

HOW THIS COURSE WORKS:

8th Grade Essential Skills

This Essential Skills course consists of 7 core chapters that cover the foundational ideas from 8th grade math. Also included is an *Optional Skills Review* chapter that's available for you to use if you need to brush up on your basics.

Each chapter has 5 - 10 lesson topics which include the following learning material:

- **Lecture Videos featuring Professor Edward Burger**
The lecture videos are 3-5 minutes each. Watch these videos to cement your understanding of the rules, concepts and formulas essential to 8th Grade math.
- **Worksheets & Answer Keys**
Download and print the worksheets to practice the concepts introduced in the lecture videos. Check your work with the answer key provided.
- **Interactive Practice Exercises**
Demonstrate your mastery of the lesson objectives by completing the set of automatically-graded exercises. Step-by-step feedback is provided after each question.

Click a chapter link to access the lesson topics. At the end of each chapter there is a 10-15 question test you can take and a certificate of completion for that material.
