Recommend Guide Spacing

E-Glass Special Series

Model Name		Guide	Length	Section	etc
7'05" 4wt Black color	10				
	9	Stripping	25"	Butt	Size#9
	8	snake3	3'14/16"	Middle	
	7	snake2	11' 3/4"	Middle	
	6	snake2	19' 3/4"	Middle	
	5	snake1	27' 3/4"	Middle	
	4	snake1/0	6' 1/2"	Tip	Important Guide
	3	snake1/0	14' 3/8"	Tip	
	2	snake2/0	21"	Tip	
	1	snake2/0	26' 7/16"	Tip	
	0	Tiptop	#5	TipTop	

* The value is the length from the end of own section.

Caution >

Alignment of Guide Spacing

- 1 Put the guide on this blank temporarily using scotch tape at the value point.
- 2 Connection all sections.
- 3 Grip the position of grip space.
- 4 You keep the rod horizontally.
- 5 Shake the blank up and down.
- 6 You can see the point that was not moved in the grip section.
- 7 This is the point 4th guide.
- 8 If the 4th guide is different from the point that I wrote down before, please dislocate the 4th guide to the point that not move point. The 4th guide position is very important. If the guide put on different position, fly line can not go through the guide. And please put the guide adding same error range of 6th guide from the 5th guide til the stripping guide.
