Craftsmanship

Creativity

LIGNIS® finds its history in our passion for wood, a natural, warm and lively material.

Our two generations experience with wood veneers since 1979, has brought us to express our creativity in the LIGNIS® project.

LIGNIS® accessories reinvent in a fresh version the classic inlay in wood, an ancient technique made of time and dexterity, restoring soul and personality to our contemporary living environments.

OUR HISTORY, OUR PRESENT

PRODUCTS

Portofino, Nelumbo, Vulcano, Dolcevita, Inverso and Capriccio: 6 product collections entirely designed and produced in Italy, result of a deep knowledge of precious and rare wood species, mixed to the experience in craftsmanship of natural materials.

Tradition meets modernity in exclusive and unique objects, suitable for different interior styles.

FLEXILO, THE TECHNOLOGY THAT MAKES WOOD FLEXIBLE

Nelumbo and Portofino objects are also a pleasure for hands, because they are built with an innovative technology Flexilo that makes the wood surprisingly soft to the touch. A thin sheet of wood coupled with technical fabric gives life to objects functional, unusual and highly decorative.

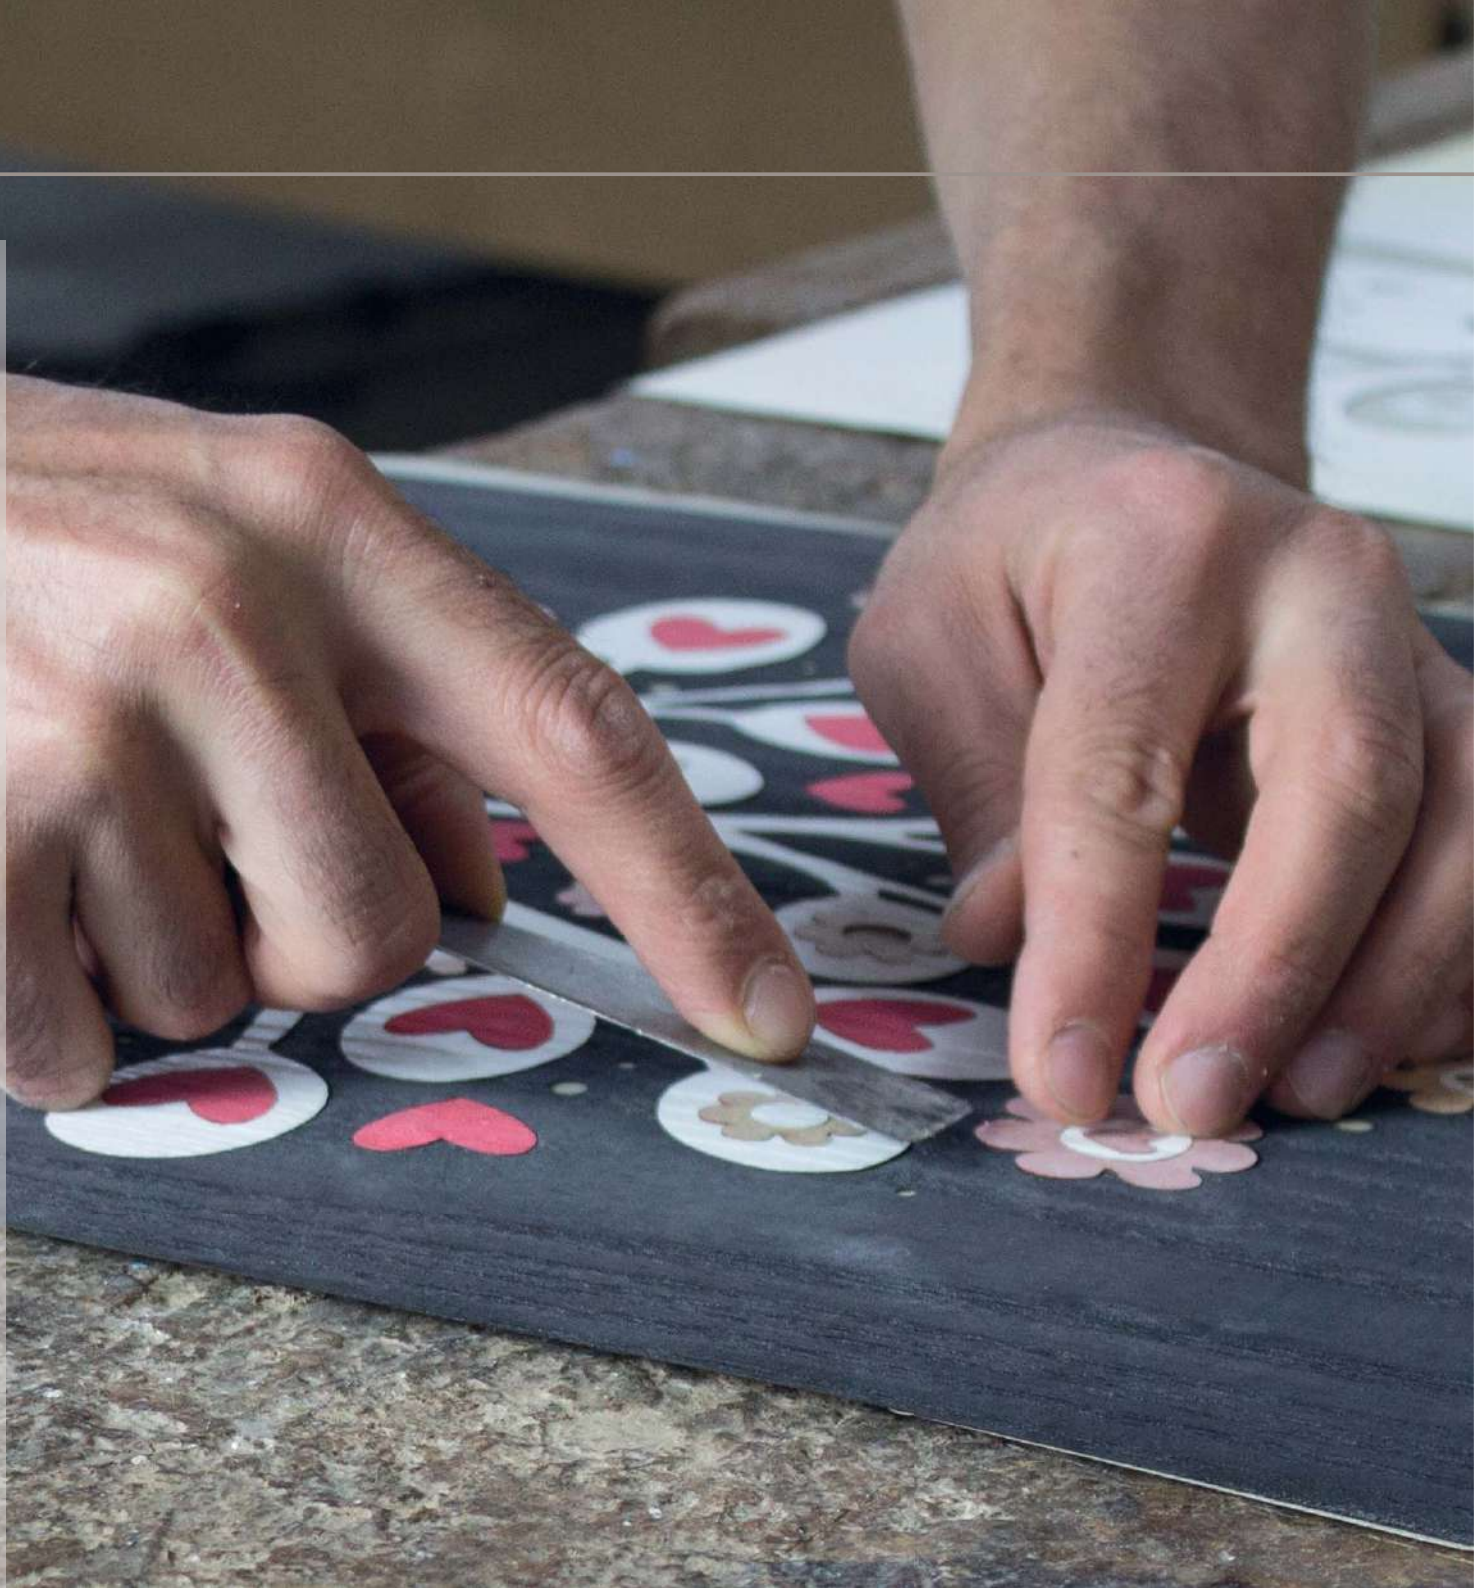

THE MAN'S WORK

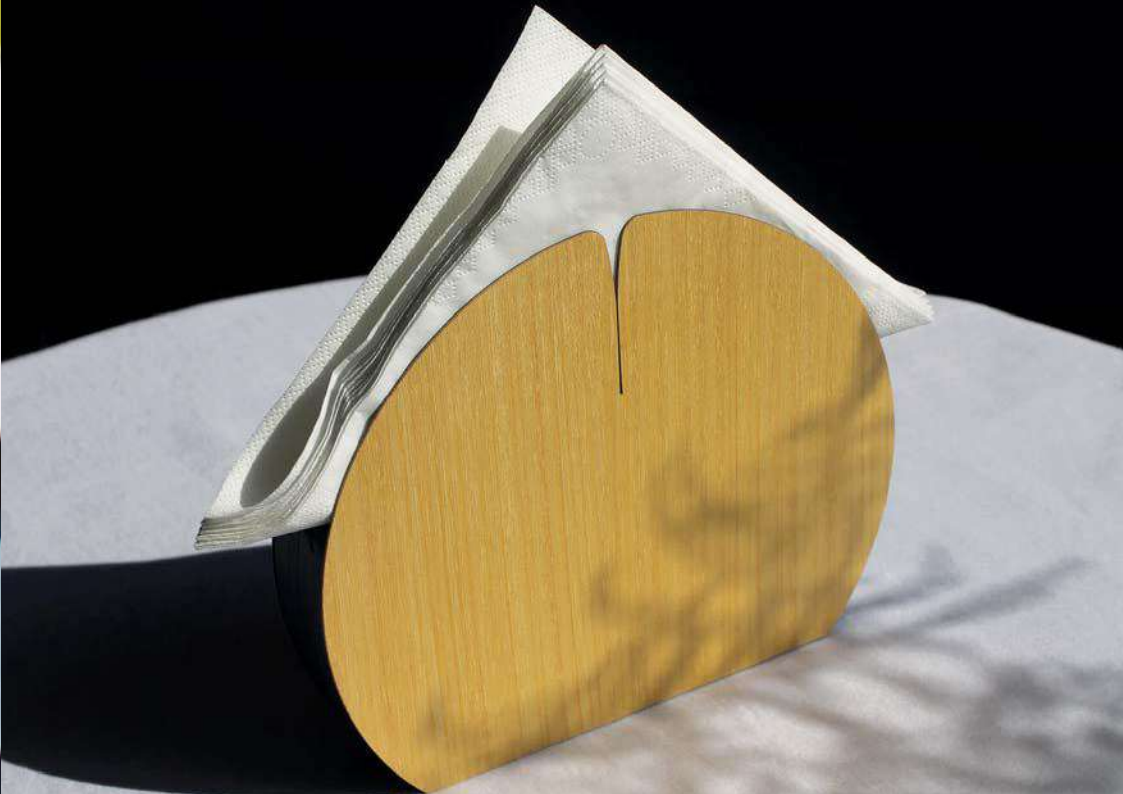

Each LIGNIS® product is the result of the work of expert hands who dedicate time and passion to choose, cut and assembly natural materials by hand.

LIGNIS® bases its activity on this important value. The artisan that performs a LIGNIS® product transfers to the object a part of himself, giving a sense of creativity and humanity to his own work.

For this reason, choosing LIGNIS® means to donate to our indoor environments a unique product, never equal to any other one, made by authentic people for authentic people.
