

Summary of art and text describing a single era contained on each 11"x17" page

The individual in the center box made some historical contribution to the shaping of the western calendar. His role is captured in the novel and audio book Calendar Quest by Jennifer Johnson Garrity

A unique border frames each page based on something created during the historical period. PERSECUTION

aqueducts that supplied cities with water. Roman suldiers built roads from Egypt to Gaul, These made enabled military marches, commerce, and the rapid spread of ideas,

ROMAN ENGINEERING lamans invented cement. Their engineers design

AUGUSTUS CAESAR

After his military victory over Anthony and Cleopatra he shreadly declared himself principate (fine citizen) rather than dictator. In becoming Rome's first emperor the separation of powers which existed under the Republic officially ended. Augustus became conval, head of the senate and military, Tribune, and high priest. He proved a capable leader, bringing order to the collapsed repultite. Under his reign peace, prosperity, literacy and creativity fiogrished.

BECOMING A WORLD-DOMINATING EMPIRE meant the demise of five hundred years of a republic. With an empire conquered, Rome set about perfecting the id- of the cultures it had consumed. Romans wrote great literature, created mesaics, and produced architectural and engineering feat greeled at today. Their cities had cobbled streets, sewers, baths, libraries, and water systems; but most importantly, a sustain ift no previous world-conquering empire had been able to give:
