certains endroits, pour que le modèle assemblé soit solide et fiable. Pour un assemblage plus pratique de jeu de construction, nous vous recommandons d'utiliser une pince et un couteau à papeterie.

**ENG** Warning! For the correct operation of this model, it is necessary to clean carefully and to lubricate all rubbing parts with paraffin during assembly. All mechanisms must rotate freely.

**UKR** Увага! Для коректної роботи даної моделі, необхідно при збірці ретельно зачищати, змащувати парафіном усі деталі, які труться. Усі механізми повинні вільно обертатися.

**FRA** Attention ! Pour le bon fonctionnement de ce modèle, il est nécessaire lors du montage de nettoyer et lubrifier soigneusement toutes les pièces à friction avec de la paraffine. Tous les mécanismes doivent tourner librement.

**SPA** ¡Atención! Para el funcionamiento adecuado de este modelo a la hora de ensamblaje se recomienda alisar y lubricar cuidadosamente con parafina todos los detalles frotantes. Todos los mecanismos deben girar libremente.

**ITA** Attenzione! Per il corretto funzionamento di questo modello, durante il montaggio, è necessario pulire e lubrificare accuratamente tutte le parti di sfregamento con paraffina. Tutti i meccanismi devono ruotare liberamente.

**DER** Hinweis! Für einen korrekten Betrieb dieses Modells ist bei dem Zusammenbau erforderlich, alle Reibteile sorgfältig auszusmieren und mit Paraffin zu schmieren. Alle Bauteile sollen sich frei drehen.

**POL** Uwaga! Aby ten model działał prawidłowo, podczas montażu wszystkie detale trące muszą być dokładnie oczyszczone i nasmarowane parafiną. Wszystkie mechanizmy muszą się swobodnie obracać.

**UA** Опустити решітку **A** до упору донизу. Підтягнути нитку, щоб ворота **B** були щільно прикриті. У такому положенні зав'язати вузли якомога ближче до решітки **A** і обрізати зайву нитку.

**EN** Push the grid **A** all the way down. Tighten the thread until the gate **B** is tightly covered. In this position, tie the knots as close to grid **A** as possible and cut the excess thread.

**DE** Klappen Sie das Gitter **A** bis Anschlag nach unten. Ziehen Sie die Schnur so an, dass das Tor **B** fest verschlossen ist. Knüpfen Sie in dieser Position die Knoten so nah wie möglich am Gitter **A** und schneiden Sie den überschüssigen Faden ab.

**FR** Abaisser complètement la grille **A**. Serrer le fil pour que la porte **B** soit bien fermée. Dans cette position, faire des nœuds le plus près possible de grille **A** et couper le surplus de fil.

**IT** Abbassare completamente la griglia **A**. Stringere il filo in modo che il cancello **B** sia ben chiuso. In questa posizione, fare dei nodi il più vicino possibile alla griglia **A** e tagliare il filo in eccesso.

**ES** Empuja la rejilla **A** hasta el tope. Aprieta el hilo hasta que la rejilla **B** quede bien cubierta. En esta posición, ata los nudos lo más cerca posible a la rejilla **A** y corta el hilo sobrante.

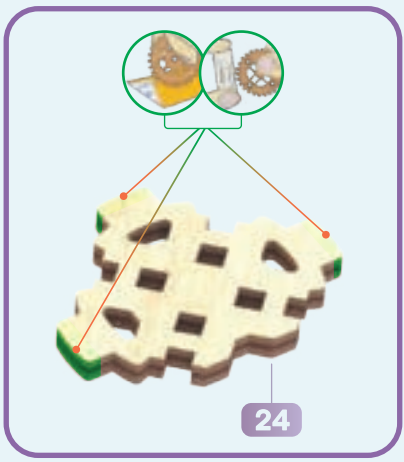

**PL** Opuścić kratkę **A** do końca w dół. Naciągnąć sznurek tak, aby brama **B** była szczelnie zakryta. W tej pozycji należy zawiązać węzły jak najbliżej kratki **A** i odciąć nadmiar nici.

**JP** 有孔板 **A** を止まる位置まで下げます。ゲート **B** が固く閉じるように糸を締めます。この状態で、できるだけ有孔板 **A** に近い位置で結び、余分な糸を切り落とします。

24

1

**UA** Користуючись гнучкістю фанери, акуратно завести деталь **A** в пази деталі **B**, симетрично на обох кінцях деталі **A**.

**EN** Relying on the plywood flexibility, gently insert part **A** into the grooves of part **B**, symmetrically on both edges of part **A**.

**DE** Nutzen Sie die Flexibilität des Sperrholzes und schieben Sie Teil **A** vorsichtig in die Nuten von Teil **B**, symmetrisch an beiden Enden von Teil **A**.

**FR** Utilisant la souplesse du contreplaqué, glisser délicatement la pièce **A** dans les fentes de la pièce **B**, symétriquement aux deux extrémités de la pièce **A**.

**IT** Utilizzando la flessibilità del compensato, far scorrere delicatamente la parte **A** nelle fessure della parte **B**, simmetricamente su entrambe le estremità della parte **A**.

**ES** Apoyándose en la flexibilidad del contrachapado, inserta suavemente la pieza **A** en las ranuras de la pieza **B** simétricamente en ambos lados de la pieza **A**.

**PL** Wykorzystując elastyczność sklejki, ostrożnie wsunąć część **A** w rowki części **B**, symetrycznie na obu końcach części **A**.

**JP** 合板の柔軟性を利用して、部品 **A** の両端を対称に部品 **A** を部品 **B** の溝に注意深く滑り込ませます。

**UA** Залишити 5 см дроту, як зазначено в інструкції!

**EN** Keep the 2 inch wire, as specified in the manual!

**DE** 5 cm des Drahtes lassen, wie in der Anleitung angegeben ist!

**FR** Laissez 5 cm de fil comme indiqué dans les instructions!

**IT** Lasciare 5 cm di filo come indicato nelle istruzioni!

**ES** Deja 5 cm de alambre según se indica en las instrucciones!

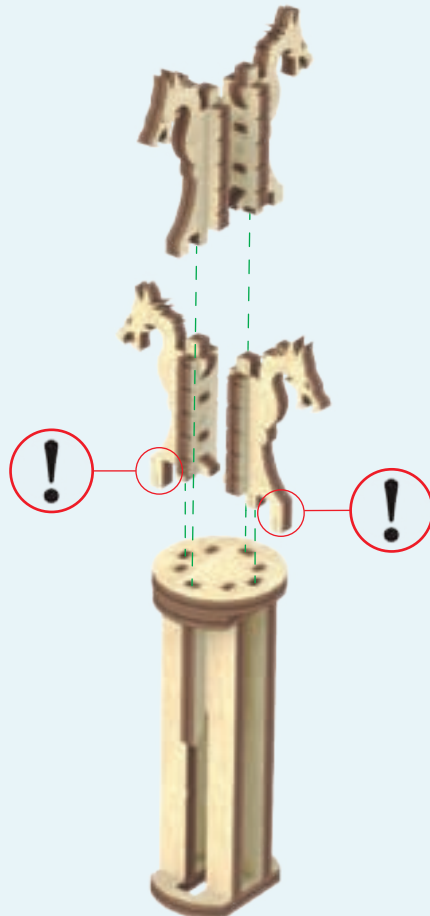

**PL** Pozostaw 5 cm kabla zgodnie z instrukcją!

**JP** 取扱説明書通りに5センチのワイヤーを残します!

5 cm (~2 inch)

UA Вузол **A** знімний для зручної заміни батарейок.

EN Knot **A** is removable for easy battery replacement.

DE Der Knoten **A** ist abnehmbar, um den Batteriewechsel zu erleichtern.

FR Le noeud **A** est amovible pour faciliter le remplacement des batteries.

IT Il gruppo **A** è staccabile per una facile sostituzione delle batterie.

ES El nudo **A** es extraíble para facilitar la sustitución de las pilas.

PL Węzeł **A** jest wyjmowany w celu łatwej wymiany baterii.

JP ノード **A** は電池を容易に交換するために、取り出し可能になっています。

# THESE WALLS HAVE A HISTORY...

Some of the most beautiful architectural monuments of history that have survived to this day are medieval castles. Feudal lords built these constructions to protect themselves from possible wars. Castles had a severe system of fortifications, and the ancient masters laid the walls strong and almost indestructible, so castles occupied a winning position on the battlefield. We at WoodTrick have decided to create our wooden model of Dragon Castle so you can feel the spirit of medieval castles and even be its builder for a while.

## FUNCTIONS OF MEDIEVAL CASTLES

**Military** — defended their owners and citizens from attacks of foreign armies.

**Administrative/political** — the castles usually served as administrative centers of surrounding territories.

**Habitable** — the nobility and landowners lived in the castles and sometimes, in large castles, other residents lived.

## IN 1869...

...began the construction of one of the most beautiful castles in the world — Neuschwanstein Castle, in Germany. It has many secrets and incredible features. Although this castle does not belong to the Middle Ages, it has all the stylistic elements of a medieval castle. Nevertheless, the castle is considered one of the most colorful in Europe.

## THE FIRST CASTLES

The prototype of medieval castles could be considered fortifications of Assyria, dated to the VIII-VII centuries BC, as well as Roman buildings, which were also often well fortified and had a monumental structure.
