

MarbleShell M

MS20

- ▶ **Micro ATX Computer Case**
- ▶ **Modern design with optimized airflow**
- ▶ **Include 2 addressable RGB fans**

ECA-MS20-BB-ARGB

ECA-MS20-WW-ARGB

MarbleShell M MS20, a mini-tower case, is designed with the middle webbed on the stylish front panel; combined with the 2 pre-installed addressable RGB fans at front, it can bring more intake air to keep the system cool down. This series can support addressable RGB synchronization and further provide an integrated hub which can connect 6x ARGB devices' lighting in sync. Available in 2 color versions: Black and White, through the 4mm full-size tempered glass side panel, MarbleShell M MS20 allows users to present distinctive build either in black or white theme.

Features

- ▶ **Modern design with optimized airflow structure**

The stylish front panel with middle webbed design provides high airflow into the system for more efficient.

- ▶ **Support addressable RGB lighting effects**

MarbleShell M MS20 features 2 x pre-installed addressable RGB fans which can deliver 16.8 million color options.

2 ways to control addressable RGB lighting effects

Through Motherboard Software

Users can sync the RGB lighting with motherboards featuring addressable RGB headers (3 pin assignment: 5V/D/G).

Through Computer Case

Users can use the *lighting control button to adjust preferred lighting effects. (13 pre-set lighting effects: Rainbow, Snake, Peach & Green scroll, Colors breathe, Colors scroll, Bilateral colors scroll, Red, Green, Blue, White, Yellow, Azure, and Peach.)

- * Long press the **lighting control button** for 2~3 seconds to switch the RGB sync controlled by M/B or case
- * The **reset button** located on the front I/O panel is replaced by the **lighting control button**

Integrated hub

For those who do not use the RGB-sync motherboards, the integrated hub allows users to keep 6x addressable RGB devices' lighting in sync

Flexible system configuration
