

DRINKING WATER SOLUTIONS

Your Partner in Cool.

**AQUA
COOLER**

AQUA COOLER

Australia's leading drinking water solution brand.

About us

Aqua Cooler is an Australian owned and operated business, offering expert solution advice, nationwide technical support, and installation services of drinking water products across Australia and New Zealand. Aqua Cooler Headquarters are in Brisbane, Queensland, along with warehousing and distribution arrangements in Perth, Western Australia.

Our serviced industries include education, transport, commercial buildings, transportation, construction sites, healthcare, fitness and sports facilities, domestic homes and more.

Products

Our range includes drinking fountains, bubblers and bottle fillers, public drinking fountains, mains-connected and bottle top water coolers, under bench systems for home and offices, remote water systems, wall mounted drinking troughs, water filter systems and associated accessories.

Our Values

We are a customer-first organization, putting customer satisfaction at the forefront of how we conduct business. We aim to improve life through water. We believe in never being difficult to deal with and being there for our customers when they need us the most.

Our History

Aqua Cooler Pty Ltd is a proud Australian family-owned company with a history dating back to 1946 when we operated as a contractor in the refrigeration sector and later as a manufacturer of packaged water chiller units.

In 1979, Sam Hort (Aust.) Pty Ltd was acquired, which commenced production of Drinking Water Fountains in 1953. With the rapidly growing spring water market we commenced production of bottled water coolers in 1989, and now distribute a wide range of drinking water solutions across Australian and New Zealand.

"The key to our success lies in our ability to provide expert advice to our clients, fast response to sales, short lead times and quality products."

DRINKING FOUNTAINS

The M Series and WM Series drinking fountains stand as the flagship products within Aqua Cooler's lineup. Renowned for their unparalleled durability, reliability, and performance, they have become the top choice across a wide spectrum of industries. The chic yet understated design complements nearly any setting, with the IP33 rating allows for installation in places where other fountains are not feasible.

M Series

Heavy-duty, mains-connected drinking fountains

The M Series is a sleek, mains-connected water fountain with a heavy-duty build. The tank is made from industrial-grade stainless steel ensuring the fountain will meet any demand.

KEY FEATURES

- Industrial grade 304 stainless steel tank and robust construction
- Polished stainless steel top
- Front panel removes for ease of servicing
- Optional stainless steel cabinets
- Simple filter changes for filtered units
- Adjustable, tamper-proof, non-squirt bubbler and glass filler
- IP33 rating suitable for outdoor use (see page 7)

The M Series is designed with an easily removable front panel giving instant access to all components and controls. Hassle-free filter changes and services can be done without disconnecting the plumbing.

Available with or without a glass filler tap, in filtered or unfiltered configurations with a stainless steel or dark grey powder coat finish, this robust water dispenser fits perfectly in a multitude of places, including offices, worksites and gyms.

Filtered models feature a compact, easy-to-replace filter that removes taste, odour and chlorine. The proprietary carbon-block filter has greater density than other products with a 2-micron filtration pad to prevent carbon and sediment bypass.

The water inlet connection is a 1/2" MBSP and the drain is a 40mm female PVC socket.

	Yes	M2FSS	M3FSS	M11FSS	

*Approximate figures only. All M3 and M11 models are supplied with fittings to temporarily remove bubbler for reinstallation at a later date. This will enable the drinking fountain to be used as a glass filler only unit.

WM Series

Wall-mounted mains-connected drinking fountains

The wall-mounted WM Series is especially designed for areas where floor space is restricted. Suitable for mounting at any height makes them ideal for children or people in wheelchairs.

KEY FEATURES

- 19L/h chilling capacity – suitable for 1-40 people
- Industrial grade 304 stainless steel tank and robust construction
- Polished stainless steel top
- Front panel removes for ease of servicing
- Adjustable, tamper proof non-squirt water bubbler and drink bottle/glass filler
- Australian WaterMark Certification (Lic No. WMK26317)

Mains connected, and with a heavy-duty build, this drinking fountain is built with 19L/hour chilling capacity, making this system perfect for installation in offices, worksites, workshops, gyms and more.

The WM Series is designed with an easily removable front panel that gives instant access to all components and controls. Hassle-free filter changes and services can be undertaken without disconnecting the plumbing.

Available with or without glass filler tap in a beautiful dark grey powder coated finish.

Ingress protection

What it means for water fountains in the construction industry

The joint Australia/New Zealand Standard (AS/NZS 3000:2018) has been prepared by the Joint Technical Committee EL-001, Wiring Rules to provide uniform essential elements that constitute the minimum regulatory requirements for safe electrical installation.

AS/NZS 3000:2018, published on 26 June 2018, allowed for a six-month transition period.

Section 4.1 of the Standard stipulates that electrical accessories installed outside a 30-degree arc from shelter shall have a minimum degree of ingress protection of IP33.

Area under an overhang requiring accessories to be a minimum of IP33 (side view)

That means any water fountain with a lower IP rating installed without the shelter shown above is in breach of the Standard. Worksites risk being shut down for this breach of the Standard.

Aqua Cooler's flagship product, the M Series free-standing drinking fountain, has achieved a rating of IP33*. We offer a 12-month comprehensive warranty, regardless of whether it is installed in uncovered conditions, followed by a 24-month parts-only warranty.

(*M Series ingress protection tested by Ex Testing and Certification Pty Ltd, report # REP18122-01, 26/11/2018)

IP33
RATED

"The M Series is a must for work sites that require cold water and don't have the luxury of undercover space."

Model Selection Chart

	Bubbler	Bubbler & glass filler
Powder-coated	WM4	WM5

A filter kit can be ordered to be mounted externally to the fountain if required. The WM5 model is supplied with fittings to temporarily remove bubbler for reinstallation at a later date. This will enable the drinking fountain to be used as a glass filler only unit.

BUBBLERS AND BOTTLE FILLERS

Aqua Cooler bubblers and bottle fillers come in a wide range of configurations designed to suit varied applications. We have contactless options for both bubblers and bottle fillers to enable hands-free dispensing along with vandal resistant push button options.

A Solution For Every Application

Water is essential for sustaining life, and through our collaboration with Oasis International, Aqua Cooler offers a solution for every possible need. Whether you require wall-recessed or surface-mounted bubblers or bottle fillers, our comprehensive range of options is designed to meet the specific demands of your workplace, educational campus, fitness center, or healthcare facility. We provide both manual and sensor-based dispensing choices to adapt to the ever-evolving world.

Education

Many students do not have access to refill stations for their water bottles. Be the educator that cares; make the change by providing them with an Oasis hydration solution.

Workplaces

With more people than ever bringing their water bottles to work, choose from our contactless range of bottle fillers to avoid cross-contamination. Our antimicrobial silver and copper surfaces kill bacteria and maintain safe working environments.

Transport

Studies have shown travellers have few facilities to refill water bottles when they need it most. Be the leaders in caring for the welfare and hydration of thirsty travellers. Provide them with an Aqua Cooler hydration solution.

Fitness & Sports Facilities

Whether you're a gym enthusiast pumping weights, or a sports fanatic chanting loudly, you need rehydrating. Aqua Cooler offers a multitude of options for fitness and sport facilities.

Healthcare

Like health, water is often taken for granted. Ensure your healthcare facility patients and visitors are consuming safe water with Aqua Cooler's contactless bottle fillers.

Configuration Options

Our bubblers and bottle fillers are available in a wide range of configurations to suit a variety of applications, including contactless options to enable hands-free dispensing, and pre-filter kits.

Hydration Stations

VersaFiller - Wall-Mounted Mains Connected All-In-One Unit

LEARN MORE

The VersaFiller Series comes in a wide range of configurations, including single and split-level designs, both of which feature either manual or contactless bubblers and bottle fillers.

KEY FEATURES

- Stainless steel top and heavy duty frame with galvanized or stainless steel option
- High efficiency cooling system and refrigerant R-134a
- Built-in 100 micron strainer stops particles before they enter the waterway
- Waterways are lead free in materials and construction
- External stream height adjustment on bubblers
- Hands-free bottle filler with programmable shut off timer (hands free version only)
- Integrated bottle counter and filter monitor. (hands free version only)

AC-P8EBFTY-ASM

With the option to upgrade to a vandal-resistant design, the VersaFiller is perfect for schools and other public areas. All VersaFiller fountains use R-134a refrigerant and have an efficient, high-performing refrigeration system.

All Oasis bottle fillers are made with proprietary Freshield technology. Freshield harnesses the natural bacteria-fighting power of silver by infusing it into a poly compound on moulded parts of the alcoves.

Hydration Stations

Wall-Recessed Mains Connected Combination Unit

LEARN MORE

Wall-recessed hydration stations include a bottle filler, and a vandal-resistant push button mechanism for using the bubbler.

KEY FEATURES

- Hydration Station Combo - Mechanically activated drinking fountain with contactless bottle filler (AC-M8WREBFY-ASM) or manual bottle filler (AC-M8WRSBFY-ASM)
- Vandal resistant mechanical push button bubbler/drinking fountain
- High efficiency cooling system and refrigerant R-134a
- Stainless steel top and heavy duty steel frame
- Built-in 100 micron strainer stops particles before they enter the waterway
- Waterways are lead free in materials and construction
- Built-in panel locks for easy access to chiller and filtration
- Large alcove to fit most sports bottles
- Built in drain - no drip tray to empty

Activated by a vandal-resistant mechanical push button, the basin is designed to eliminate splashing and standing water. The built-in, electronic, recessed bottle filler contains a silver-based antimicrobial compound that reduces the growth of micro-organisms and mildew to protect the surface from discoloration, odours, and degradation. Optional filtration for taste, odour, and chlorine reduction is also available. The cooling system uses the highly efficient R-134a refrigerant.

All Oasis bottle fillers are made with proprietary Freshield technology. Freshield harnesses the natural bacteria-fighting power of silver by infusing it into a poly compound on moulded parts of the alcoves.

Bubblers

VersaCooler - Surface Mounted Mains Connected Bubbler

The VersaCooler Series is a wall-mounted water bubbler offering refrigerated drinking water with a contactless and vandal-resistant option.

KEY FEATURES

- Vandal resistant manual activation model (AC-PV8ACY-ASM) with mechanically activated push button
- Electronic sensor touch free activation (AC-P8ACTY-ASM) with hands free activation
- Stainless steel top and heavy duty frame
- High efficiency cooling system using R-134a refrigerant
- Built-in 100-micron strainer stops particles before they enter the waterway
- Waterways are lead-free in materials and construction
- Flexible, one-piece water saver bubbler guard
- Basin is designed to eliminate splashing and standing water
- Water-saver bubbler reduces waste water by 50%.
- External stream height adjustment
- Heavy duty galvanised steel frame
- Energy-efficient refrigeration system powers 'ON' only when in use or if water temp increases during long period of standby

The heavy-duty galvanised steel frame makes the unit extra durable, perfect for high volume applications. With a basin designed to eliminate splashing and standing water, to reduce waste by 50%.

Also featuring a 100-micron strainer to stop particles entering the lead-free waterway, and with a vandal-resistant & contactless design, the VersaCooler is perfect for schools and other public areas.

VersaCooler fountains use R-134a refrigerant and have an efficient, high-performing refrigeration system.

AC-P8ACTY-ASM

Bottle Fillers

Wall Mounted Mains Connected Bottle Filler

This refrigerated bottle filler is perfect for those high traffic areas. With a contactless, touch-free activation - there are no fears of cross-contamination in a touch sensitive environment.

KEY FEATURES

- Electronic touch free activation (AC-PN8EBFY-ASM) with hands free activation with shut off timer
- Included bottle counter, filter monitor and programmable time-out feature
- Heavy-duty steel frame with a stainless steel finish
- Built-in 100-micron strainer stops particles before they enter the waterway
- Large alcove to fit most sports bottles
- Energy-efficient LEDs illuminate alcove and aids bottle filling
- Built-in drain - no drip tray to empty
- Access through side panel for easy maintenance
- High efficiency cooling system and refrigerant R-134a

Our surface-mounted bottle filler units offer refrigerated drinking water with touch-free, electronic automatic dispense mechanism. Perfect for high-volume applications, this fountain utilises R-134a refrigerant with a high-performing refrigeration system.

A 100-micron strainer stops particles entering the lead-free waterway and a heavy-duty galvanised steel frame making the unit extra durable. This bottle filler also comes with a built-in bottle counter, filter monitor and programmable time-out feature.

All Oasis bottle fillers are made with proprietary Freshfield technology. Freshfield harnesses the natural bacteria-fighting power of silver by infusing it into a poly compound on moulded parts of the alcoves.

Bottle Fillers

Semi-Recessed Wall Mounted Mains Connected Bottle Filler

Our semi-recessed bottle fillers offer refrigerated drinking water with automatic dispensing.

*Optional

KEY FEATURES

- Electronic touch free activation (AC-MWSM8EBFY-ASM) with hands free activation with shut off timer
- Built in bottle counter, filter monitor and programmable time-out feature
- Large alcove to fit most sports bottles
- Energy-efficient LED's illuminate alcove and aids bottle filling
- Built in drain - no drip tray to empty
- Heavy-duty steel frame with a stainless steel finish
- Space saving surface mount frame assembly
- Electronic automatic dispense
- Integrated bottle counter and filter monitor
- Built-in 100-micron strainer stops particles before they enter the waterway
- Waterways are lead-free in materials and construction
- High efficiency cooling system and refrigerant R-134a
- Built-in panel locks for easy access to chiller and filtration
- A wall cavity is required behind the bottom half to fit the chiller

Semi-Recessed Bottle Filler units offer refrigerated drinking water with automatic, hands-free dispensing mechanisms. Featuring a 100-micron strainer to stop particles entering the lead-free waterway and a heavy-duty galvanised steel frame making the unit extra durable. Perfect for high-volume applications. All refrigerated fountains use R-134a refrigerant and have an efficient, high-performing refrigeration system.

All Oasis bottle fillers are made with proprietary Freshfield technology. Freshfield harnesses the natural bacteria-fighting power of silver by infusing it into a poly compound on moulded parts of the alcoves.

Please note: The refrigerated unit is fixed to the surface, but a wall cavity is required to fit the chiller behind the lower half of the unit. Alternatively, this can be mounted remotely and water lines run to the unit. Speak with the Aqua Cooler team for details.

AC-MWSM8EBFY-ASM

Bottle Fillers

Wall-Recessed, Mains-Connected Bottle Filler

This wall-recessed, plumbed-in bottle filler comes with hands free dispensing and can produce 30L/h of cold drinking water.

*Optional

*Optional

KEY FEATURES

- Manual activation model (AC-MW8SBFY-ASM) with mechanically activated push button
- Electronic touch free activation (AC-MW8EBFY-ASM) with hands free activation with shut off timer
- Large alcove to fit most sports bottles with built-in drain (no drip tray to empty)
- High efficiency cooling system and refrigerant R-134a
- Energy-efficient refrigeration system powers 'ON' only when in use or if water temp increases during long period of standby
- Stainless steel finish with heavy duty steel frame
- Built-in 100 micron strainer stops particles before they enter the waterway
- Waterways are lead free in materials and construction
- Optional filtration system for taste, odour and chlorine reduction

These wall-recessed bottle fillers are refrigerated, dispensing 30L/h of crisply chilled water with hands-free or manual dispensing mechanisms and featuring a 100-micron strainer to stop particles entering the lead-free waterway.

The heavy-duty galvanised steel frame makes the unit extra durable, perfect for high-volume applications. All refrigerated fountains use R-134a refrigerant and have an efficient, high-performing refrigeration system.

All bottle fillers are made with proprietary Freshfield technology. Freshfield harnesses the natural bacteria-fighting power of silver by infusing it into a poly compound on moulded parts of the alcoves.

Bottle Fillers

Free Standing, Mains-Connected Bottle Filler Units

The Free Standing Bottle Filling Station is perfect for those high traffic areas. With a contactless, touch-free activation - there are no fears of cross-contamination.

*Optional

KEY FEATURES

- Against-a-wall bottle filler
- Contactless (touch free) activation with shut off timer
- Built-in bottle counter, filter monitor and programmable time-out feature
- Large alcove to fit most sports bottles
- Energy-efficient LEDs illuminate alcove and aids bottle filling
- Built-in drain - no drip tray to empty
- Built-in 100 micron strainer stops particles before they enter the waterway
- Waterways are lead-free in materials & construction
- Heavy duty steel frame
- Refrigerated, delivers chilled and ambient water
- Standard cabinet finish: white powder coated atainless steel

These free standing bottle fillers include an electronic sensor for a contactless (touch free) activation and a 30 second shut off timer.

Moulded components contain Freshield, which utilises a silverbased antimicrobial compound that reduces the growth of microorganisms and mildew to protect the surfaces from discolouration, odours and degradation.

Complies with ANSI A117.1 and ADA. Shall comply with all relevant CE directives (LVD , EMC, RoHS). Shall comply with ANSI/NSF 61.

Suitable for public building, gymnasiums, sports complexes, hospitals, schools, and offices. The sloped top prevents rubbish being placed on the unit. The unit can be installed right against the wall to save space.

PUBLIC DRINKING FOUNTAINS

Aqua Cooler is proud to partner with Urban+ to present a collection of outdoor drinking fountains. Crafted to cater to your needs even in the most challenging environments, these elegant fountains are the ideal choice for enhancing parks and recreational spaces.

Looking to save money and the environment? Aqua Cooler is proud to support Urban+ with its unique Restore + Refill program. Their re-crafted water fountain initiative offers customers a choice to refurbish worn-out Urban fountains, where possible, rather than buy new. That stops fountains entering landfill and saves customers money. By encouraging this different thinking and change in behaviour, Urban is striving to make a difference. Join them to reduce, restore, reshape and recycle.

SU Series

Sturdy Outdoor Water Fountains

The SU600 and SU650 are a family of strong and robust fountains perfect for schools and outdoor areas.

KEY FEATURES

- External bottle filler and catchment tray (SU650 only)
- Vandal resistant 316 stainless steel security screws
- Stainless steel basin
- Available in hot dipped galvanised or powder coating (2 colours)

Australian-made and fully WaterMark approved, the SU range can house an additional bottle filler with integrated catchment tray for on-the-go refills. This range is available in two standard colours or you have the option to retain the body's industrial galvanised finish.

Sturdy and resilient as it dispenses beautiful crisp water, Aqua Cooler's new SU600 and SU650 water fountains are at home anywhere in the outdoors. A sleek, tall profile keeps the SU600 and SU650 out of the way in busy thoroughfares while it remains an icon of hydration whether you're in the schoolyard, the park, or even just between meetings in an office complex.

Dimensions

- Total height: 1000mm
- Width: 275
- 5mm steel

Apollo 280

Outdoor Drinking Fountain with Bottle Filler

The Apollo 280 (A280) drinking fountain features a robust design with both bubbler and bottle refill outlets.

KEY FEATURES

- Australian made
- 316 stainless steel front panel, bubbler, basin and catchment tray (optional)
- Strong 8mm mild steel construction
- Easy water activation system
- Unique designed sand/debris resistant activator button
- Bottle refill outlet as standard
- Disabled accessible (complies with AS1428 with longer basin and reduced height options)
- Vandal resistant
- Easy installation fixings and access for maintenance
- Powder coated in premium Dulux steel shield coating finish
- Full parts and technical back up service

With its custom-designed stainless-steel basin and feature front panel, sand/debris resistant activator button, WaterMark certification, and AS1428 compliance options, the A280 is practical, stylish and complements any contemporary urban streetscape or park setting.

The A280 outdoor drinking fountain is the perfect choice for all your hydration needs and the eco-friendly sustainable choice for now and the future.

Optional extras

- Tap and dog bowl
- Tap or maintenance tap available
- Catchment tray
- Longer basin for AS1428 compliance
- Complete stainless steel model available
- Water filter
- Logo, motif or plaque
- Side protection panels

Pet Friendly Range

PF400 & PF450

The PF400 and PF450 are strong, robust fountains perfect for dog off-leash areas.

KEY FEATURES

- Australian made
- Strong mild steel construction
- 316 stainless steel tippable dog bowl
- Fully welded tap mount socket
- Bottle refill as option
- Vandal resistant
- Easy installation and easy access for maintenance
- Powder coated in premium Dulux steel shield coating finish
- Full parts and technical back up service

Ideal for dog off-leash areas, council parks, and outdoor environments where access to water for dogs is required. Both PF400 & PF450 have water bubblers for people and a self-returning tap and easy tipping bowl for dogs as standard. With an additional water bottle refill option for pet owners while exercising or enjoying the outdoors with their furry friends.

The contemporary, stylish PF450 comes with interchangeable side panels that can be customised with your graphics, logo or message.

Outdoor Bottle Refill

BF200 Bottle Refill Station

Greater consciousness of plastic's environmental impacts means the BF200 water bottle refill fountain is ideal for today.

KEY FEATURES

- Australian made
- 316 stainless steel panel fixings and catchment tray (optional)
- Strong 8mm mild steel construction
- Easy water activation system
- Bottle refill as standard
- Vandal resistant
- Easy installation fixings and easy access for maintenance
- Customisable with many options
- Powder coated in premium Dulux steel shield coating finish
- Full parts and technical back up service

Made from heavy duty steel, the BF200 has WaterMark certification and gives users practical access to easily refill their drink bottles. Easy, convenient and with an optional filter, the BF200 helps to reduce the need for single-use plastic bottles and promotes health and wellbeing.

The BF200 bottle refill station is the perfect choice for all your hydration needs and the eco-friendly sustainable choice for now and the future.

Optional extras

- Tap and dog bowl
- Water bubbler
- Tap or maintenance tap available
- Catchment tray
- Water filter
- Logo, motif or plaque

Tap and Dog Bowl

Catchment Tray

Outdoor Bottle Refill

BF200W Wall-Mounted Bottle Refill Station

The BF200W wall-mounted bottle refiller is compact, strong and robust.

KEY FEATURES

- Australian made
- 316 stainless steel panel fixings and catchment tray (optional)
- Strong 8mm mild steel construction
- Easy water activation system
- Bottle refill as standard
- Available in two additional models, BF200WSH (Short), BF200WC (with catchment tray)
- Vandal resistant
- Easy installation and easy access for maintenance
- Powder coated in premium Dulux steel shield coating finish
- Full parts and technical back up service

BF200W is easy to use and ideal for schools, day care centres, gymnasiums and outdoor recreational areas that require access to fresh water. This wall-mounted refill station is the perfect solution to accompany existing water bubblers. Urban's outdoor wall-mounted fountain has WaterMark certification and gives users access to water so they can refill their bottles, encouraging reduced single-use plastic waste.

Easy, convenient and with an optional filter, the BF200W promotes health and wellbeing by encouraging drinking of fresh water.

Dimensions

- Total height: 1050mm
- Width: 180mm x 250 mm
- 8mm steel one piece heavy duty construction

Optional extras

- Catchment tray
- Water filter
- Logo, motif or plaque
- All stainless steel model available
- Compact size

BF200WM Wall-Mounted Bottle Refill Strip

Made from 316 stainless steel the Wall Mounted Bottle Filler Strip is ideal for schools and clubs. Available in 2, 3 or 4 tap refill strips.

KEY FEATURES

- Wall mounted
- Available with two, three or four taps
- Easy push and fill functionality, with self-returning push activator
- Vandal resistant tap flange
- Ideal for schools and clubs
- Designed to fit above drinking troughs
- Optional 'Refill' banner plaque
- Drinking trough not included. (sold separately)

REMOTE WATER SYSTEMS

Our industrial-grade water systems are designed for the remote delivery of chilled drinking water to various outlets, such as drinking troughs and more. Aqua Cooler's selection comprises units that can provide chilled water at rates ranging from 45L/h to 110L/h, making them a superb choice for schools and workplaces alike.

Sonata Series

Sonata Series systems remotely supply chilled drinking water to faucets or fountains. Available in two different configurations to suit your application, be it a schoolyard bubbler or workshop fountain.

KEY FEATURES

- Two models available to suit a variety of applications
- Waterways are lead-free in materials and construction
- Constructed from heavy-duty galvanised steel
- High-efficiency cooling tank and coil
- Refrigerant R-134a for high ambient conditions

Sonata remote drinking water systems deliver either 45L/h or 75L/h (model specific) of water at 10°C cooled from 27°C inlet water at 32°C ambient. Pressure regulating valves are required with water pressures above 5 bar.

Model Selection Chart

Model	Rated capacity	Compressor HP	Full load amps	Rated watts	Cabinet finish	Net weight (approx.)
SMC45	45.0 L/h	1/3	5.4 A	620 W	Galvanised Steel	24 kg
SMC75	75.0 L/H	1/2	3.7 A	814 W	Galvanised Steel	26 kg

PT30 Series

The PT30 remote storage features a large storage tank of 120L and can chill water down to 10°C from 27°C in 32°C ambient at a rate of 110L/h. Perfect for connecting to drinking water troughs.

KEY FEATURES

- Constructed from heavy-duty galvanised steel
- High capacity storage to meet demand
- WaterMark compliant
- Refrigerant R-134a for high ambient conditions

The PT30 series is an excellent choice for use in education environments, and can also be used to pre-chill water for ice machines or in other commercial environments.

WALL MOUNTED DRINKING TROUGHS

Aqua Cooler is delighted to collaborate with 3monkeez, a proudly Australian-owned and operated company. Together, we bring you a selection of stainless-steel drinking troughs that are ideal for complementing our remote water systems.

Drinking Trough PWD

With outlet fittings configured to your requirements and a 60mm boxed splashback, this drinking trough is ideal for many applications.

LEARN MORE

KEY FEATURES

- Constructed from 1.2mm 304 grade satin stainless steel
- Left or right hand drain outlet available
- Available in 6 lengths as required, or ask us about custom jobs
- Radius external and internal corners for safety and easy cleaning
- 900mm, 1200mm, 1500mm, 1800mm, 2400mm and 3000mm available off the shelf
- Bubbler fittings include silicone mouthguard
- Choice of lever handle (for young children) or push button dispensing on bubbler and bottle filler
- Simply choose your length of trough, then add your outlets to suit. Mix and match to best meet your needs
- Outlets are available pre-plumbed or just on a supply basis for DIY installs.

T-3MSS-BUB90L

T-3MSS-BUB90P

T-3MSS-BFL

T-3MSS-BFP

The internal and external radius corners are designed for safety and easy cleaning. A 60mm cavity in the splashback enables tapware to be easily installed with no rear wall penetrations. This trough is perfect for educational facilities, public amenities, factories and more.

Suggested mounting height for drinking trough:

- Infant - 550mm
- Primary - 700mm
- Secondary - 900mm

Suggested mounting height for wash trough:

- Infant - 550mm
- Primary - 650mm
- Secondary - 700mm

WATER COOLERS

Aqua Cooler is the trusted choice for thousands of customers who depend on our brand to deliver cold, filtered water to their waiting rooms, lunchrooms, residences, fitness centres, educational institutions, and workplaces. This trust is rooted in the exceptional quality and value that Aqua Cooler water coolers provide. The stylish, contemporary designs, combined with the renowned reliability inherent in all Aqua Cooler products, make them the ideal solution for all your drinking water requirements.

Harmony Series

Bottled water coolers

Aqua Cooler's Harmony range offers unrivalled value in bottled, hot and cold drinking water dispensers.

KEY FEATURES

- 2.0L/h cold water chilling capacity
- 5.0L/h hot water heating capacity
- Durable polypropylene, colour-coded, self-closing taps, with child-proof mechanism on hot tap (on HBHC model)
- Food-grade, stainless-steel water tank and dispensing tubes
- Easy-to-clean, removable drip tray
- 12 months standard warranty and 36 months refrigeration circuit warranty.

Discover a modern touch with the Harmony Series Water Cooler, featuring a simple yet stylish rounded plastic enclosure. Its quietly efficient compressor makes it an excellent fit for home or small office settings.

Crafted with care from quality materials, Harmony Series Coolers include a food-grade stainless-steel water tank and dispensing tubes, ensuring durability for years to come.

Designed for easy use with 12L or 15L pre-filled spring water bottles, the Harmony Bottled Water Cooler provides a reliable solution. With a cold water capacity of 2L/h and hot water capacity of 5L/h, it ensures a steady supply of fresh water for your everyday needs.

Odyssey Series

Free Standing Water Cooler

The Odyssey Series offers unrivalled value in bottled ambient and cold drinking water dispensers. The modern cooler is the perfect unit for family homes, renters and small offices all year round.

*Optional

KEY FEATURES

- Stylish front facade made from high quality durable plastic, coupled with steel side panels for strength
- Easy-to-use taps, only one hand required
- Food-grade, stainless steel water contact tubes
- Durable polypropylene, self-closing taps
- Easy-to-clean, removable drip tray
- 12-month standard warranty and additional 24-month refrigeration system coverage
- Full range of replacement parts

The Odyssey Series is a free-standing unit available in ambient and cold configurations. The series has a 2.5L tank and is an excellent choice for any application, dispensing 2.5L/H of cold water.

The cooler is created from high-quality materials including food-grade and stainless-steel water contact tubes. The durable plastic, coupled with steel side panels for strength, making this unit perfect for home and small office use.

The Odyssey Series is covered with a 12-month standard warranty and additional 24-month refrigeration system coverage. A full range of replacement parts is available to keep the unit in operation for longer.

AC-ODYBCC-BLK

Odyssey Series

Countertop Bottled Water Cooler

The Odyssey Series offers unparalleled value in bottled countertop water coolers in both cook-and-cold and hot-and-cold configurations.

*Optional

KEY FEATURES

- Stylish front facade made from high quality durable plastic, coupled with steel side panels for strength
- Easy-to-use taps, only one hand required
- Food-grade, stainless steel water contact tubes
- Durable polypropylene, self-closing taps
- Easy-to-clean, removable drip tray
- 12-month standard warranty and additional 24-month refrigeration system coverage
- Full range of replacement parts

The stylish Odyssey Countertop Water Cooler brings the ultimate flexibility to your home benchtop drinking water options. These convenient systems can either be used with refillable filter bottle or with pre-filled spring water bottles purchased from spring water companies.

Perfect for home and small office applications, the 2.0L cold tank cools down fast, ensuring you always have access to fresh, chilled drinking water. Our hot and cold model also dispenses water perfect for your cup of tea or noodles.

Available in;

- Hot & Cold – The perfect mix of hot water for making coffee/tea and chilled water for keeping refreshed.
- Cook & Cold – Chilled drinking water and Cook/Ambient temperature water ideal for cooking and other home applications.

Maximus Series

Mains-Connected Water Coolers

The largest capacity commercially suitable water cooler in Australia, the Maximus Plumbed-In Water Cooler is ideal for use in high-demand areas.

KEY FEATURES

- 6.5L/h cold water chilling capacity
- Massive 14L cold water tank storage to manage peak demand
- Durable self-closing taps
- Easy-to-clean, removable drip tray
- Heavy-duty powder-coated steel side panels and corner pieces
- 12 months standard warranty and 36 months refrigeration circuit warranty.
- Australian Watermark Certification (Lic No. WMK26317)

There is no other water cooler like Maximus, making it the best choice for offices, workshops, warehouses and more.

Enjoy perfectly chilled water, on demand with the unprecedented 14L cold tank with a 6.5L chilling capacity per hour. Convenient mains connection via 1/4" push fit female fitting and includes connection kit to connect to a 1/2" tap. Internal self-filling mechanism keeps the water tank topped up automatically.

This free-standing unit serves both ambient and cold water, with self-closing taps. An optional external filter kit is also available to be added. Maximus is the largest capacity commercial water cooler range available on the Australian market. No other cooler in its class offers the same level of performance making Maximus the ideal choice for high-demand areas such as offices and workshops.

UNDER BENCH

Aqua Cooler under bench chillers sit out of sight and deliver a steady supply of chilled water to a tap or faucet above the bench. These under-bench units offer a practical alternative to storing water jugs in the refrigerator and, when equipped with an optional filter, deliver chilled and filtered water on demand, anytime you need it.

H₂O Now

BY AQUA COOLER

The H2ONow chiller by Aqua Cooler is an innovative drink system designed to sit out of sight and dispense filtered chilled water on demand.

LEARN MORE

KEY FEATURES

- 5L/H chilled water output
- Stylish chilled tap
- Simple to use, with automatic shutdown
- Thoughtfully designed for space-saving under-bench installation
- Fully insulated to achieve maximum energy efficiency
- Easy filter replacement with a single twist
- 12-months standard warranty
- Full range of replacement parts

A 5L per hour chilling capacity means you'll always have fresh, cold water available. The included carbon filter kit removes chlorine, taste, odour, and fine particles from cold water.

The stylishly designed tap includes an LED reminder light, to indicate when it's time to replace your filter, and filters are easily replaced with a single twist off/on fitting.
