PB Series Backlit LED Panels 16W - 600x300mm

The PB Series Backlit LED Panels balance high output with clean, even light distribution and numerous installation options. They are a stylish troffer replacement for standard grid ceilings. Perfect for either retrofits or new buildings, they are fast to install and a perfect choice for both retail and office environments. These panels can be manually switched during installation to your chosen colour temperature which includes warm 3000K, natural 4000K & cool 5700K.
