# About The It Kit

Gift giving has long been a passion of good friends Anna Gurry and Miranda Kent. For as long as they can remember they have always loved coming up with thoughtful and interesting gift ideas for family and friends, hunting down innovative products and packaging them in unique and creative ways. For Anna and Miranda, gift giving is a labour of love.

While many people love the idea of giving thoughtful, beautiful and practical gifts, Anna and Miranda realised that all too often people simply don't have the time, making gift giving unnecessarily stressful. Together they decided to unleash their passion on the world by creating the It Kit, a unique concept of creating bespoke gift kits to suit every taste, interest, age, budget and occasion.

The It Kit specialises in Corporate Gifting - whether it be for one or one thousand, we aim to meet any brief or budget to create the right gift for any occasion.

We source products from all over Australia. We can find all those charming, unique and carefully-made things that you don't have the time to find, or that you even knew existed - such are the wonderful inspirational gifts that the It Kit creators have sought out, making them available for you in any number of different and creative ways of packaging.
