

bizzybee

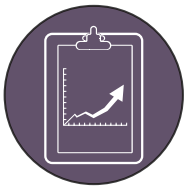

Electro-Passive[®] Recovery

- Reduce liquid CO₂ use up to 50% and increase recovery rate
- Removes need for a recovery pump
- Dedicated surface area for solvent recovery
- Achieve maximum passive recovery rates with Heat Exchanger and Chiller

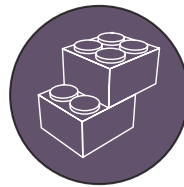

Integrate into other extraction systems to enhance work flow and recovery

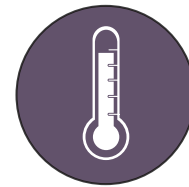

Bizzybee Competitive Advantage

We do not exaggerate our system performance

Modular expansion - easily add equipment

Superior temperature monitoring, control, and safety

Lifetime Warranty
