

FOLDING BULL BAR ANTENNA MOUNT

FBBM-P & FBBM-B

The Folding Bull Bar Mounts (FBBM) provides the ability to easily fold down long UHF CB or Mobile Phone antennas when needed. These can be mounted on a standard bull bar tab which has a 16mm hole or a number of bull bar antenna brackets.

The FBBM is made from 304 grade stainless steel which is available in either a bright polished finish or black chrome. The mount can be folded in one of 4 positions; 0° (vertical), 33°, 67° & 90° (horizontal), via a simple spring loaded pin.

Includes a 6mm spacer to aid mounting on angled bull bars (see images below).

Features:

- Manufactured from 304 grade stainless steel
- Folds in one of 4 position from vertical to horizontal
- Mounts on standard 16mm antenna hole
- Design to take standard UHF CB and Mobile Phone antennas

Item Number	Description
FBBM-P	Folding Bull Bar Bracket - Polished
FBBM-B	Folding Bull Bar Bracket – Black Chrome
