Upper back and shoulders (\$75 and up)

Full back and shoulders (\$95 and up)

Massage: Deep Tissue

(30 Minutes \$55)

(50 Minutes \$85)

Breast Augmentation:

Breast size and shape can be enhanced to balance asymmetries of the breasts and improve the proportions of your body. Our patients experience increased confidence, beauty, and sexuality after this procedure. Innovative techniques now allow for almost scar-free and pain-free procedures.

Tummy Tuck:

Have you tried everything to flatten your stomach? The tummy tuck removes excess fat, skin, and stretch marks in the tummy area, giving you the firm appearance you deserve.

Liposuction:

Imagine reduction of the fat under your chin, stomach, hips, flanks, buttocks, arms, and bra-rolls. We perform both traditional and tumescent "awake" liposuction. The newly developed tumescent liposuction technique uses microcannulas to remove small pockets of fat under local anesthesia while you are awake and pain-free.

Face Lift:

The Face Lift is the ultimate treatment to tighten and firm the skin of the face and neck. Downtime is minimal and the results are immediate and long-lasting. The face lift is possibly the most dramatic anti-aging procedure available.

Eyelid Lift:

Do others say that you look tired all the time? Appear more awake and rested by improving the appearance of droopy eyelids and puffy eye bags. Recovery from an eyelid lift is relatively quick and scars are hidden in existing natural skin lines.

LASIK Vision Correction:

Imagine being able to see without glasses or contacts. LASIK is a refractive surgical procedure to help correct vision problems. It is safe, effective, and affordable.

Podiatric Services:

Are you unhappy with the shape of your feet? Do you walk as comfortably as you once did? Ask us about the different surgical and non-surgical options to correct these issues.

Rhinoplasty: (Nose surgery)

Rhinoplasty improves the appearance and proportion of your nose, enhancing facial harmony and self confidence.

What is the LINQ™ Complex?

Through the culmination of Dr. Lin's research and clinical experience, he brings to you a dramatically different product line designed to treat all the signs of aging, including fine lines, wrinkles and pigmentation. Unlike most other high-end skin care products which contain a single active ingredient, Dr. Lin's products contain the LINQ™ Complex, which is a combination of five of the most powerful anti-aging ingredients currently available. Each one of the LINQ™ products contain the full LINQ™ Complex.

The LINQ™ Complex ingredients work synergistically within each product, and the products work synergistically together across the entire product line. These revolutionary new products demonstrate the latest in Combination Technology™ and will set the new standard in anti-aging skin care.

LINAGE LINQ™ Facial: (Pigmentation and Anti-Aging)

The LINQ™ system was developed to combine the most powerful lightening and anti-aging ingredients. This office-based procedure is designed to supplement and accelerate the results from the LINQ™ product line. The treatment targets pigmentation and sun damage by gently removing excess pigmentation and minimizing fine lines. Salicylic acid exfoliates, moisturizes, and soothes the skin. The skin becomes brighter and smoother, and the pores appear smaller and more refined. (60 min \$125; 30 min \$75)

LINAGE Rejuvenating Glycolic Facial: (Anti-Aging, Refining)

Our signature anti-aging facial begins with a gentle cleansing and renewal of the dull skin surface with a sulfate-free cleanser. A high-potency glycolic fruit acid peel is then applied to exfoliate the dead skin cells and allow the younger skin cells to arise. Next, hydration is restored with a powerful, yet soothing, hyaluronic acid mask. Finally, the LINQ™ products are applied to stimulate the regeneration and regrowth of the skin. Fine lines and wrinkles are diminished, and the skin becomes brighter, more radiant, and more luminescent. (60 min \$125; 30 min \$75)

LINAGE Beta-Clear Facial: (Acne and Problem Skin)

The Beta-Clear facial targets the root cause of acne, which is the obstruction of the skin pore. The pores can become obstructed by dead skin cells, sebum oil, make-up or hair gel. These clogged pores appear as comedones, commonly called black heads or white heads. If the pores become inflamed or infected, they turn into red papules and pustules. This treatment exfoliates the dead skin cells that cover the pores and remove the acne-causing sebum that clog the pores. Comedones are physically extracted from the skin, and all remaining impurities are gently removed through deep cleansing. (60 min \$125; 30 min \$75; Teen \$60)

Strawberry and Jasmine Heated Facial:

Let us transform your skin with this fabulous fruity facial sauna. This mask will gently open your pores to flush out dirt and excess oils. Calming jasmine and soothing strawberry then work to reduce red blotches and marks. Relax as this heavenly facial works to give you a healthy radiant complexion that will be sure to turn heads. (60 minutes \$90)

Gentleman's Escape:

This mini escape begins with a relaxing neck and shoulder massage. The skin is then cleansed and exfoliated, followed by a Beta-enzyme treatment with steam. A cooling mask is applied and treatment is finished with an oil-free sunscreen. A hand and foot massage is included. (60 Minutes \$90)

Microdermabrasion:

This treatment helps minimize wrinkles, scars, sun damage and active acne by removing the damaged top layers of the skin. (60 min \$150: Series of five \$500)
