Meet the Team

Friendly, helpful... family run

James Turton
Operations Director

I joined EPP back in 2007 working in the warehouse. Since then I have worked in sales and now operations. It has been wonderful to see the progression EPP and NaturePac has made over the last few years. We have a great team here and I am excited to see what we can achieve over the next several years. I enjoy spending time talking to our customers and learning about their businesses and how we might be able to help them.

Richard Butcher
General Manager

I have worked within the packaging sector for over 25 years and really enjoy the variety of projects I am involved in both within our organisation and alongside our clients. Now is an exciting time in the industry, as we have a great opportunity to make a real difference by developing and supplying sustainable options for all packaging products. When not, being a packaging nerd, I enjoy cooking with my son and woodworking.

Barbara Nichols
Customer Success Representative

If you have a question about your order I am always happy to help. Love to bake in my spare time, which my colleagues enjoy... especially my Jaffa Cake Cake!

Nick Geeson
Business Development Manager

Resident joker, but serious about my customers. Positive guy, working for a positive company. I hope to keep you all smiling.

Meet the Team

Friendly, helpful... family run

Liam Crosby
Warehouse Manager

I've been with Evolution for 2 and a bit years now. My role involves looking after stock levels and the running of the warehouse. In my spare time I like to play Xbox and spend time with my family.

Jack Tite
Warehouse Assistant

I'm responsible for making sure your orders arrive safely and quickly. When I'm not packing boxes, I can often be found tabletop gaming or painting.

Daniel Champion
Digital Marketer & Videographer

I'm responsible for all of our promotional content & when I'm not making videos & brochures, I can often be found testing all the brushes & pencils at the art shop.

How can we help?

Clear information, useful choices

naturepac

Compostable packaging

NaturePac's main focus...

To offer the best plant-based alternative to all standard food-to-go packaging. We will promote sustainable, plant-based packaging which can be composted commercially or at home.

Speak to an expert today about our **Compostable Packaging.**

CYCLAPAC

Recyclable packaging

Cyclapac's main focus...

To reduce the amount of waste that ends up in landfill. We will promote sustainable, easily recycled packaging which is manufactured from a single bio-based material or post-consumer recycled content.
