

CARE INSTRUCTIONS

(Unless specified otherwise on the label)

SLIPPERS

made from cotton or boiled wool with the Giesswein natural rubber sole *

Cotton or boiled wool slippers are washable at up to 30°C. Important: do not use fabric softener.

Never spin cotton or boiled wool slippers.

Please do not tumble dry or leave them to dry on a heater or in direct sunlight. This would seriously damage the quality of the soles.

RUBBER BOOTS

To make sure your Giesswein rubber boots always look as good as new and to avoid any streaks we recommend you polish them regularly with dashboard care products or deep cleansing milk for rubber.

*Unless specified otherwise on the label

CLOTHING/HOMEWARE

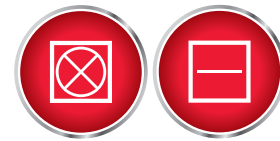

made from boiled wool or knit *

Boiled Wool or knit can be hand washed. We recommend using a liquid wool detergent. Please do not use fabric softener.

Never spin boiled wool or knit and do not wring it out but carefully squeeze it.

To dry them, lay boiled wool or knit items out and pull them gently into shape. Please do not leave them to dry on a heater or in direct sunlight.

Never iron boiled wool or knit on a hot setting.

*Unless specified otherwise on the label
