

8" x 8" trimline

THANK YOU FOR YOUR PURCHASE OF
SENSOR BRITE 360°

INSTRUCTIONS/USER MANUAL:

PLEASE READ THIS
MANUAL FRONT AND BACK
BEFORE USING THE
SENSOR BRITE 360°. FOR
BEST RESULTS FOLLOW
THESE INSTRUCTIONS
EXACTLY.

Placing multiple lights near one another
is not recommended since the
built-in light sensor allows the light
to come on only in a dark environment.

The light casted from one light may
cause other light to not come on.

ONCE BATTERIES ARE
INSTALLED, SENSOR BRITE
360° WILL ONLY COME ON
WHEN IN DARKNESS.

180 Lumens (each unit)
Requires (3) AA Batteries
(per unit not included)
Water/ Weather Resistant- IP44
50,000 Hour Bulb Life
ABS Plastic Housing

MADE IN CHINA

INSTRUCTIONS FOR USE:

- 1: To install batteries, Grip unit and twist off the back of the housing counter-clockwise to expose battery compartment- (Fig 1).
- 2: Insert 3 AA batteries into battery compartment according to polarity markings +/- (Fig 2).
- 3: Reattach Cover by twisting on the back using clockwise motion. Do not overtighten.
- 4: To use on walls - Use the included adhesive tape and apply to bottom of the base cover in the center. (Fig 3). –

- Clean the desired mounting surface with rubbing alcohol prior to application and let the mounting surface fully dry.
- Press the base firmly to area for 5-10 seconds to ensure secure application.

- 5: To install with screws , remove base plate and use the included screws to attach on to wall. Do not use adhesive tape for this application.

After installing the base cap to the surface – line up the slots and twist on the base onto the base cap and place unit on.

- 6: For table top operation you do not need to attach the base to surface- simply place the unit on surface.

Note: Painted surfaces may be damaged upon removal of the peel & stick adhesive.
To Remove Unit base when using the adhesive – use a fine string or dental floss and work it between adhesive and surface using a back and forth motion to saw through the adhesive bit by bit. Then use rubbing alcohol to remove any sticky mess remaining on surface.

ADDITIONAL INFORMATION:

- The built in motion sensor will detect movement from up to 10 feet and come on when dark.
- The Sensor Brite 360 has 3 settings.
 1. Use the Auto function if you want the unit to work on motion detection
 2. Use the On function if you want to use as hand held light
 3. Use the Off function if you do not want unit to come on
- **TO CLEAN:** Wipe with damp cloth or sponge. Do not submerge in water or use harsh chemicals to clean.
- **CAUTION:** When applying on wall ensure the mounting surface is not in an area that has heavy vibration or on moveable area such as a door surface. This can cause unit to lose the magnetic hold and fall off.

LIMITATION OF LIABILITY
