Chemical resistance	As reported	Class: A	ASTM C 650
Stain resistance	As reported	Class: A	ASTM C 1378

\*Tests carried out on a different type from that for which the standard is issued

(1) It states the resistance of a sample piece, leaning on three spots, to a concentrated load placed in the middle.

(2) It shows the resistance, on raised floor laying as suggested by the catalogue, to a the concentrated load applied in the middle.

(3) It shows the breaking resistance through bending of the product in full size. The load is applied through a horizontal cylinder placed in the middle.
