

Voluntary Recall Information

STOP SALE SAFETY NOTICE

Dear Customer,

There is a packaging problem with Fuma’s 30 ml glass Nicotine bottles containing our e-juice. Fuma has been informed that the Child Nicotine Poison Prevention Act, which is federal law, now requires any nicotine provided in a liquid nicotine container sold, offered for sale, manufactured for sale, distributed in commerce, or imported into the United States to be in “special packaging”. This special packaging must be designed to prevent children from accidentally accessing and ingesting liquid nicotine and must restrict the flow of liquid nicotine under specific conditions. Essentially, flow restrictive caps are now required before the product can be sold and therefore this stop sale affects all inventory of Fuma liquid nicotine bottles. It is now illegal to sell this product in its current packaging. There is no problem with the e-liquid product itself and this notice does not affect bottles of e-juice that do not contain nicotine (0 mg.)

Since this is a packaging safety issue, Fuma is working in cooperation with the U.S. Consumer Product Safety Commission (“CPSC”). This stop sale will allow Fuma to initiate an acceptable Corrective Action Plan on an expedited basis.

If you are a consumer, please keep this product out of the reach of children. This product is intended for adult use only. Minors are not permitted to use this product.

Recall Scope:

The following products are affected by this voluntary recall. Please note glass bottles of 0mg e-liquid is NOT part of the voluntary recall because they do not contain nicotine.
