## OPERATING INSTRUCTIONS

### TEST MODE

The Forest Lantern comes set in Test Mode. While in Test Mode, pressing the Power Switch **C** will turn the lantern on for 10 seconds.

**Note:** *The lantern cannot be manually turned off during the 10 second demonstration.*

### FUNCTIONAL MODE

To switch to Functional Mode, press and hold the Power Switch **C** for 10 seconds. The Battery Life Indicator **D** will flash 4 times confirming the mode has switched. You can also simply charge the lantern to switch to Functional Mode.

### ON/OFF

Press the Power Switch **C** once to turn the Forest Lantern on. Press it a second time to turn it off.

### ADJUSTING BRIGHTNESS

Turn the Dimmer Switch **C** clockwise to increase brightness and counter-clockwise to decrease brightness.

## REMOVING THE BATTERY

1. Place the Forest Lantern on its side so the base of the lantern is accessible.

**Note:** *Place the lantern on a clean, soft surface to prevent scratching.*

2. Using a Phillips-head screwdriver, remove the Screws **H** from the Battery Cover **I**.
3. Remove the Battery Cover **I**.
4. Remove the Li-ion Battery **J**.

## REPLACING THE BATTERY

1. Insert the Barebones specific Li-ion Battery **J** into place with the exposed metal connecting to the coils.

**Note:** *Do not remove plastic wrap on batteries.*

2. Test the battery connection by turning on the Forest Lantern.
3. Place the Battery Cover **I** into position.
4. Secure the Battery Cover **I** with Screws **H**.

**Note:** *Do not overtighten. Overtightening can damage the battery plate or strip the screws.*

**HOW OFTEN SHOULD I RECHARGE THE LANTERN?**

To prolong the life of the Lithium Ion batteries, it's important to keep your lantern charged. The batteries need to be charged every six months, even if not in regular use.

**WHY IS MY BATTERY LIFE INDICATOR BLINKING?**

The Battery Life Indicator  will begin blinking when it's time to charge the lantern.

**WILL I NEED TO REPLACE THE LED?**

The Forest Lantern was designed to not require LED replacement. It comes with a one year warranty and is rated for 20,000 hours of use.

## SPECIFICATIONS

<b>LED</b>	<b>5 WATT CREE</b>
