Large Material Rack

Features:

- 20 Um (micron) stainless mesh filter
- Available in Hex configuration

Dimensions:

Width	Length	Height
42"	36"	80"

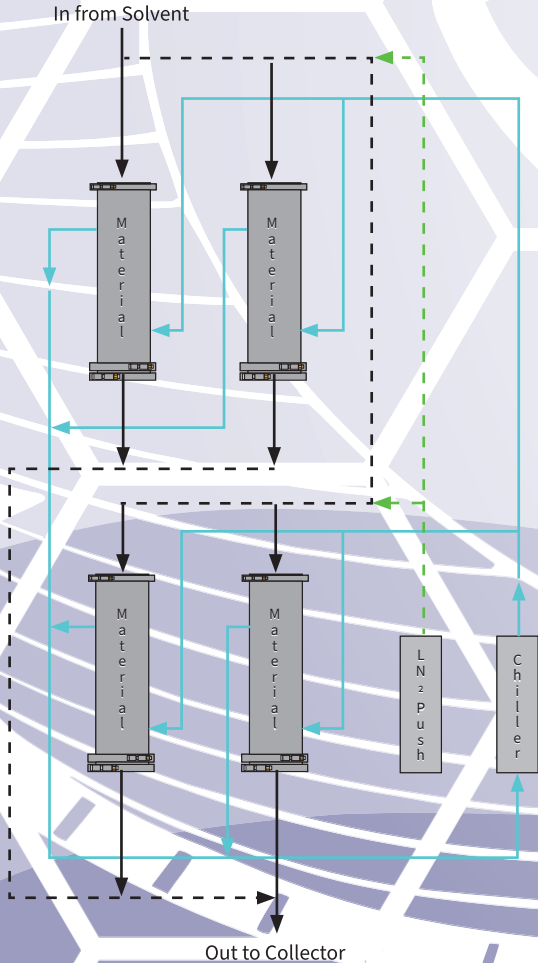

Capacity:

Large Column	10-15lbs per column
---------------------	---------------------

Infrastructure Considerations:

Cooling Options	<ul style="list-style-type: none"> • CO2 Dewar (180L minimum) 350 psi PRV • Huber 815 • Huber 915
------------------------	--

Process:

Dual Collection Rack

Features:

- 50L Collection Columns x 2
- Mol Sieve
- Heat Exchanger

Dimensions:

Width	Length	Height
42"	36"	80"

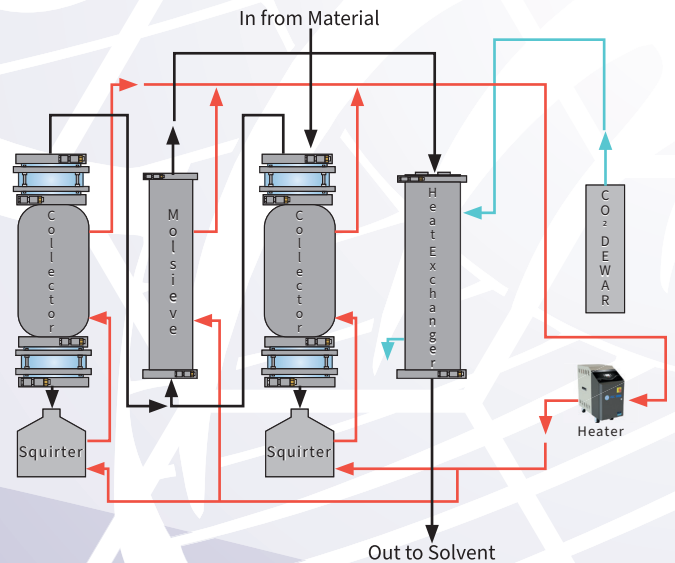

Capacity:

Collection Column	50 liters per column
--------------------------	----------------------

Infrastructure Considerations:

Heater	36 kW
Cooling Options	<ul style="list-style-type: none"> • CS 100 • CS 200 for Hex

Process:

Solvent Hex Rack

Features:

- 20L columns x 6
- Prime solvent for run

Dimensions:

Width	Length	Height
42"	36"	80"

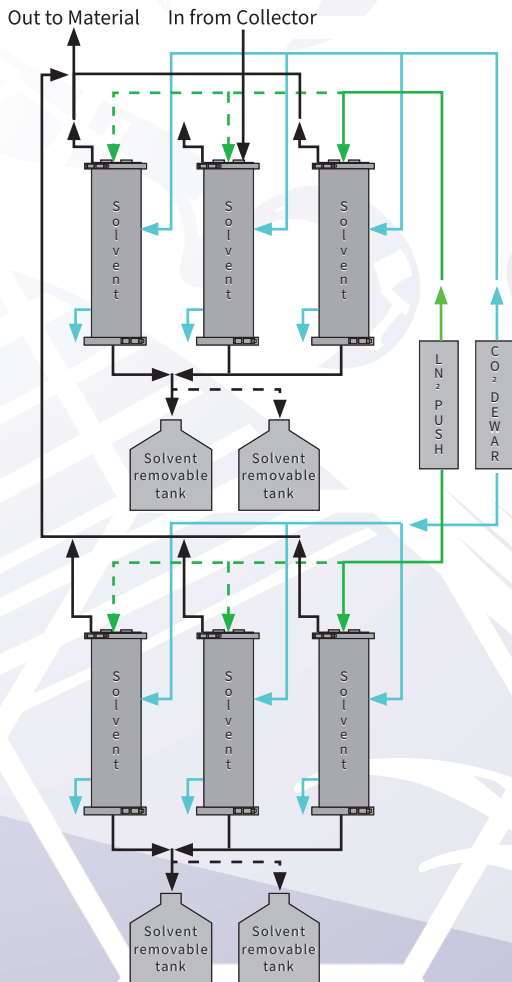

Capacity:

Solvent Column	20 liters per column
-----------------------	----------------------

Infrastructure Considerations:

Cooling Options	• CO2 Dewar (180L minimum) 350 psi PRV
	• Huber 915

Process:

Cauldron (optional)

Features:

- Available in 100L and 200L
- Configure for Solvent or Collection Vessel

Capacity:

100L Cauldron	125lbs of Solvent
200L Cauldron	250lbs of Solvent

Infrastructure Considerations:

Heater	18 or 36 kW
Cooling Options	Huber 915

bizzybee Multi-Rack System
