

Grow-Out Pen - Weekly Capacity

After 4 - 6 weeks of heat, teen birds require a grow out pen to strengthen feet and mature.

Highlighted capacities indicate the max capacity if you choose to keep the birds safe until maturity

9.5" Grow Out Pens (Short) (Model: GL25)

Quail	Week	1 Section	2 Section	1 Layer	2 Layer	3 Layer	4 Layer	5 Layer
	5	8-10	16-20	24-30	48-60	72-90	96-120	120-150
