

a fanciful collection for summer 22/23

Magic in the moon- light.

by olive and the captain

Magic in the moon- light.

a collection about summer nights,
ferris wheels and fairy floss.
late nights dancing under the stars,
staying up past your bedtime.

and what follows after the sun goes down,
is as wild as your imagination.
to sleep or not to sleep, that is the question.

dream on, baby.

we proudly support small family run businesses around the world in the ethical production of our garments.

our premium fabrics that we've become known for, are sourced from the highest grade fabric markets so kids can WEAR them, LOVE them, then SHARE them with the next sibling, cousin, friend, friend-of-friend (you get the idea).

we live for quirky prints, fun puns and clashing colours. all of our prints are designed in-house by kori and therefore are truly one of a kind.

we keep things exclusive by offering single print runs. don't hesitate, you might miss out on the magic.
