very unhappy with yourself.

Please follow these cautionary statements. If you don't, your Revolve Basic might break, your warranty will be void, and you will be R Center Mounting Screw-Yes, this is supposed

- 3. Use indoors only and do not use near water. You listening, SCUBA guy?!
- Do not plug any extension cord, power strip, wall tap or multi-outlet adapter into your Revolve Basic
- Don't plug vour Revolve Basic into anything but a grounded outlet (the kind with three holes in the socket).
- Do not plug things in that will exceed the electrical ratings (see "Pointy Headed Stuff")
- Don't use the Revolve Basic with a heater, conventional oven, convection oven, microwave oven, generator, sump pump, water-related device, life support device, medical device, vehicle battery charger.
- ▶ If you're feeling all handy and want to alter or repair vour Revolve Basic... Don't

Read it. Know it. There will be a quiz.

- (4) 360° Rotating AC Outlets -We invented these for flexibility in dealing with giganto plugs. Just fully insert a plug and turn to fit.
- to be here. Allows you to firmly anchor your Revolve Basic in the wall socket. Have one of them fancy decorator outlets? Remain calm and simply remove the screw by holding the little red tab in place and use your favorite screwdriver real lefty-loosev like.

1. Plug stuff into your Revolve Basic.

2. Plug your Revolve Basic into a grounded wall outlet,
