

BONALDO

Acquerelli

Like overlapping brush-strokes, the colours enhance the hand-crafted workmanship of the blown glass, as they come together and liaise with their surroundings: the Acquerelli lamp collection is expressed in table lamp models and suspensions, distinguished by the combination of glass lampshades and a matt lead-colour painted metal frame. The glass is available in milk white finish or, in the nuanced or striped, in

elegant petroleum or amber colour. The Acquerelli lamps come in two sizes, large or small. In the table version, the two sizes correspond to two different lampshade shapes. In the suspension version, the double glass option is also available, with the small lampshade combined with the large one to create a single ceiling lamp to generate surprising plays of light.
