

## Hi There!

# Have a question? Great! We're here to help! 

## What's the difference between your standard and Honors 7th Grade Math?

Both our standard and Honors 7th grade Math courses offer complete, comprehensive coverage of concepts that are foundational for the 7th grade student. In general, the Honors version of 7th grade Math has a greater number of topics to study, and the assessments will be more challenging than those in our standard version. Additionally, the recommended pacing of the Honors version will be faster than the standard version.

## Standard 7th Grade Math

- 94 topics with 283 video lectures
- approximately 15 hours of video content
-36-week lesson plan, including:
- 94 lesson days
- 2 days for each of the 22 quizzes
- 2 days for each of the 10 tests
- 3 days for each of the midterm and final exams

## Standard 7th Grade Math Chapters

1 Algebraic Reasoning
2 Integers and Rational Numbers
3 Operations with Rational Numbers
4 Proportional Relationships
5 Graphs and Functions
6 Percents
7 Data
8 Geometric Figures
9 Measurement: Two-Dimensional Figures
10 Measurement: Three-Dimensional Figures

## Honors 7th Grade Math

- 109 topics with 324 video lectures
- approximately 18 hours of video content
-36-week lesson plan, including:
- 109 lesson days
- 2 days for each of the 26 quizzes
- 2 days for each of the 12 tests
- 2 days for each of the midterm and final exams

## Honors 7th Grade Math Chapters

1 Algebraic Reasoning
2 Integers and Rational Numbers
3 Operations with Rational Numbers
4 Proportional Relationships
5 Graphs and Functions
6 Percents
7 Data
8 Geometric Figures
9 Measurement: Two-Dimensional Figures
10 Measurement: Three-Dimensional Figures
11 Probability
12 Multi-Step Equations and Inequalities

## Content in Honors 7th Grade Math not in standard 7th Grade Math

Probability • Experimental Probability • Make a List to Find Sample Spaces • Theoretical Probability • Making Predictions • Probability of Independent and Dependent Events • Combinations • Permutations • Solving Two-Step Equations • Solving Multi-Step Equations • Solving Equations with Variables on Both Sides • Inequalities • Solving Inequalities by Adding and Subtracting • Solving Inequalities by Multiplying or Dividing • Solving Two-Step Inequalities
