

Thinkwell’s Homeschool Honors Geometry | Course Lesson Plan: 36 weeks

Welcome to Thinkwell’s Homeschool Honors Geometry!

Thank you for making us part of your homeschool curriculum. This 36-week lesson plan is meant to be a guide for you and your homeschool student. Feel free to modify this plan to suit your individual needs.

As described below, each day your student will study a different topic and all the materials associated with that topic, such as video lectures, exercises, and worksheets. Expect to spend about an hour to an hour and a half per day on the content suggested here.

If you follow our day-by-day schedule, you’ll complete the full curriculum for the course in 36 weeks. Please [let us know](#) if we can assist you with any of the material here. We’re happy to be your partner in thinking well.

Schedule Overview:

Week 1	<i>Optional: Homeschool Algebra Review</i>
Weeks 2 – 4	Chapter 1: Fundamentals of Geometry
Weeks 4 – 7	Chapter 2: Reasoning and Writing Geometric Proofs
Weeks 7 – 10	Chapter 3: Parallel and Perpendicular Lines
Weeks 10 – 13	Chapter 4: Triangle Congruence
Weeks 14 – 15	Chapter 5: Properties and Attributes of Triangles

Weeks 34 – 36	Chapter 12: Transformational Geometry
Week 36	Final Exam

On the pages that follow is a week-by-week, day-by-day list of Geometry content for your student to complete in order to stay on track with Thinkwell’s Honors Geometry coursework. Under each week’s header you’ll see what chapter your student will be working on, along with the daily assignments for that chapter.

On a given day, your student may have one or more topics to complete. The online content for that topic will typically include one or more video lessons for your student to watch. The total time for the video lessons is noted in parentheses next to the topic name.

Each topic listed in this lesson plan will have a core set of content for your student to view and complete:

Week 1
Chapter 1: Fundamentals of Geometry
<i>Assignments</i>
Week 1, Day 1
1.1.1 Understanding Points, Lines, and Planes (8:27)

- 1) Video lessons
- 2) Lesson notes
- 3) Topic worksheet
- 4) Thinkwell exercise

Core materials for this topic:

-  **Watch Lecture - Example 1** | 100% Completed
[03:05] 
-  **Watch Lecture - Example 2** | 100% Completed
[02:37] 
-  **Watch Lecture - Example 3** | 25% Completed
[02:06] 
-  **Watch Lecture - Example 4** | 54% Completed
[04:08] 

-  **Notes**
-  **Topic Worksheet**
-  **Topic Worksheet Answer Key**
-  **Thinkwell Exercise** (9 questions)

We suggest that your student first open the notes for that topic. Notes will include key terms, definitions, formulas and illustrations. You may want to print the notes so that your student can take notes on the lesson content as they view the videos. Printed notes are available to purchase as a book if you choose.

Next, we suggest that your student view the video lessons in their entirety.

Finally, students can complete the topic worksheet or they can do the Thinkwell online exercise to demonstrate that they’ve successfully understood the concepts presented in the lesson. Worksheets and exercises are for practice only and will not count towards the course grade.

After your student has completed a section of topics, they will take a section quiz. Quizzes are available on the Assessments page, and are available to take once for a grade. Practice and Chapter Tests will be scheduled at the end of each chapter. Midterm and Final Exams are also available and are scheduled for weeks 19 and 36, respectively.

As always, feel free to modify this plan to best suit your student’s needs. If at any time you require assistance with your course, please reach out to us at support@thinkwell.com.

We’re happy to be your partner in thinking well.
