

# Brain Omega™

**Foundational for brain health. Potent and proven formula. Physician recommended and Physician formulated.**

Brain Omega™ is a foundational product for your brain. Brain Omega formula is based on scientific research demonstrating the beneficial combination of DHA/Lutein/ Zeaxanthin in young and old. The combination of high potency DHA along with lutein and zeaxanthin has been shown to improve cognition, recall, visual performance and brain efficiency. Additionally, individuals with higher levels of Omega-3's have longer lifespans, less sudden cardiac death, bigger memory centers in their brains, better working memory, lower risk of dementia, and less eye-related diseases.

Studies have also demonstrated that Omega 3 improves mood issues. Brain-Omega is a powerful proprietary blend designed specifically to support your **MOOD. MIND. MEMORY.**

Each easy-to-swallow gel cap (perfect for kids) is packed with pure Omega-3 fish oil from sustainably harvested fish and a powerful and potent dose of pure DHA and Lutemax 2020,<sup>®</sup> a patent-pending form of Lutein/zeaxanthin used in clinical trials.

Research has shown the combination of DHA and Lutein/Zeaxanthin is essential for your brain health.

## RECOMMENDED USE

As a dietary supplement, take 2-12 capsules per day to achieve optimal Brain Omega™ levels, or as directed by your healthcare practitioner.

Consult your healthcare provider before use if you are taking a blood-thinning medication.

Test your Brain Omega levels using our Brain Omega home test, sold separately.

## CUSTOMERS ARE SAYING:

**Love this product!** Continually purchase it and haven't found anything comparable on the market.

—Jes

What I love about my brain omega, is they're small & packing mighty nutrition easy to swallow. **No fishy smell or taste.**

—Mark J. Cox

**This Omega 3 supplement is high in DHA, which is very good for brain development.** Overall, Omega 3's have a variety of benefits (in addition to what specific types support). You do get quite a bit in this supplement and it is good.

—Some Guy

**5.0 out of 5 stars—much better Brain Function for my son with DS!** I began using this product for my young adult son with DS, and after about 2 months, I began to notice he was mentally sharper and had greater understanding and better processing! This helps in his overall functioning and communication! Of course this delights us all, and he is happier overall and less tuned out. We will continue to use this product!!!! **Better than a lot of Omega 3s we have tried!**

—SR Murdock

I saw a presentation regarding Lutein and how higher levels **help brain function and can help prevent disease that can occur later in life.** It just makes sense to start now. Combined with improving my omega 3s it's an easy decision.

—Randy R.

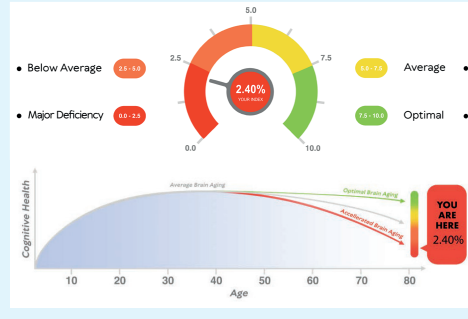

**Good for the Brain. Good for the eyes.** I've been looking for a formula combination like this one. Good for the brain. Good for the eyes. I love the easy to swallow size. Only one month but already notice improvements with my eyes.

—Trish P.
