colouring book

download print colour

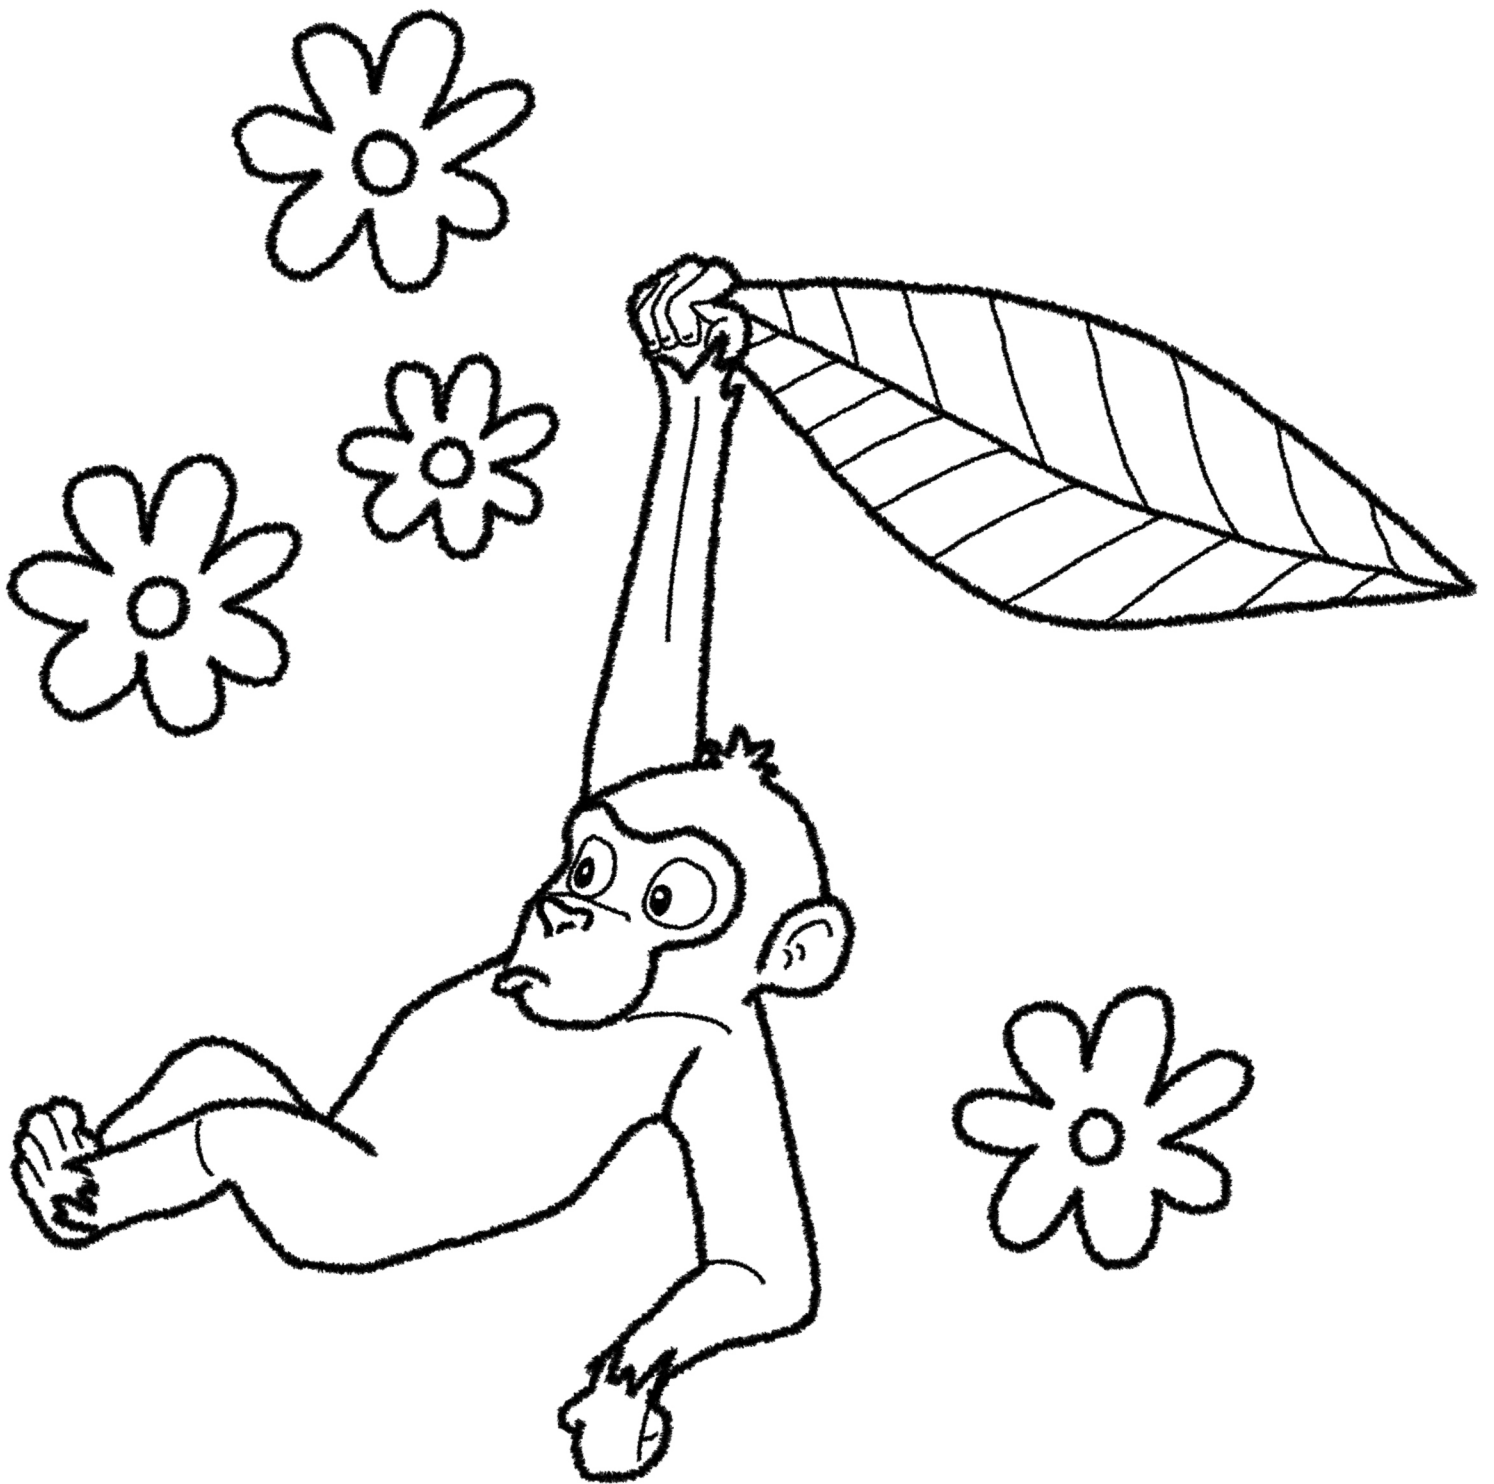

Hi

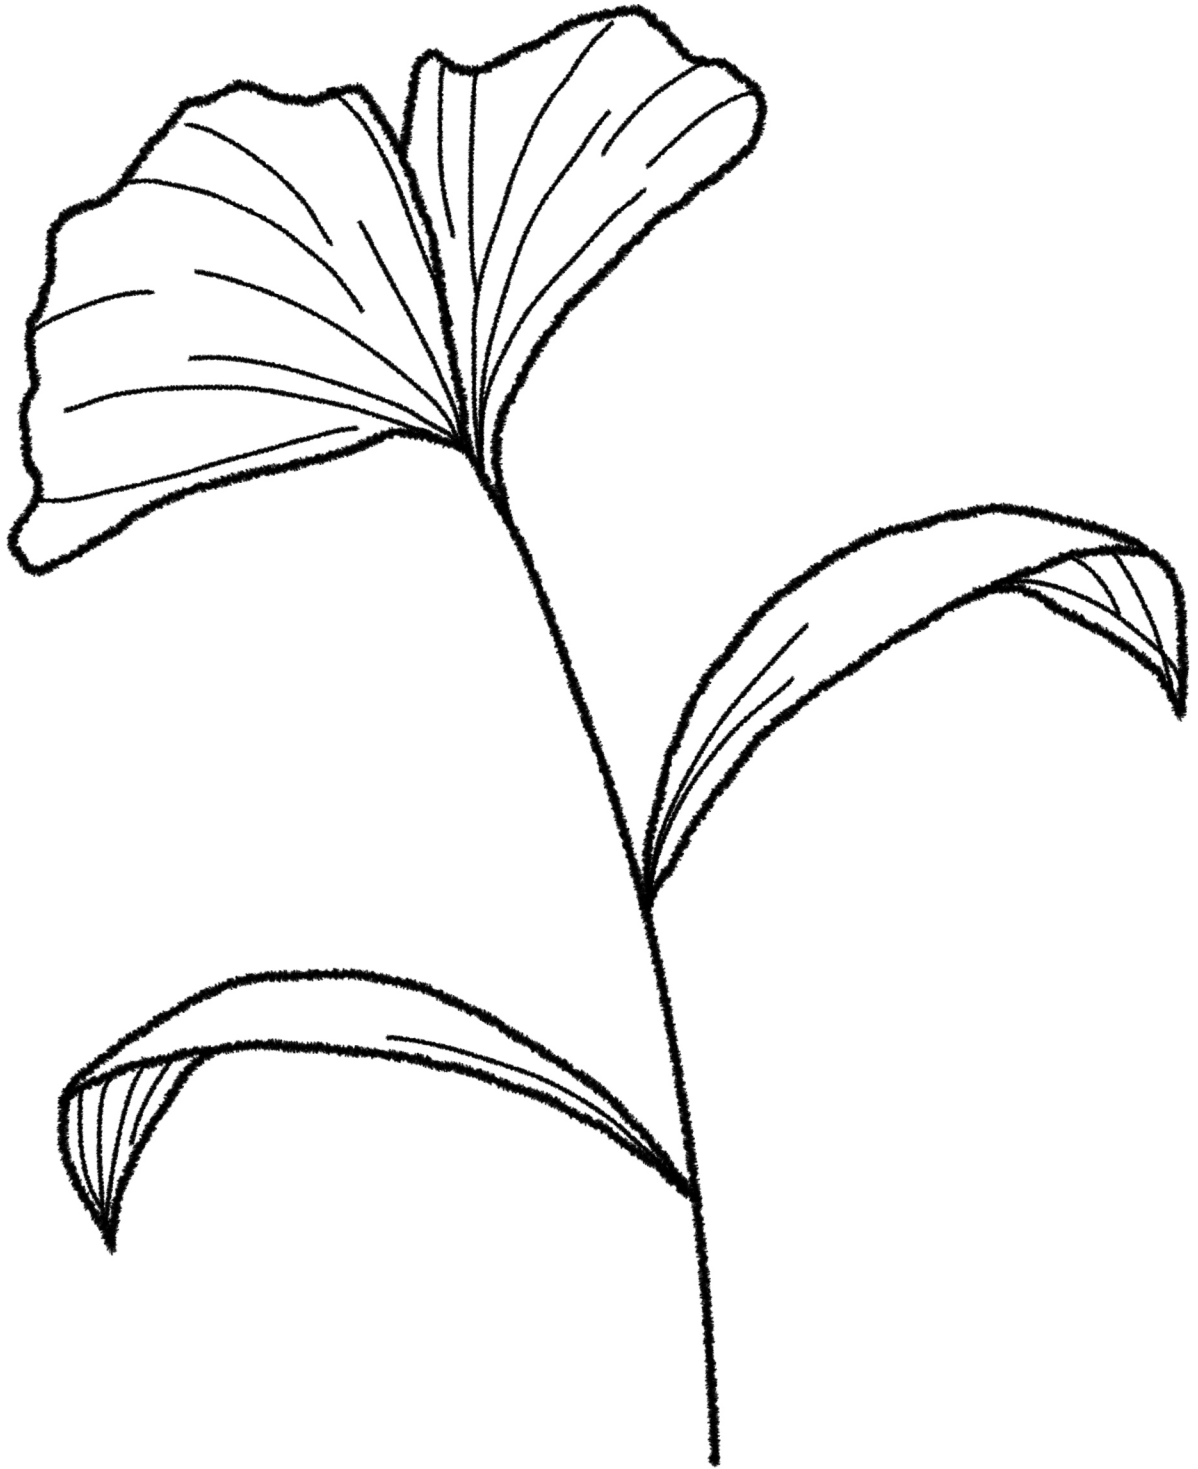

This is our first ever downloadable colouring book! It is made specially for your little ones (& you). All the illustrations were made in-house at the miko lolo studio. You may recognise some of these from our past and present print collections.

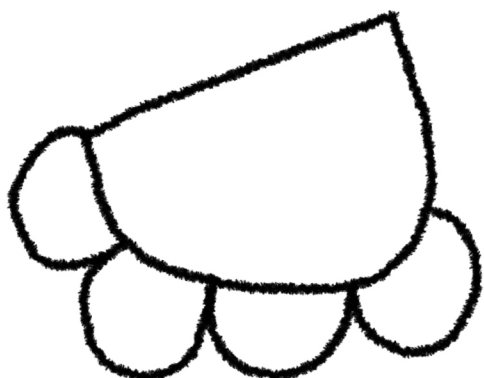

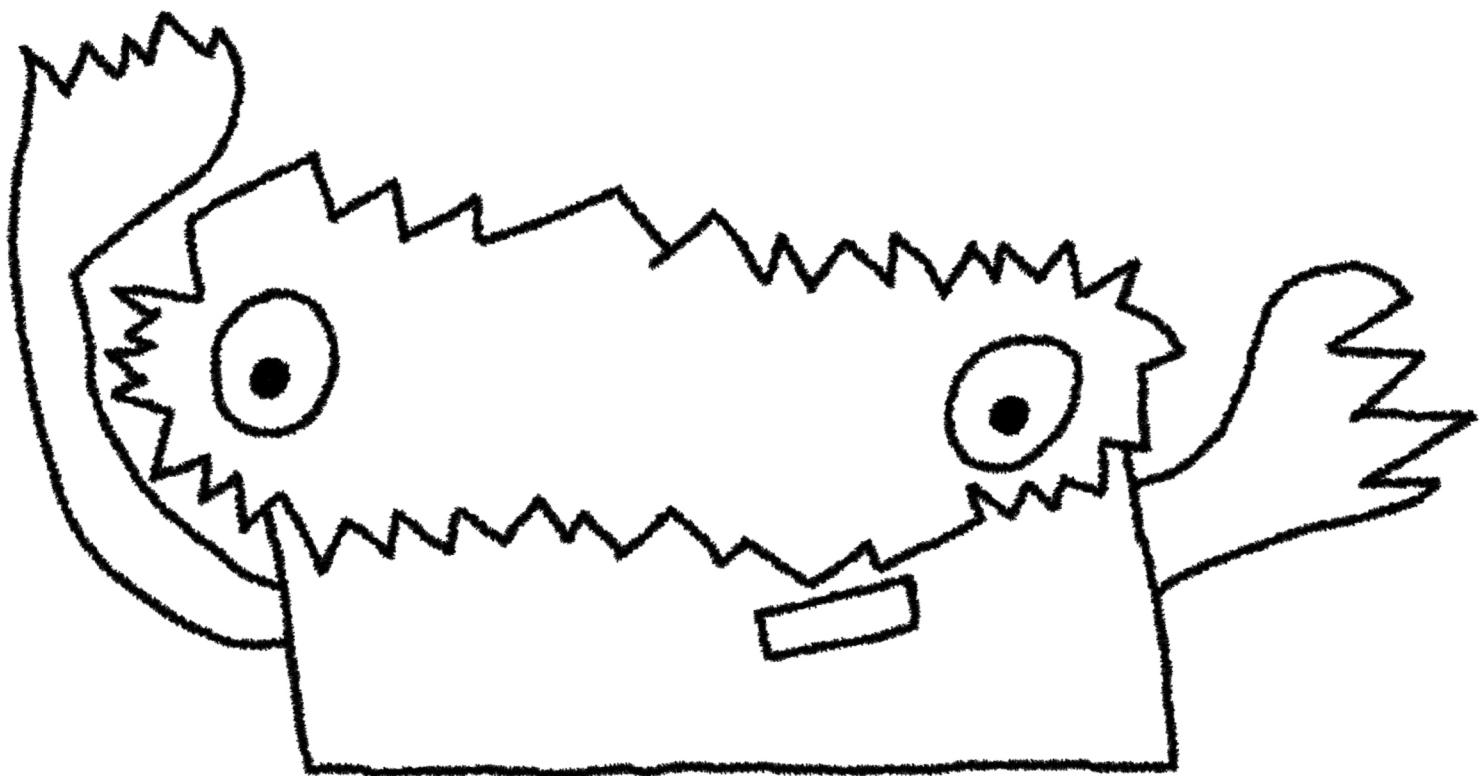

We hope you enjoy adding colours to the pages (like we do, to your life!) Share with friends, cousins, and neighbours.

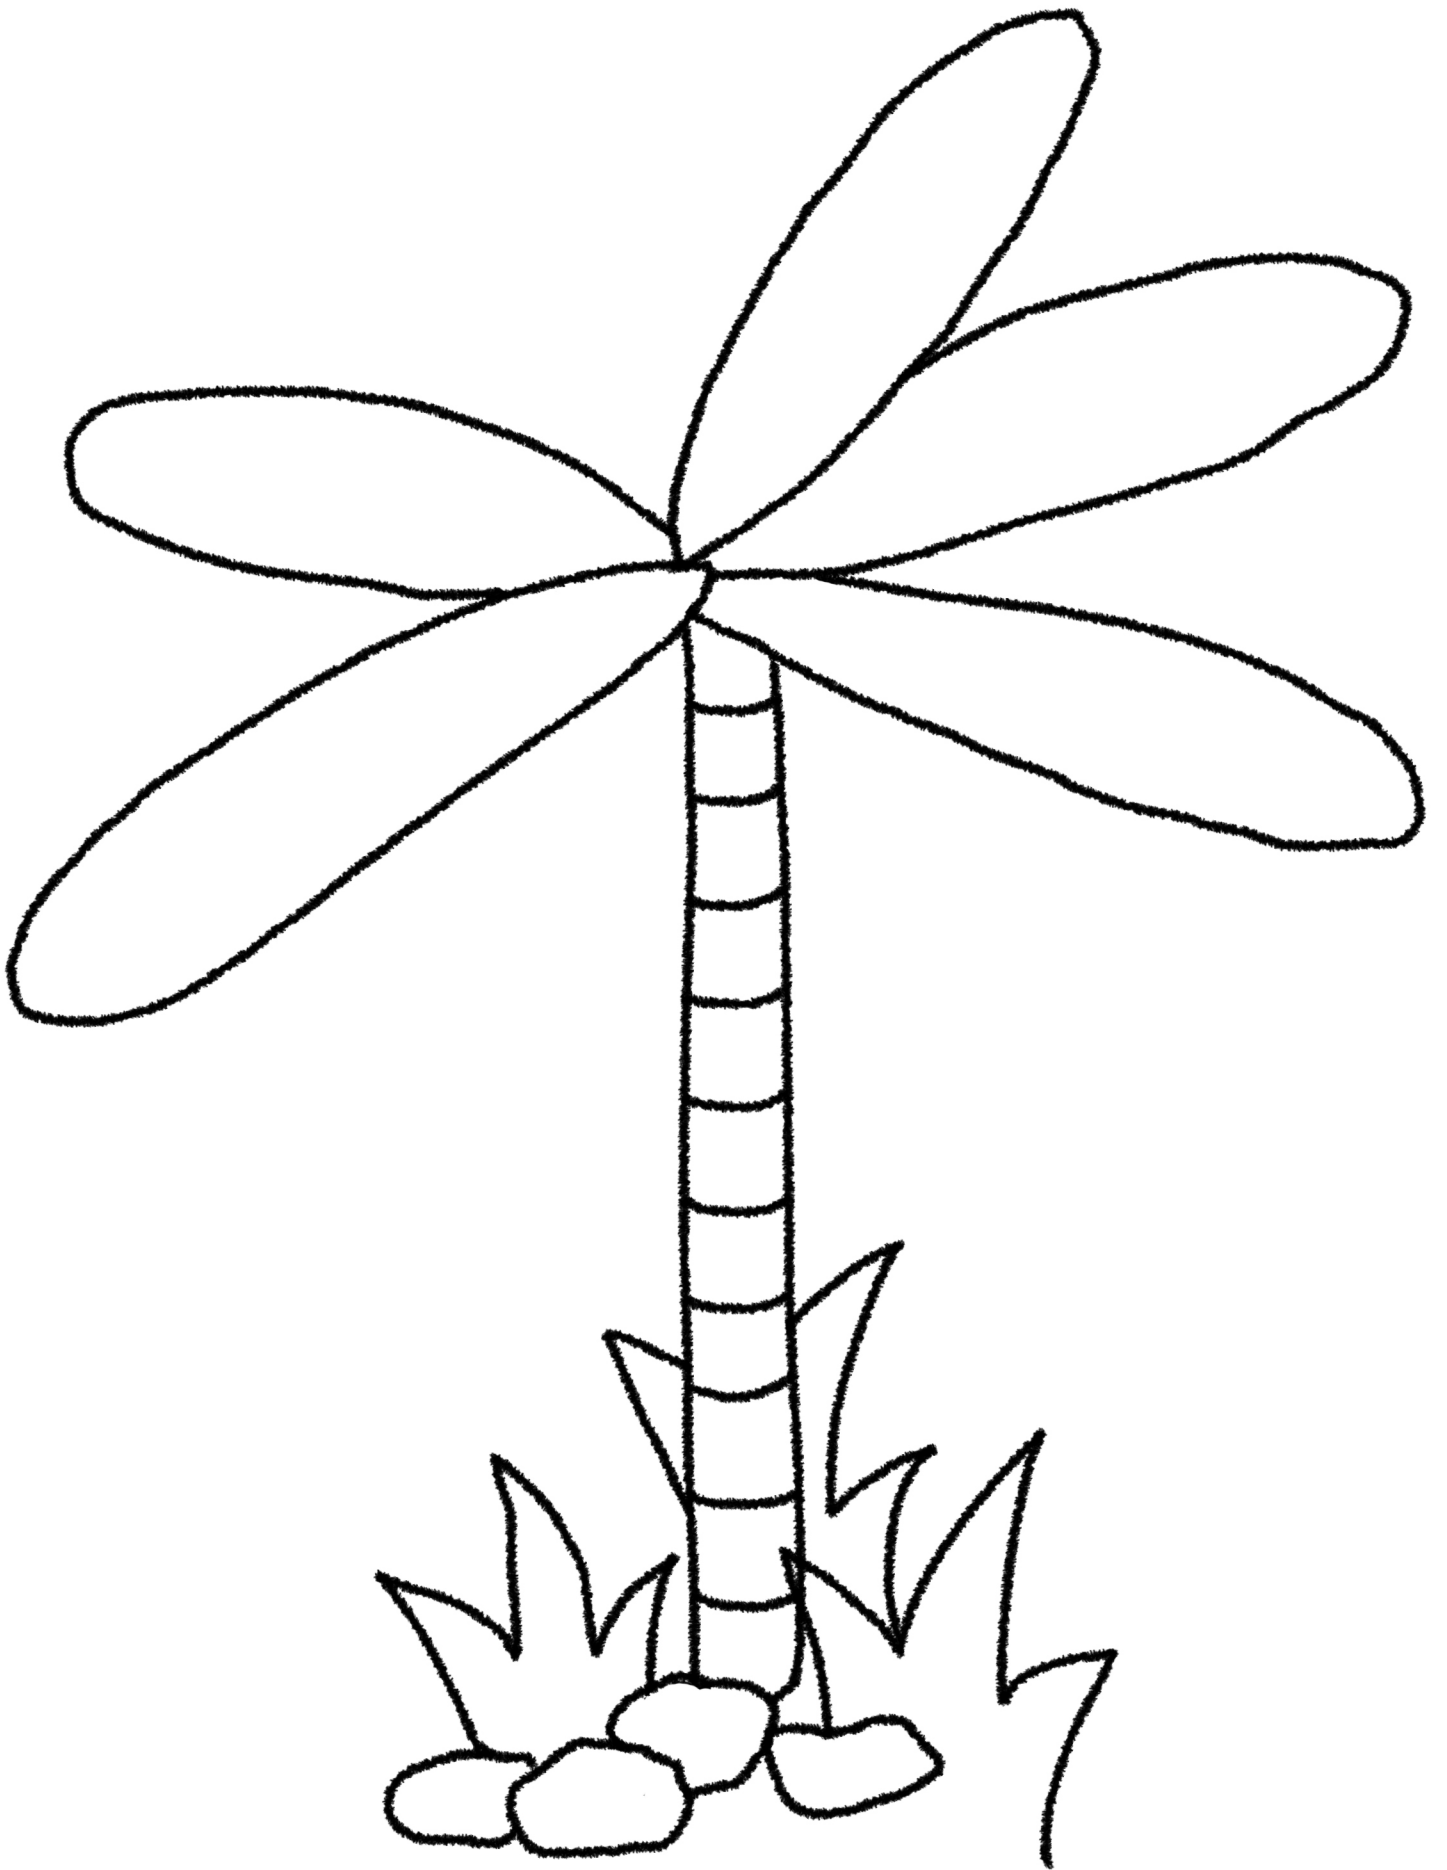

P.S. We'd love to see your masterpieces!
