

Hansem - Horizontal

Thoughtfully spaced panels create an elegant backdrop and create a bold statement in the bedroom or home theatre.

Features We Love:

- Panels offering a custom look with approachable prices.
- This design really can do double duty. We imagine these panels used to add a soft texture to any rooms walls. Add millwork trim around the edges to really elevate to a custom look once installed.
- Hansem can scale for a variety of wall sizes. Order multiple headboards to cover a wider wall, flip direction for a vertical look.
- Hansem can also be used in a theatre/entertainment room or as sound absorbing design panels in any room. See Installation video for ideas!

The Details:

Dimensions: Queen 90"H x 64"W x 1 3/4"D
King 90"H x 80"W x 1 3/4"D
