W164/X164

How to connect

Carefully open by pushing in the EIS back body tabs.

W164/X164

The two Click'n Go adapter holes in the red circle need to go over the EIS pins.
Be very careful with the pins!

Carefully put on Click'n Go adapter over the pin side first.

W164/X164

Put on the other side of Click'n Go adapter on to the EIS board.

W164/X164

Make sure that Click'n Go adapter is mounted correctly on the EIS.

Connect both cables to Click'n Go adapter.

W164/X164

Connect MBProg 2 Click'n Go cable to MBProg.
Connect USB cable to MBProg and PC.

W164/X164

How to read

- Open MBProg software.
- Check bottom right corner if your device is correctly connected.
- Now click Chip button.

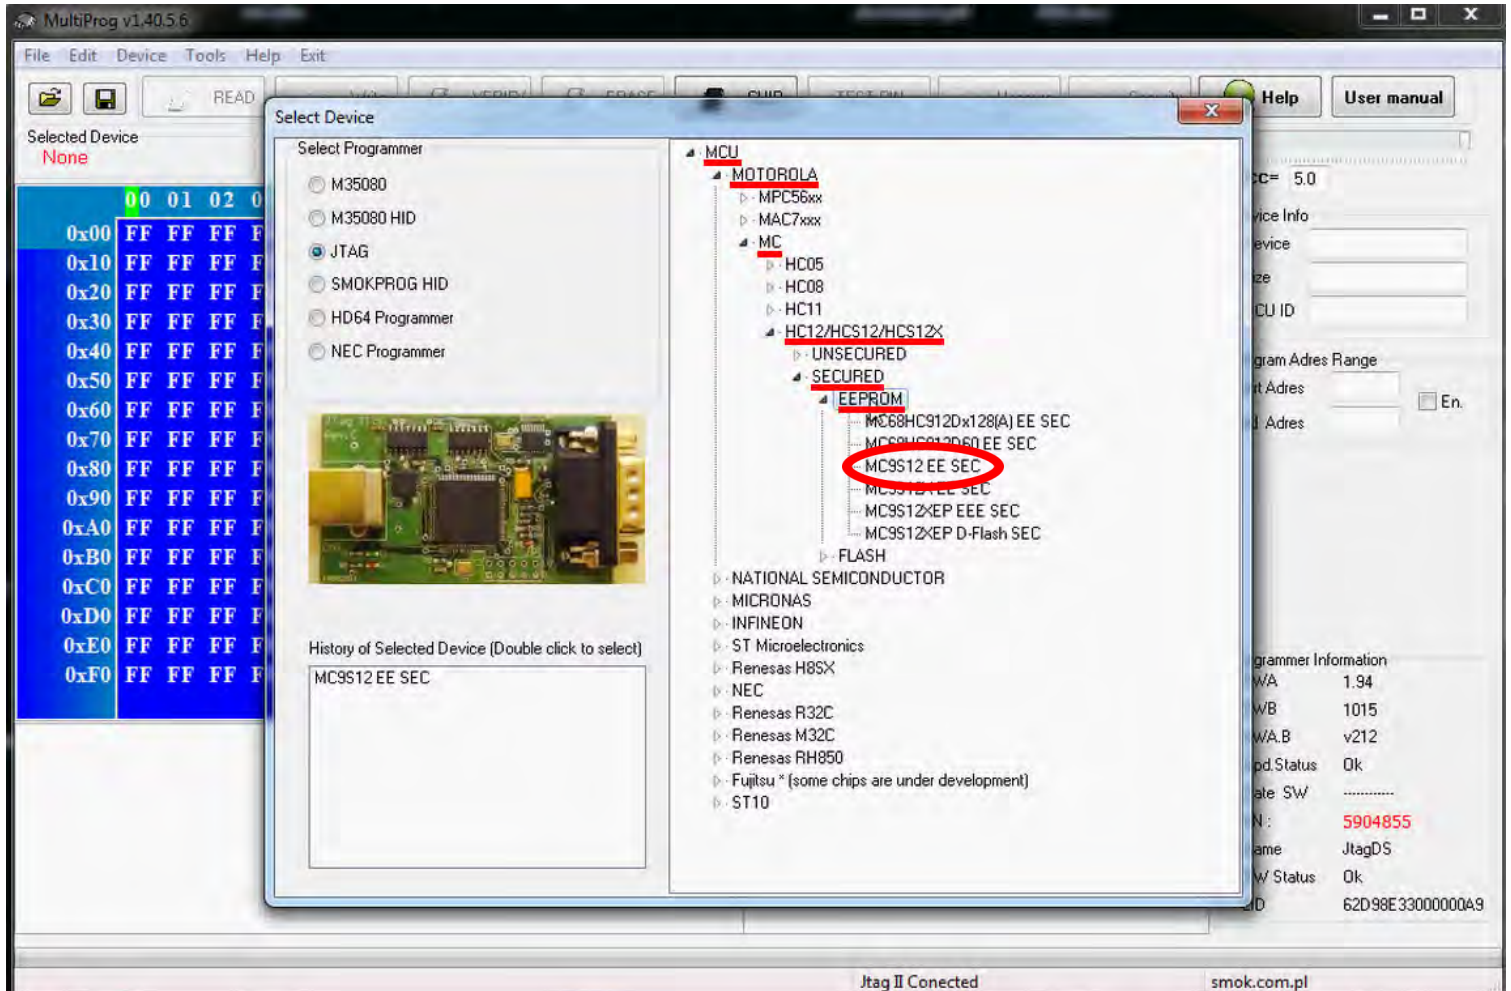

The screenshot shows the MultiProg v1.40.5.6 software interface. The 'CHIP' button in the top toolbar is circled in red. The main window displays a memory dump table with columns for addresses (00-0F, 01-0F) and hex values (0-9, A-F). The 'Programmer Information' panel in the bottom right is also circled in red, showing the following details:

Programmer Information	
SwA	1.94
SwB	1015
SwA.B	v212
Upd Status	Ok
Date SW	-----
SN :	5904855
Name	JtagDS
HW Status	Ok
LID	62D98E33000000A

At the bottom of the window, the status bar shows 'Jtag II Connected' and 'smok.com.pl'.

W164/X164

Make sure that JTAG is selected in programmer software.
Select MOTOROLA > MC > HC12/HCS12/HCS12X > SECURED > EEPROM
and double click on MC9S12EE SEC option as seen in the red circle.

W164/X164

The EIS reading process is done.
If you can see VIN# it been read correctly.
