StarryKnight SK30

RGB Addressable ENERMAX

ASUS AURA SYNC

WORKS WITH RAZER CHROMA RGB

RGB FUSION 2.0 GIGABYTE

ASRock POLYCHROME SYNC

RGB msi MYSTIC LIGHT SYNC

StarryKnight SK30

- *Dazzling RGB by pre-installed 4 x SquA ARGB fans*
- *Support vertical GPU installation by vertically expansion slot*
- *Tool-less GPU holder to protect system component from sagging*
- *Curved mesh surface design provides best air-flow*
- *6-ports control hub supports addressable RGB lighting synchronization*

Features

- Excellent expandability
    - Support to install E-ATX motherboard for high-end system built.
    - Up to 200mm PSU installation by removable HDD cage.
    - Two-vertically expansion slots supports GPU vertical installation needs.
- Outstanding cooling capacity
    - Total two 360mm radiators installation at the top and in the front to keep system stay cool.
    - Maximum NINE fans installation provides the best air-flow in the chassis.
    - Curved mesh surface design for excellent ventilation.
- User-friendly
    - Side I/O ports panel design unaffected users to rebuilt front panel parts.
    - Tool-less GPU holder to protecting system component from sagging and stability.
    - Removable dust filters on both top and bottom sides to clean easily.
- Dazzling RGB
    - Build-in 6 ports LED control HUB supports addressable RGB lighting synchronization.
    - Pre-installed 4 SquA RGB fans present unique RGB lighting effects.
    - 13 pre-set lighting effects through IO reset button.

Total two 360mm radiators installation
at the top and in the front

Maximum NINE fans installation
provides best air-flow in the chasis

Curved mesh provide outstanding ventilation

Tool-less GPU Holder

Build-in 6 ports Addressable RGB control hub

7-horizontally & 2-vertically expansion slots

2 ways to control addressable RGB lighting effects

Through Motherboard Software

Users can sync the RGB lighting with motherboards featuring addressable RGB headers
(3 pin assignment is 5V/D/G)

Through Computer Case

Users can use the *lighting control button to adjust Preferred lighting effects
(13 pre-set lighting effects : Rainbow, Snake, Peach & Green scroll, Colors breathe,
Colors scroll, Bilateral colors scroll, Red, Green, Blue, White, Yellow, Azure, and Peach.)

* Long press the lighting control button for 2~3 seconds to switch the RGB sync controlled by M/B or case
* The reset button located on the front I/O panel is replaced by the lighting control button

Dust filter on both top and bottom side

Interior configuration –
MINI-ITX to E-ATX motherboard compatibility

Support total 2 x 3.5" and 4 x 2.5"
(2 x converted from 3.5" HDD Cage)drive bays)

Support up to 405mm VGA installation. (Excluded radiator)

Removable HDD cage for maximum PSU install
