

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2019

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number
000-23115

CTI INDUSTRIES CORPORATION

(Exact name of Registrant as specified in its charter)

Illinois
(State or other jurisdiction of
incorporation or organization)

36-2848943
(I.R.S. Employer Identification Number)

22160 N. Pepper Road
Lake Barrington, Illinois
(Address of principal executive offices)

60010
(Zip Code)

(847) 382-1000
(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common	CTIB	NASDAQCM

Indicate by check mark whether the Registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company,” and “emerging growth company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Non-accelerated filer

Accelerated filer

Smaller Reporting Company

Emerging Growth Company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The number of shares outstanding of the Registrant’s common stock as of August 1, 2019 was 3,835,950.

Note 1 - Basis of Presentation

The accompanying condensed (a) consolidated balance sheet as of December 31, 2018, which has been derived from audited consolidated financial statements, and (b) the unaudited interim condensed consolidated financial statements have been prepared and, in the opinion of management, contain all the adjustments (consisting of those of a normal recurring nature) considered necessary to present fairly the consolidated financial position and the consolidated statements of comprehensive income and consolidated cash flows for the periods presented in conformity with generally accepted accounting principles for interim consolidated financial information and the instructions to Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all the information and footnotes required by accounting principles generally accepted in the United States of America. Operating results for the three and six months ended June 30, 2019 are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2019. It is suggested that these condensed consolidated financial statements be read in conjunction with the consolidated financial statements and notes thereto included in the Company's annual report on Form 10-K for the fiscal year ended December 31, 2018.

Principles of consolidation and nature of operations:

The condensed consolidated financial statements include the accounts of CTI Industries Corporation and its wholly-owned subsidiaries, CTI Balloons Limited and CTI Supply, Inc., its majority-owned subsidiaries, Flexo Universal, S. de R.L. de C.V. and CTI Europe gmbH, as well as the accounts of Venture Leasing S. A. de R. L., Venture Leasing L.L.C and Clever Container Company, L.L.C. (the "Company"). The last three entities have been consolidated as variable interest entities. All significant intercompany transactions and accounts have been eliminated in consolidation. The Company (i) designs, manufactures and distributes balloon and related novelty (candy and party related) products throughout the world, (ii) operates systems for the production, lamination, coating and printing of films used for food packaging and other commercial uses and for conversion of films to flexible packaging containers and other products, and (iii) distributes vacuum sealing products and home organization products in the United States. We have announced our intention to divest our interest in Clever Container and deconsolidate that entity from our group. As we held an equity interest in Clever Container as of June 30, 2019, it remains consolidated as a variable interest entity. During June 2019, we determined that this and the two European sales subsidiaries should no longer be a part of our group, have begun the active process to eliminate those entities from our group, and have thus recognized a non-cash charge of \$3 million during June 2019 to reflect that determination and in anticipation of ultimate deconsolidation.

Variable Interest Entities (“VIE’s”):

The determination of whether or not to consolidate a variable interest entity under U.S. GAAP requires a significant amount of judgment concerning the degree of control over an entity by its holders of variable interest. To make these judgments, management has conducted an analysis of the relationship of the holders of variable interest to each other, the design of the entity, the expected operations of the entity, which holder of variable interests is most “closely associated” to the entity and which holder of variable interests is the primary beneficiary required to consolidate the entity. Upon the occurrence of certain events, management reviews and reconsiders its previous conclusion regarding the status of an entity as a variable interest entity. There are three entities that have been consolidated as variable interest entities.

Use of estimates:

In preparing condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amount of revenue and expenses during the reporting period in the condensed consolidated financial statements and accompanying notes. Actual results may differ from those estimates. The Company’s significant estimates include reserves for doubtful accounts, reserves for the lower of cost or market of inventory, reserves for deferred tax assets and recovery value of goodwill.

Earnings per share:

Basic earnings per share is computed by dividing net income by the weighted average number of shares of common stock outstanding during each period.

Diluted earnings per share is computed by dividing the net income by the weighted average number of shares of common stock and equivalents (stock options and warrants), unless anti-dilutive, during each period.

As of June 30, 2019 and 2018, shares to be issued upon the exercise of options and warrants aggregated 471,144 for each period. The number of shares included in the determination of earnings on a diluted basis for the three months ended June 30, 2019 and 2018 were none, as doing so would have been anti-dilutive.

Significant Accounting Policies:

The Company’s significant accounting policies are summarized in Note 2 of the Company’s consolidated financial statements for the year ended December 31, 2018. There were no significant changes to these accounting policies during the three or six months ended June 30, 2019, except for the adoption of Accounting Standards Codification (ASC) Topic 842, *Leases*.

On January 1, 2019, we adopted ASC Topic 842 (Leases). The adoption of this standard significantly increased our assets and liabilities and further discussed in Note 12. ASC 842 requires a lessee to recognize assets and liabilities related to leases with terms in excess of 12 months. Such assets are typically considered Right-Of-Use (“ROU”) assets. Prior information has not been restated and continues to be reported under the accounting standards in effect for those periods.

On January 1, 2018, we adopted ASC 606 (Revenue From Contracts With Customers) using the modified retrospective method. The adoption of ASC 606 did not have a material impact on our consolidated financial position or results of operations, as our revenue arrangements generally consist of a single performance obligation to transfer promised goods at a fixed price.

Net sales include revenues from sales of products and shipping and handling charges, net of estimates for product returns. Revenue is measured at the amount of consideration the Company expects to receive in exchange for the transferred products. Revenue is recognized at the point in time when we transfer the promised products to the customer and the customer obtains control over the products. The Company recognizes revenue for shipping and handling charges at the time the goods are shipped to the customer, and the costs of outbound freight are included in cost of sales, as we have elected the practical expedient included in ASC 606.

The Company provides for product returns based on historical return rates. While we incur costs for sales commissions to our sales employees and outside agents, we recognize commission costs concurrent with the related revenue, as the amortization period is less than one year and we have elected the practical expedient included in ASC 606. We do not incur incremental costs to obtain contracts with our customers. Our product warranties are assurance-type warranties, which promise the customer that the products are as specified in the contract. Therefore, the product warranties are not a separate performance obligation and are accounted for as described herein. Sales taxes assessed by governmental authorities are accounted for on a net basis and are excluded from net sales.

Auditor Replacement Process:

During April 2019, our independent registered accounting firm, Plante & Moran PLLC, resigned as auditor. This quarterly report on Form 10Q is being prepared without the benefit of auditor review, and we would look to amend this filing upon the hiring of a replacement independent registered accounting firm.

Note 2 – Liquidity and Going Concern

The Company's primary sources of liquidity are cash and cash equivalents as well as availability under the Credit Agreement with PNC Bank, National Association ("PNC") (see Note 3). As indicated in Note 3, twice during 2018 we violated covenants in our credit facility and as of March 2019 we entered into a forbearance agreement with PNC. Under the terms of this agreement, financial covenants as of March 31, 2019 were not considered and all previously identified compliance failures were waived, but we remain out of compliance with the terms of our credit facility, as amended, including the covenants as of June 30, 2019 calculated on or about July 31, 2019. On August 1, 2019, PNC issued a Default and Reservation of Rights letter to the Company, in which PNC advised that line of credit advances would continue to be available to the Company at PNC's sole discretion, and subject to its terms and conditions.

During 2019 we attempted to execute a major capital event with a partner that would infuse money, among other attributes. That effort was unsuccessful as envisioned. We are currently seeking to execute on one or more smaller transactions, as well as pursue other financing options. There is no assurance that any of these efforts will be successful.

In addition to the above, due to financial performance in 2016, 2017 and 2018, including net income/(losses) attributable to the Company of \$0.7 million, (\$1.6 million), and (\$3.6 million), respectively, we believe that substantial doubt about our ability to continue as a going concern exists at June 30, 2019.

Additionally, we have experienced challenges in maintaining adequate seasonal working capital balances, made more challenging by increases in financing and labor costs, along with a supply disruption in the helium market. These changes in cash flows have created very significant strain within our operations, and have therefore increased our desire to obtain additional funding resources.

Management's plans include:

- (1) Pursuing a smaller strategically significant major capital event.
- (2) Working with our bank to resolve our compliance failure on a long-term basis.
- (3) Evaluating and potentially executing a sale/leaseback transaction of our facility in Lake Barrington, IL.
- (4) Simplifying our group structure, and
- (5) Exploring alternative funding sources.

Management Assessment

Considering both quantitative and qualitative information, we believe that our plans to obtain additional financing may provide us with an ability to finance our operations through 2019 and, if successfully executed, may mitigate the substantial doubt about our ability to continue as a going concern.

Note 3 - Debt

During December 2017, we terminated a prior credit arrangement and entered in new financing agreements with PNC Bank, National Association ("PNC"). The "PNC Agreements" include a \$6 million term loan and an \$18 million revolving credit facility, with a termination date of December 2022.

Available credit under the Revolving Credit facility is determined by eligible receivables and inventory at CTI Industries (U.S.) and Flexo Universal (Mexico). We notified PNC of our failure to meet two financial covenants as of March 31, 2018. On June 8, 2018, we entered into Waiver and Amendment No. 1 (the "Amendment 1") to our PNC Agreements. The Amendment modified certain covenants, added others, waived our failure to comply as previously reported, and included an amendment fee and temporary increase in interest rate. During September 2018, we filed a preliminary prospectus on Form S-1 for a planned equity issuance. On October 8, 2018, we entered into Consent and Amendment No. 2 (the "Amendment 2") to our PNC Agreements. Amendment 2 reduced the amount of new funding proceeds that must be used to repay the term loan from \$5 million to \$2 million and waived the calculation of financial ratios for the period ended September 30, 2018, in exchange for a new covenant committing to raise at least \$7.5 million in gross proceeds from our equity issuance by November 15, 2018 and pay an amendment fee. Market conditions ultimately forced us to postpone the offering, and thus no proceeds were received by the November 15, 2018 requirement.

We engaged PNC to resolve this failure to meet our amended covenant, and as of March 2019 entered into a forbearance agreement. Under the terms of this agreement, previously identified compliance failures were waived and financial covenants as of March 31, 2019 were not considered, with the next calculation due July 31, 2019 for the period ended June 30, 2019. We received a temporary over-advance of \$1.2 million, which declined to zero over a six-week period under the terms of this agreement and paid a fee of \$250,000.

On August 1, 2019, PNC issued a Notice of Default and Reservation of Rights letter, indicating the end of the forbearance period and continued events of default with our credit agreement, as amended. We remain out of compliance with the terms of our facility and have thus reclassified long-term bank debt to current liabilities on our balance sheet.

Available credit under the Revolving Credit facility is determined by eligible receivables and inventory at CTI Industries (U.S.) and Flexo Universal (Mexico).

Certain terms of the PNC Agreements include:

- *Restrictive Covenants:* The Credit Agreement includes several restrictive covenants under which we are prohibited from, or restricted in our ability to:
 - Borrow money;
 - Pay dividends and make distributions;
 - Make certain investments;
 - Use assets as security in other transactions;
 - Create liens;
 - Enter into affiliate transactions;
 - Merge or consolidate; or
 - Transfer and sell assets.

- *Financial Covenants:* The Credit Agreement includes a series of financial covenants we are required to meet including:
 - We are required to maintain a "Leverage Ratio", which is defined as the ratio of (a) Funded Debt (other than the Shareholder Subordinated Loan) as of such date of determination to (b) EBITDA (as defined in the PNC Agreements) for the applicable period then ended. The highest values for this ratio allowed by the PNC Agreements are:

Fiscal Quarter Ratio

December 31, 2017	4.75 to 1.00
June 30, 2018	4.50 to 1.00
June 30, 2018	4.25 to 1.00
September 30, 2018	not applicable
December 31, 2018	3.50 to 1.00
March 31, 2019	not applicable
June 30, 2019	3.00 to 1.00
September 30, 2019 and thereafter	2.75 to 1.00

- o We are required to maintain a "Fixed Charge Coverage Ratio", which is defined as the ratio of (a) EBITDA for such fiscal period, minus Unfinanced Capital Expenditures made during such period, minus distributions (including tax distributions) and dividends made during such period, minus cash taxes paid during such period to (b) all Debt Payments made during such period. This ratio must not exceed 1.1 : 1.0 for any quarterly calculation.

The credit agreement provides for interest at varying rates in excess of the prime rate, depending on the level of senior debt to EBITDA over time. We also entered into a swap agreement with PNC Bank to fix the rate of interest for \$3 million of the notes over 3 years at 2.25%. This contract was made at market value upon December 14, 2017 execution and accounted for as a hedge. This contract is expected to terminate during 2019 at no cost or benefit to the Company under the terms of the forbearance agreement.

Failure to comply with these covenants has caused us to pay a higher rate of interest (by 2% per the Agreements), and other potential penalties may impact the availability of the credit facility itself, and thus might negatively impact our ability to remain a going concern. As described above in this Note as well as in Note 2, we remain out of compliance with the terms of this facility.

As of December 2017, Mr. Schwan was owed a total of \$1,099,000, with additional accrued interest of \$400,000, by the Company. As part of the December 2017 financing with PNC, Mr. Schwan executed a subordination agreement related to these amounts due him, as evidenced by a related note representing the amount owed to Mr. Schwan. During January 2019, Mr. Schwan converted \$600,000 of his balance into approximately 181,000 shares of our common stock at the then market rate. No payments were issued to Mr. Schwan during 2018 or the three or six months ended June 30, 2019, with \$15,000 and \$30,000, respectively, of interest recorded as an expense.

Note 4 - Stock-Based Compensation; Changes in Equity

The Company has adopted Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 718 which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the condensed consolidated financial statements based on their grant-date fair values.

The Company has applied the Black-Scholes model to value stock-based awards and issued warrants related to notes payable. That model incorporates various assumptions in the valuation of stock-based awards relating to the risk-free rate of interest to be applied, the estimated dividend yield and expected volatility of our common stock. The risk-free rate of interest is the related U.S. Treasury yield curve for periods within the expected term of the option at the time of grant. The dividend yield on our common stock is estimated to be 0%, as the Company did not issue dividends during 2019 and 2018. The expected volatility is based on historical volatility of the Company's common stock.

The Company's net loss for the three and six months ended June 30, 2019 and 2018 includes approximately \$23,000 and \$44,000, respectively, in 2019 and \$52,000 and \$172,000, respectively, of compensation costs related to share based payments. As of June 30, 2019, there was \$140,000 of unrecognized compensation expense related to non-vested stock option grants and stock grants. We expect approximately \$40,000 of additional stock-based compensation expense to be recognized over the remainder of 2019, and \$56,000 to be recognized during 2020.

On April 10, 2009, the Board of Directors approved for adoption, and on June 5, 2009, the shareholders of the Corporation approved, a 2009 Stock Incentive Plan ("2009 Plan"). The 2009 Plan and subsequent awards categorized as inducement of employment authorized the issuance of up to 510,000 shares of stock or options to purchase stock of the Company (including cancelled shares reissued under the plan.) On June 8, 2018, our shareholders approved the 2018 Stock Incentive Plan ("2018 Plan"). The 2018 Plan authorizes the issuance of up to 300,000 shares of our common stock in the form of equity-based awards. Because no registration on Form S-8 was filed for these additional shares within 12 months of approval by our shareholders, those additional shares are not available for issuance in the normal course. As of June 30, 2019, options for 471,144 shares remain outstanding.

A summary of the Company's stock option activity, which includes grants of restricted stock, non-qualified stock options, incentive stock options, warrants and related information, is as follows:

	Shares under Option	Weighted Average Exercise Price
Balance at December 31, 2018	471,144	\$ 3.95
Granted	-	-
Cancelled/Expired	-	-
Exercised/Issued	-	-
Outstanding at June 30, 2019	471,144	\$ 3.95
Exercisable at June 30, 2019	165,264	\$ 4.05

The instruments above have an aggregate intrinsic value of \$80,000, which represents the total pre-tax intrinsic value (the difference between the closing price of the Company's common stock on the last trading day of the quarter ended June 30, 2019 and the exercise price, multiplied by the number of in-the-money options) that would have been received by the option holders had all the holders exercised their options on June 30, 2019.

As described in Note 5, we issued 20,000 shares of common stock to Gary Page in a legal settlement during January 2019. The value of those shares on the date of issuance was approximately \$67,000. We issued 100,000 shares of common stock to a longtime sales representative during May 2019, which, at then market value, was in lieu of approximately \$303,000 of earned cash compensation.

On January 11, 2019, the Company and its Chairman, Mr. John Schwan, completed an exchange debt for equity upon receipt of consent for the transaction from the Company's lender. Mr. Schwan surrendered \$600,000 in notes from the Company in exchange for 180,723 shares of the Company's common stock. The value was set at the \$3.32 per share closing price of the Company's common stock on the NASDAQ stock market on December 20, 2018.

Note 5 - Legal Proceedings

The Company may be party to certain lawsuits or claims arising in the normal course of business. The ultimate outcome of these matters is unknown but, in the opinion of management, we do not believe any of these proceedings will have, individually or in the aggregate, a material adverse effect upon our financial condition, cash flows or future results of operation.

In July 2017, God's Little Gift, Inc. (d\b\ a) Helium and Balloons Across America and Gary Page ("Claimants") filed an action against the Company based on disputed compensation amounts over several years. This action was resolved by mutual agreement between the parties during January 2019. Mr. Page received 20,000 shares of CTI common stock, \$5,000 in cash, and a minimum payout in his monthly royalty calculation of \$7,667 beginning March 1, 2019 and ending August 1, 2021. The Company accrued the \$0.3 million in committed costs under this settlement in its December 31, 2018 financial statements.

Note 6 - Other Comprehensive Income

In the three and six months ended June 30, 2019, the Company incurred other comprehensive income of approximately \$297,000, all from foreign currency translation adjustments.

The following table sets forth the accumulated balance of other comprehensive income and each component.

	Foreign Currency Items	Total Accumulated Other Comprehensive Income
Beginning balance as of January 1, 2019	\$ (6,050,347)	\$ (6,050,347)
Current period change, net of tax	297,209	297,209
Ending Balance as of June 30, 2019	(5,753,138)	(5,753,138)

Note 7 - Inventories, Net

	June 30, 2019	December 31, 2018
Raw materials	\$ 2,085,908	\$ 1,994,741
Work in process	3,057,682	3,052,224
Finished goods	15,508,804	14,934,581
In Transit	293,138	480,716
Allowance for excess quantities	(426,292)	(454,774)
Total inventories	\$ 20,519,240	\$ 20,007,488

Note 8 - Geographic Segment Data

The Company has determined that it operates primarily in one business segment that designs, manufactures and distributes film and film related products for use in packaging, storage and novelty balloon products. The Company operates in foreign and domestic regions. Information about the Company's operations by geographic area is as follows:

	Net Sales to Outside Customers For the Three Months Ended		Net Sales to Outside Customers For the Six Months Ended	
	June 30,		June 30,	
	2019	2018	2019	2018
United States	\$ 9,095,000	\$ 12,075,000	\$ 17,855,000	\$ 21,813,000
Europe	\$ 1,083,000	1,275,000	\$ 2,358,000	2,637,000
Mexico	\$ 2,022,000	2,378,000	\$ 4,103,000	4,564,000
United Kingdom	\$ 207,000	257,000	\$ 627,000	950,000
	\$ 12,407,000	\$ 15,985,000	\$ 24,943,000	\$ 29,964,000

	Total Assets at	
	June 30, 2019	December 31, 2018
United States	\$ 22,907,000	\$ 25,354,000
Europe	\$ 3,105,000	3,052,000
Mexico	\$ 11,490,000	9,476,000
United Kingdom	\$ 1,146,000	879,000
Reserve	\$ (3,000,000)	-
	\$ 35,648,000	\$ 38,761,000

Note 9 - Concentration of Credit Risk

Concentration of credit risk with respect to trade accounts receivable is generally limited due to the large number of entities comprising the Company's customer base. The Company performs ongoing credit evaluations and provides an allowance for potential credit losses against the portion of accounts receivable which is estimated to be uncollectible. Such losses have historically been within management's expectations. During the three and six months ended June 30, 2019 and 2018, there were two customers whose purchases represented more than 10% of the Company's consolidated net sales, respectively. Sales to these customers for the three ended June 30, 2019 and 2018 are as follows:

Customer	Three Months Ended June 30, 2019		Three Months Ended June 30, 2018	
	Net Sales	% of Net Sales	Net Sales	% of Net Sales
Customer A	\$ 4,179,000	34%	\$ 4,871,000	30%
Customer B	\$ 2,769,000	22%	\$ 3,660,000	23%

Sales to these customers for the six months ended June 30, 2019 and 2018 are as follows:

Customer	Six Months Ended June 30, 2019		Six Months Ended June 30, 2018	
	Net Sales	% of Net Sales	Net Sales	% of Net Sales
Customer A	\$ 6,337,000	25%	\$ 7,343,000	24%
Customer B	\$ 6,630,000	27%	\$ 8,110,000	27%

As of June 30, 2019, the total amounts owed to the Company by these customers were approximately \$2,488,000 or 28%, and \$1,044,000 or 12%, of the Company's consolidated net accounts receivable, respectively. The amounts owed at June 30, 2018 by these customers were approximately \$4,808,000 or 54%, and \$1,524,000 or 17% of the Company's consolidated net accounts receivable, respectively.

Note 10 - Related Party Transactions

Stephen M. Merrick, Chief Executive Officer of the Company, is of counsel to the law firm of Vanasco Genelly and Miller PC which used to provide legal services to the Company. Legal fees paid by the Company to this firm for the three months ended June 30, 2019 and 2018, respectively, were none and \$16,000. Legal fees paid by the Company to this firm for the six months ended June 30, 2019 and 2018, respectively, were none and \$88,000.

John H. Schwan, through an investment entity, and Stephen M. Merrick, Chief Executive Officer of the Company, also through an investment entity own, in aggregate, a 50% interest in Clever Container Company L.L.C., an Illinois limited liability company ("Clever Container"). During the three months ended June 30, 2019 and 2018, Clever Container purchased various products from the Company in the amount of \$1,000 and \$259,000, respectively. During the six months ended June 30, 2019 and 2018, Clever Container purchased various products from the Company in the amount of \$63,000 and \$442,000, respectively. As of June 30, 2019 and 2018, the balance of accounts receivable from Clever Container to the Company were \$1,379,000 and \$1,199,000, respectively. The Company owns a 28.5% interest in Clever Container, though has announced the intention to divest its interest in Clever Container. This transaction has not been completed as of the filing of this report.

Note 11 - Derivative Instruments; Fair Value

The Company accounts for derivative instruments in accordance with U.S. GAAP, which requires that all derivative instruments be recognized on the balance sheet at fair value. We may enter into interest rate swaps to fix the interest rate on a portion of our variable interest rate debt to reduce the potential volatility in our interest expense that would otherwise result from changes in market interest rates. Our derivative instruments are recorded at fair value and are included in accrued liabilities of our consolidated balance sheet. Our accounting policies for these instruments are based on whether they meet our criteria for designation as hedging transactions, which include the instrument's effectiveness, risk reduction and, in most cases, a one-to-one matching of the derivative instrument to our underlying transaction. As of June 30, 2019 and December 31, 2018, we had one derivative instrument accounted for as a hedge, with the same instrument accounted for as a hedge as of June 30, 2018. Gains and losses from changes in fair values of derivatives that are not designated as hedges for accounting purposes are recognized in the consolidated statement of operations. We have no such derivative financial instruments as of December 31, 2018. Changes in fair value for the respective periods were recognized in the consolidated statement of operations.

The interest rate swap we entered into December 14, 2017 had a three year term (ending December 14, 2020) and a notional amount of \$3 million. The Company purchased a 2.25% fixed rate in exchange for the variable rate on a portion of the notes payable under the PNC Agreements, which was 1.47% at time of execution. The fair value of the swap was insignificant as of June 30, 2018 and December 31, 2018 and June 30, 2019. It is expected that this instrument will be eliminated with no gain or loss to the Company as a result of the forbearance agreement entered into during March 2019.

Note 12 - Leases

We adopted ASC Topic 842 (Leases) on January 1, 2019. This standard requires us to record certain operating lease liabilities and corresponding right-of-use assets on our balance sheet. Results for periods beginning after January 1, 2019 are presented under Topic 842, while prior period amounts are not adjusted and continue to be reported in accordance with our historic accounting under Topic 840. We elected the package of practical expedients available for expired or existing contracts, which allowed us to carryforward our historical assessments of whether contracts are (or contain) leases, as well as lease classification tests and treatment of initial direct costs. We also elected to not separate lease components from non-lease components for all fixed payments, and we exclude variable lease payments in the measurement of right-of-use assets and lease obligations.

Upon adoption of ASC 842 we recorded a \$2.4 million increase in other assets, a \$1.0 million increase in current liabilities, and a \$1.4 million increase in non-current liabilities. We did not record any cumulative effect adjustments in opening retained earnings, and adoption of ASC 842 had no impact on cash flows from operating, investing, or financing activities.

We determine if an arrangement is a lease at inception. Most of our operating leases do not provide an implicit rate of interest so we use our incremental borrowing rate based on the information available at the commencement date to determine the present value of future payments. We lease various assets in the course of ordinary business including: warehouses and manufacturing facilities, as well as vehicles and equipment used in our operations. Leases with an initial term of 12 months or less are not recorded on the balance sheet as we recognize lease expense for these leases on a straight-line basis over the lease term. The depreciable life of assets and related improvements are limited by the expected lease term, unless there is a reasonably certain expected transfer or title or purchase option. Some lease agreements include renewal options at our sole discretion. Any guaranteed residual value is included in our lease liability.

The table below describes our lease position as of June 30, 2019:

Assets	As of June 30, 2019
Operating lease right-of-use assets	2,360,000
Accumulated amortization	(487,000)
Net lease assets	1,873,000
Liabilities	
Current	
Operating	1,006,000
Noncurrent	
Operating	867,000
Total lease liabilities	1,872,000
Weighted average remaining term (years) – operating leases (in years)	3
Weighted average discount rate – operating leases	10%

During the three months ended June 30, 2019, we recorded expenses related to

Operating right-of-use lease asset amortization	239,000
Financing lease asset amortization	-
Related interest expense	-
Total expense during three months ended June 30, 2019	239,000

During the six months ended June 30, 2019, we recorded expenses related to

Operating right-of-use lease asset amortization	487,000
Financing lease asset amortization	-
Related interest expense	-
Total expense during six months ended June 30, 2019	487,000

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward Looking Statements

This quarterly report includes both historical and “forward-looking statements” within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. We have based these forward-looking statements on our current expectations and projections about future results. Words such as “may,” “should,” “could,” “would,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “predict,” “potential,” “continue,” or similar words are intended to identify forward-looking statements, although not all forward-looking statements contain these words. Although we believe that our opinions and expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements, and our actual results may differ substantially from the views and expectations set forth in this quarterly report on Form 10-Q. We disclaim any intent or obligation to update any forward-looking statements after the date of this quarterly report to conform such statements to actual results or to changes in our opinions or expectations.

Overview

We produce film products for novelty, packaging and container applications. These products include foil balloons, latex balloons and related products, films for packaging and custom product applications, and flexible containers for packaging and consumer storage applications. We produce all of our film products for packaging, container applications and most of our foil balloons at our plant in Lake Barrington, Illinois. We produce all of our latex balloons and latex products at our facility in Guadalajara, Mexico. Substantially all of our film products for packaging and custom product applications are sold to customers in the United States. We market and sell our novelty items and flexible containers for consumer use in the United States, Mexico, Latin America, and Europe. We also market and sell vacuum sealing machines, home organizing and container products, Candy Blossoms and party goods.

As of January 1, 2018, we adopted Accounting Standards Codification (ASC) Topic 606, Revenue from Contracts with Customers, using the modified retrospective method. The adoption of ASC 606 did not have a material impact on our consolidated financial position or results of operations, as our revenue arrangements generally consist of a single performance obligation to transfer promised goods at a fixed price.

Net sales include revenues from sales of products and shipping and handling charges, net of estimates for product returns. Revenue is measured at the amount of consideration we expect to receive in exchange for the transferred products. Revenue is recognized at the point in time when we transfer the promised products to the customer and the customer obtains control over the products. We recognize revenue for shipping and handling charges at the time the goods are shipped to the customer, and the costs of outbound freight are included in cost of sales, as we have elected the practical expedient included in ASC 606.

We provide for product returns based on historical return rates. While we incur costs for sales commissions to our sales employees and outside agents, we recognize commission costs concurrent with the related revenue, as the amortization period is less than one year and we have elected the practical expedient included in ASC 606. We do not incur incremental costs to obtain contracts with our customers. Our product warranties are assurance-type warranties, which promise the customer that the products are as specified in the contract. Therefore, the product warranties are not a separate performance obligation and are accounted for as described herein. Sales taxes assessed by governmental authorities are accounted for on a net basis and are excluded from net sales.

As of January 1, 2019, we adopted ASC Topic 842, Leases (“ASC Topic 842”). Refer to Note 12 for additional information. Our primary leases relate to the facilities we use in Lake Zurich, IL (USA), Mexico, Germany and the UK. We also have ancillary leases for items ranging from forklifts to printers. The majority of our leases are classified as operating lease right-of-use (“ROU”) assets and related operating lease liabilities. Finance leases are included in property and equipment and related liabilities. ROU assets and lease liabilities are recognized based on the present value of future minimum lease payments over the expected lease term at the commencement date for leases that exceed 12 months. The expected lease term includes options to renew when it is reasonably certain that we will exercise such option.

Operating lease expense is recognized on a straight-line basis over the lease term and is included in the cost of sales or sales, general and administrative expense areas. Finance leases are amortized on a straight-line basis and included in similar areas of expense classification. Variable lease payments, non-lease component payments, and short-term rentals (leases less than 12 months in duration) are expensed as incurred.

Summary of Current Developments and Status

For the quarter ended June 30, 2019, we have reported a loss of \$3.1 million and, for the six-month period ended that date, a loss of \$4.0 million. The loss of those periods includes a non-cash charge of \$3.0 million which we have recognized in the second quarter of 2019, in anticipation of the divestiture or liquidation of our European sales entities and Clever Container. Our management and Board have engaged in a review of these subsidiaries and determined that they are not sufficiently productive to our Company overall, add complexity to our structure and utilize resources. This action is being taken to focus our resources and efforts on our core business activities, particularly in the United States. This charge is a reserve in connection with the divestiture or liquidation and resulting deconsolidation of those entities.

We have operated throughout 2019 out of compliance with the terms of our credit facility. In March 2019, we entered into a forbearance agreement with our bank (the “Bank”) in which we acknowledged continuing violations on our part with respect to loan covenants and the Bank agreed to continue to provide funding to us and to forbear from action on the covenant violations until July 31, 2019 when our compliance with covenants as of June 30, 2019 would be determined. As of that date, we determined that we did not comply with our bank covenants as of June 30, 2019 and, on August 1, 2019, the bank issued a Notice of Default and Reservation of Rights letter to us, under which the Bank communicated that it may, at its sole discretion, continue to provide advances to us under certain conditions. We have no assurance of continued funding from the Bank and the costs and risks of continued financing with the Bank remain very high.

During 2019, we have attempted to complete a major capital event in which a new partner would infuse capital or otherwise provide financing to us. To date, we have not received a commitment for any capital or other funding, in part related to concerns expressed regarding complexity. We continue to seek additional funding in various forms, including debt financing, but there can be no assurance that such efforts will be successful. We are considering potential changes to our corporate structure, including but not limited to, whether to remain a publicly traded company. No conclusions have yet been reached.

During much of 2019 and currently, we have experienced difficulties in maintaining adequate working capital which has been exacerbated by reduced sales due to the helium shortage and excess labor costs.

In these circumstances, we believe that substantial doubt exists concerning our ability to continue as a going concern as of June 30, 2019 and on an ongoing basis, which may be mitigated by obtaining an additional financing and/or executing some form of transaction.

Results of Operations

Net Sales. For the three and six month periods ended June 30, 2019, net sales were \$12,407,000 and \$24,943,000, compared to net sales of \$15,985,000 and \$29,964,000 for the same periods of 2018. For the three month period ended June 30, 2019 and 2018, net sales by product category were as follows:

Three Months Ended			
June 30, 2019		June 30, 2018	
\$	% of	\$	% of

Product Category	(000) Omitted	Net Sales	(000) Omitted	Net Sales
Foil Balloons	4,927	41%	6,508	41%
Latex Balloons	1,983	14%	2,333	14%
Vacuum Sealing Products	1,912	12%	1,865	12%
Film Products	478	4%	609	4%
Other Sales	3,107	29%	4,670	29%
Total	12,407	100%	15,985	100%

For the six month period ended June 30, 2019 and 2018, net sales by product category were as follows:

Product Category	Six Months Ended			
	June 30, 2019		June 30, 2018	
	\$ (000) Omitted	% of Net Sales	\$ (000) Omitted	% of Net Sales
Metalized Balloons	11,408	45%	14,274	48%
Latex Balloons	3,970	16%	4,482	15%
Vacuum Sealing Products	4,064	16%	3,453	11%
Film Products	1,239	5%	1,047	3%
Other	4,262	18%	6,708	23%
Total	24,943	100%	29,964	100%

Foil Balloons. During the three and six months ended June 30, 2019, revenues from the sale of foil balloons decreased by 24% and 20%, respectively compared to the prior year period, from \$6,508,000 and \$14,274,000 during 2018, respectively, to \$4,927,000 and \$11,408,000 during 2019. Sales to our largest balloon customer decreased from \$8,110,000 during the first six months of 2018 to \$6,630,000 during the first six months of 2019. As we and others in the industry have reported, the commercial supply of helium has been limited and pricing has increased, while availability has been reduced. We expect the helium market to improve during the next few months, but it remains a negative factor in the sale of helium-based products such as many foil balloons.

Latex Balloons. During the three and six months ended June 30, 2019, revenues from the sale of latex balloons decreased by 15% and 11%, respectively compared to the prior year period, from \$2,333,000 and \$4,482,000 during 2018, respectively, to \$1,983,000 and \$3,970,000 during 2019.

Vacuum Sealing Products. During the three and six months ended June 30, 2019, revenues from the sale of vacuum sealing products increased by 2% and 18%, respectively compared to the prior year period, from \$1,865,000 and \$3,453,000 during 2018, respectively, to \$1,912,000 and \$4,064,000 during 2019. The new, smaller format machine introduced late during 2018 has sold well, and customers have largely accepted the cost pass-throughs related to tariffs.

Films. During the three and six months ended June 30, 2019, revenues from the sale of commercial films decreased by 22% and increased 18%, respectively, compared to the prior year period, from \$609,000 and \$1,047,000 during 2018, respectively, to \$478,000 and \$1,239,000 during 2019.

Other Revenues. During the three and six months ended June 30, 2019, revenues from the sale of other products decreased by 33% and 36%, respectively compared to the prior year period, from \$4,670,000 and \$6,708,000 during 2018, respectively, to \$3,107,000 and \$4,262,000 during 2019. The revenues from the sale of other products during the first six months of 2019 include (i) sales of a line of “Candy Blossoms” and similar products consisting of candy and small inflated balloons sold in small containers in the amount of \$2,217,000, (ii) the sale of accessories and supply items related to balloon products, (iii) sales by Clever Container Company, L.L.C. which engages in the direct sale of container and organizing products through a network of independent distributors in the amount of \$263,000 and (iv) sales of party goods in Mexico by Flexo Universal in the amount of \$718,000. Clever Container changed its business model to one of both lower costs and revenues compared to its prior business model, reducing the revenues shown in Other Revenues. This business is expected to be divested during 2019.

Sales to a limited number of customers continue to represent a large percentage of our net sales.

The table below illustrates the impact on sales of our top three and ten customers for the three and six months ended June 30, 2019 and 2018.

	Three Months Ended June 30, % of Sales		Six Months Ended June 30, % of Sales	
	2019	2018	2019	2018
Top 3 Customers	61.3%	57.5%	57.3%	55.1%
Top 10 Customers	76.9%	72.5%	75.0%	69.1%

During the three and six months ended June 30, 2019, there were two customers whose purchases represented more than 10% of the Company’s consolidated net sales. Sales to these customers for the three months ended June 30, 2019 were \$4,179,000 or 34%, and \$2,769,000 or 22%, of consolidated net sales, respectively. Sales to these customers for the three months ended June 30, 2018 were \$4,871,000 or 30%, and \$3,660,000 or 23%, of consolidated net sales, respectively. The amounts owed at June 30, 2019 by these customers were \$2,488,000 or 28%, and \$1,044,000 or 12%, of the Company’s consolidated net accounts receivable, respectively. As of June 30, 2018, the total amounts owed to the Company by these customers were \$4,808,000 or 54%, and \$1,524,000 or 17% of the Company’s consolidated net accounts receivable, respectively.

Cost of Sales. During the three and six month periods ended June 30, 2019, the cost of sales was \$9,869,000 and \$20,409,000, respectively, compared to \$12,189,000 and \$23,300,000 for the same periods ended June 30, 2018. The reduction in cost of sales was largely due to lower sales volume, net of related inefficiencies.

General and Administrative. During the three and six months ended June 30, 2019, general and administrative expenses were \$1,531,000 and \$3,587,000, respectively, as compared to \$1,680,000 and \$3,565,000 for the same periods in 2018. A one-time fee associated with the forbearance agreement in the amount of \$250,000 was included in the first three months of 2019 general and administrative expenses.

Selling, Advertising and Marketing. During the three and six months ended June 30, 2019, selling, advertising and marketing expenses were \$685,000 and \$1,397,000, respectively, as compared to \$1,290,000 and \$2,446,000, respectively for the same periods in 2018. This reduction was primarily due to the full year benefit of cost reduction programs implemented during 2018.

Other Income (Expense). During the three and six months ended June 30, 2019, the Company incurred interest expense of \$516,000 and \$1,063,000, respectively, as compared to interest expense during the same periods of 2018 of \$551,000 and \$1,115,000. We recognized a \$3 million charge during June 2019 in anticipation of deconsolidating Clever Container and our two European sales companies during 2019.

For the three and six months ended June 30, 2019, the Company had a foreign currency transaction gains of \$61,000 and \$297,000, respectively, as compared to foreign currency transaction losses of \$775,000 and \$342,000 during the same periods of 2018.

Financial Condition, Liquidity and Capital Resources

Cash Flow Items.

Operating Activities. During the six months ended June 30, 2019, net cash provided by operations was \$2,582,000, compared to net cash used by operations during the six months ended June 30, 2018 of \$273,000.

Significant changes in working capital items during the six months ended June 30, 2019 included:

- A decrease in accounts receivable of \$2,001,000 compared to an increase in accounts receivable of \$671,000 in the same period of 2018.
- An increase in inventory of \$475,000 compared to an increase in inventory of \$484,000 in 2018.
- An increase in trade payables of \$1,921,000 compared to an increase in trade payables of \$801,000 in 2018.
- A decrease in accrued liabilities of \$477,000 compared to a decrease in accrued liabilities of \$286,000 in 2018.

Investing Activity. During the six months ended June 30, 2019, cash used in investing activity was \$73,000, compared to cash used in investing activity for the same period of 2018 in the amount of \$18,000.

Financing Activities. During the six months ended June 30, 2019, cash used in financing activities was \$2,684,000 compared to cash provided by financing activities for the same period of 2018 in the amount of \$532,000. Financing activity consisted principally of changes in the balances of revolving and long-term debt.

Liquidity and Capital Resources.

At June 30, 2019, the Company had cash balances of \$178,000 compared to cash balances of \$453,000 for the same period of 2018.

Also, at June 30, 2019, the Company had a working capital balance of \$1,936,000 compared to a working capital balance of \$2,802,000 on December 31, 2018.

As of June 30, 2019, the Company was not in compliance with its credit facility, operating under a forbearance agreement. For this reason, \$2.9 million of long-term debt was reclassified as current debt as of June 30, 2019. Failure to ultimately regain compliance with the terms of our credit agreement, or enter into a suitable replacement financing vehicle, could negatively impact our ability to carry on our business up to and including our ability to continue as a going concern. Additionally, we have encountered difficulties with seasonal cash flow needs, including increased costs associated with recruiting and retaining workers in the Chicago area. The failure to either regain compliance with the terms of our credit facility or properly manage seasonal cash needs could put a strain on the Company, up to and including our ability to continue as a going concern. See Note 2 for additional discussion.

Seasonality

In the foil balloon product line, sales have historically been seasonal with approximately 40% occurring in the period from December through March of the succeeding year and 24% being generated in the period July through October in recent years. Vacuum sealing product sales are also seasonal; approximately 60% of sales in this product line occur in the period from July through December.

Critical Accounting Policies

Please see pages 24-27 of our Annual Report on Form 10-K for the year ended December 31, 2018 for a description of policies that are critical to our business operations and the understanding of our results of operations. The impact and any associated risks related to these policies on our business operations is discussed throughout Management's Discussion and Analysis of Financial Condition and Results of Operations where such policies affect our reported and expected financial results. Except for the adoption of ASC Topic 842 (Leases) as described herein, no material changes to such information have occurred during the three months ended June 30, 2019.

Item 3. Quantitative and Qualitative Disclosures Regarding Market Risk

Not applicable.

Item 4. Controls and Procedures

As required by Rule 13a-15(b) under the Exchange Act, we conducted an evaluation, under the supervision and with the participation of our management, including our Principal Executive Officer and Principal Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2019, the end of the period covered by this report. This evaluation specifically considered the material weakness in our internal controls over financial reporting which we reported in our Annual Report on Form 10-K as of December 31, 2018. We determined at that time that certain subsequent events were not properly captured in our analyses of investment impairment, inventory reserves and deferred tax asset valuation allowances. Management adjusted its processes to include additional closing procedures designed to address this weakness. This evaluation of effectiveness and design specifically looked at the effectiveness of the new procedures on the identified material weakness in internal controls.

Based upon that evaluation, the Principal Executive Officer and Principal Financial Officer concluded that our disclosure controls and procedures were effective as of June 30, 2019, to ensure that the information required to be disclosed by us in the reports that we file or submit under Security Exchange Act of 1934, as amended, (a) is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (b) is accumulated and communicated to our management, including officers, as appropriate, to allow for timely decisions regarding required disclosure. Except as noted above, there were no material changes in our internal control over financial reporting during the three and six months ended June 30, 2019 that have materially affected or are reasonably likely to materially affect our internal controls over financial reporting.

Part II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company may be party to certain lawsuits or claims arising in the normal course of business. The ultimate outcome of these matters is unknown but, in the opinion of management, we do not believe any of these proceedings will have, individually or in the aggregate, a material adverse effect upon our financial condition, cash flows or future results of operation.

Item 1A. Risk Factors

Not applicable.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Not applicable.

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Submission of Matters to a Vote of Security Holders

Not applicable.

Item 5. Other Information

The Certifications of the Chief Executive Officer and the Chief Financial Officer of the Company Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 are attached as Exhibits to this Report on Form 10-Q.

Item 6. Exhibits

The following are being filed as exhibits to this report:

<u>Exhibit Number</u>	<u>Description</u>
3.1	Restated Articles of Incorporation (Incorporated by reference to Exhibit A to Registrant's Schedule 14A Definitive Proxy Statement filed April 29, 2015).
3.2	Amended and Restated By-Laws of CTI Industries Corporation (Incorporated by reference to Exhibit 3.2, contained in Registrant's Form 8-K filed on March 17, 2017).
31.1	Certification of Chief Executive Officer pursuant to Rule 13a-14(a) and rule 15d-14(a) of the Securities Exchange Act, as amended (filed herewith).
31.2	Certification of Chief Financial Officer pursuant to Rule 13a-14(a) and rule 15d-14(a) of the Securities Exchange Act, as amended (filed herewith).
32	Certification of Chief Executive Officer and Chief Financial Officer pursuant to 18 U.S.C. 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (filed herewith).
101	Interactive Data Files, including the following materials from the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2019, formatted in XBRL: (i) the Consolidated Balance Sheets, (ii) the Consolidated Statements of Income, (iii) the Consolidated Statements of Cash Flows, and (iv) the Notes to Consolidated Financial Statements.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

**EXHIBIT 31.1
CERTIFICATIONS**

I, Jeffrey S. Hyland, certify that:

1. I have reviewed this quarterly report on Form 10-Q of CTI Industries Corporation.
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the condensed consolidated financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION PURSUANT TO**18 U.S.C. SECTION 1350,****AS ADOPTED PURSUANT TO****SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report on Form 10-Q of CTI Industries Corporation (the “Company”) for the quarterly period ended June 30, 2019, as filed with the Securities and Exchange Commission on the date hereof (the “Report”), Jeffrey S. Hyland, as Chief Executive Officer of the Company, and Frank J. Cesario, as Chief Financial Officer of the Company, each hereby certifies, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

/s/ Jeffrey S. Hyland
Jeffrey S. Hyland
President and Chief Executive Officer

Date: August 19, 2019

/s/ Frank J. Cesario
Frank J. Cesario
Chief Financial Officer

Date: August 19, 2019

The foregoing certification is being furnished solely pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, and is not being “filed” as part of the Form 10-Q or as a separate disclosure document for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise subject to liability under that section. This certification shall not be deemed to be incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Exchange Act except to the extent that this Exhibit 32 is expressly and specifically incorporated by reference in any such filing.

A signed original of this written statement required by Section 906 has been provided to the Company and will be retained by the Company and furnished to the Securities and Exchange Commission or its staff upon request.
