EN Design kit can be tightly connected in some places, so that the assembled model has solidity and reliability. We recommend using pliers and box cutter for a more convenient design kit assembly. **DE** Der Konstruktor kann an einigen Stellen keine gute Verbindung herstellen, so daß das zusammengebaute Modell eine ausreichende Festigkeit und Zuverlässigkeit aufweist. Für eine bequemere Montage des Konstrukteurs empfehlen wir die Verwendung einer Zange und eines Schreibwarenmessers. **FR** Le jeu de construction peut être étroitement connecté à certains endroits, pour que le modèle assemblé soit solide et fiable. Pour un assemblage plus pratique de jeu de construction, nous vous recommandons d'utiliser une pince et un couteau à papeterie. **IT** Il set di modelli può essere unito strettamente in alcuni punti per garantire che il modello assemblato sia forte e affidabile. Per un assemblaggio più agevole del set, si consiglia di utilizzare pinze e un coltello da ufficio. **ES** Puede ocurrir que el conjunto de construcción esté unido en algunos lugares para asegurar que el modelo ensamblado es fuerte y confiable. Para un mejor ensamblaje del modelo, recomendamos usar alicates y un cuchillo de oficina. **PL** Zestaw konstrukcyjny może być ciasno połączony w niektórych miejscach, aby zapewnić, że zmontowany model jest mocny i niezawodny. Dla wygodniejszego montażu zestawu konstrukcyjnego zalecamy użycie szczypiec i noża biurowego. **UA** Конструктор може в деяких місцях туго з'єднатися, для того, щоб зібрана модель мала міцність та надійність. Для більш зручної збірки конструктора, рекомендуємо використовувати плоскогубці та канцелярський ніж. **JP** このものは所々でしっかりと接続できるため、組み立てられたモデルの強度と信頼性が高くなります。設計者がより便利に組み立てるために、ペンチと事務用ナイフを使用することをお勧めします。

EN Warning! For the correct operation of this model, it is necessary to clean carefully and to lubricate all rubbing parts with paraffin during assembly.
