

## DESCRIPTION

The OPTIMUM FINGER SWITCH can enhance the dispensing process by increasing the accuracy and comfort for precision work (circuit boards, jewellery, micro-applications...).

It is used instead of the OPTIMUM FOOT PEDAL.

Directly mounted on the cartridge, this is the ideal accessory for a hand control of the dispensing actuation. Compact and with great lock ability, it really shapes around the cartridge in total discretion for a small footprint.

## TECHNICAL DETAILS

- Material : plastic
- Standard : 30cc-50cc
- Colour : transparent with a black connexion cable
- Connexion cable length: 1.90m
- ID: 25mm(0.98") OD: 28.5mm(1.12") L: 53mm(2.09")
- Overall dimensions: ID: 41mm(1.61") x OD: 28,5mm(1.12") x L: 53mm (2.09")
- Weight : 35g
- Package Content : 1 x finger switch (component in option)
