During the collection of the Product and its loading for transport, the End-user is responsible for both the adequate monitoring of the collection and in particular the loading process so that the Product is not damaged or can be damaged during the transport in particular by improper loading, which is recognisable to the End user as such; and/or

- 2.4. SUNGROW reserves the right to require End-user to pay a deposit prior to the subsequent performance in countries and areas not listed in Appendix A, and/or for End-users who have, or had, overdue payment in purchasing of products or service from SUNGROW, its subsidiaries or distributors.

- 2.6. The period covered by this Warranty for Product installed in the countries of the European Union, including the United Kingdom and Switzerland (see Appendix A) for initial operation is five (5) years from the date of delivery, unless stipulated otherwise in Appendix A. If SUNGROW receives a completed Registration Form (the "Registration Form") from the End-user or installer within six (6) months after installation date, the starting date of manufacturer's warranty will be shifted to first-time installation date. In any case the standard warranty period is no more than 6 years since production date (which can be seen, inter alia, from the serial number of the Product concerned).

### 3.0 EXTENDED WARRANTY

---

- 3.1. The parties are free to agree an "extended warranty" in addition to the five-year period covered by this Warranty in accordance with item 2.6 of these warranty terms. The details of this agreement, including the term and commercial aspects (in particular the price) are specified in the separate "Contract regarding the agreement of an extended warranty" (contract on warranty extension).
- 3.2. However, in every case the extended warranty shall only be valid when the following essential conditions are met: the customer concludes a contract regarding the maintenance of the product in question (maintenance contract); the company performing the maintenance – in the event that this is not SUNGROW – has been certified as suitable by SUNGROW (certification); and proper maintenance according maintenance procedures in the products user manual is actually performed and proof thereof is provided. The following gives more details of these essential conditions of the extended warranty:

## MANUFACTURERS WARRANTY

V19.04

### 3.0 EXTENDED WARRANTY

---

#### 3.3. Maintenance contract

##### 3.3.1. Conclusion simultaneously with purchase contract

Should the parties agree on a warranty extension beyond the five (5) years established in item 2.6. of these warranty terms (extended warranty), in accordance with the separate contract on warranty extension and simultaneously with the conclusion of the purchase contract on the purchase of the product with SUNGROW, the customer must additionally, at his own discretion:

- a. either conclude a maintenance contract (example, Annex 1) with SUNGROW regarding the maintenance of the product to be purchased (maintenance by SUNGROW),
- b. or conclude a maintenance contract with a third-party company regarding the maintenance of the product to be purchased, or perform maintenance of the product to be purchased itself (other maintenance).

In the case of other maintenance, the extended warranty will only become valid (condition precedent) when the customer provides written proof that the individual technician designated for the performance of maintenance in the maintenance contract or otherwise has been certified by SUNGROW (certification) as being suitable for the performance of maintenance for the specific product in question. Certification is granted exclusively to named individuals. The customer must ensure that certification has been granted and is maintained for the entire term of the extended warranty, and must provide proof thereof upon request by SUNGROW at any time; in the event that maintenance is performed by a non-certified technician, the extended warranty shall lapse with retroactive effect up to the most recent point in time at which it can be proven that maintenance was performed by a certified technician (for details of proof, see item 3.3.3. below).

The specific requirements of SUNGROW regarding the obtaining of certification and the fee which is to be paid to SUNGROW therefor are not part of the subject matter of this agreement, but are established separately.

The term of the extended warranty will be determined by agreement between the parties in the separate contract on warranty extension. Notwithstanding the term agreed therein for the extended warranty, the validity of the extended warranty is in every case conditional on the conclusion of and continued adherence to the maintenance contract in accordance with the present item 3.3.1. If maintenance within the meaning of this item is terminated, the term of the extended warranty shall also end at this point in time. In no circumstances shall the warranty period be shorter than the five years in accordance with item 2.6 of these warranty terms, beginning on the delivery date.

##### 3.3.2. Conclusion subsequently to the purchase contract

The agreement on an extended warranty in accordance with the separate contract on warranty extension can also be made at a later point in time subsequent to the conclusion of the purchase contract. In this case, an extension of the warranty is also possible in accordance with this item 3.1 and either on condition that the customer conclude a maintenance contract with SUNGROW or in the case of other maintenance within the meaning of item 3.3.1.

An additional condition is that SUNGROW or a third party commissioned by SUNGROW must have inspected the product, and any system into which the product is integrated, and provided the customer with written confirmation of its consent to the granting of the extended warranty. The costs of this inspection shall be borne by the customer.

##### 3.3.3. Obligation to submit maintenance reports in the case of other maintenance

In the case of other maintenance, the customer shall ensure competent maintenance according maintenance procedures in the products user manual for the entire term of the extended warranty. The customer shall provide SUNGROW with proof of the competent maintenance of the product in the form of written reports using the maintenance report form (Annex 2) (maintenance report). SUNGROW's requirements regarding competent maintenance can be found on the maintenance report form and in the manufacturer's information. The parties agree that the maintenance reports are to be submitted on the first calendar day of each quarter of each calendar year (1 January, 1 April, 1 July, 1 October).

## MANUFACTURERS WARRANTY

V19.04

### 3.0 EXTENDED WARRANTY

---

The extended warranty shall lapse in the case of other maintenance if the customer fails to make the maintenance reports available to SUNGROW in good time or at all. In this case, the extended warranty shall lapse with effect for the future as well as with retroactive effect up to the most recent point in time at which a suitable maintenance report was submitted in good time.

The extended warranty shall also lapse in the event that a review of a punctually submitted maintenance report by SUNGROW reveals that maintenance has not been carried out in a competent manner, in accordance with the manufacturer's information and with the requirements listed on the maintenance report form. In this case too, the extended warranty shall lapse with effect for the future as well as with retroactive effect up to the most recent point in time at which proper maintenance was performed. The exclusion of warranty in accordance with item 5.0 of this manufacturer's warranty shall remain unaffected.

#### 3.3.4. Change of technician/third-party company by the customer

The customer is entitled to change the technician or third-party company in the case of other maintenance and to continue the maintenance contract with a different technician or third-party company. This shall not affect the existence or continuation of the extended warranty, if and to the extent which the customer provides SUNGROW with proof of competent maintenance by certified staff (cf. item 3.3.3.) and of certification (cf. item 3.3.1.). In all other cases, the requirements for other maintenance in accordance with this item 3.1. shall apply.

#### 3.3.5. Administration and expense allowance for inspection of other maintenance

In the case of other maintenance, the customer shall pay SUNGROW an administration and expense allowance for the entire duration of the maintenance for the inspection of proper maintenance in accordance with the requirements contained in the first paragraph of item 3.3.3.; the commercial details regarding the grounds for this allowance, the amount to be paid and the due date are agreed in the separate contract on warranty extension. This shall not affect the fee for certification, which is not part of the subject matter of this agreement.

#### 3.4. Termination of the extended warranty by SUNGROW

Irrespective of item 3.3.1, paragraph 3 of this manufacturer's warranty, SUNGROW shall have the right to ordinary termination of the extended warranty – which requires twelve months' notice to be given to the customer (discontinuation) and will take effect on the first calendar day of the month in question – if SUNGROW becomes aware that continuing to provide the extended warranty will become technically or financially impossible or unreasonable in the foreseeable future. This applies in particular, but not exclusively, in the event that it becomes likely that relevant replacement parts will no longer be available on the market. Further details in this regard are established in the contract on warranty extension.

### 4.0 EXTENDED PART WARRANTY (LIMITED EXTENDED WARRANTY)

---

- 4.1. The parties are free to agree an "extended parts warranty" in addition to the five-year period covered by this Warranty in accordance with item 2.6 of these warranty terms. The details of this agreement, including the term and commercial aspects (in particular the price) are specified in the separate "Contract regarding the agreement of an extended part warranty" (contract on extended part warranty).
- 4.2. Mentioned requirements and conditions of item 3.2. to 3.4 applies accordingly for the extended part guarantee as well.
- 4.3. By way of derogation from 2.2. subsequent performance in case of a defect is limited to the letters a., c. and e.
- 4.4. The customer is not entitled to any compensation or reimbursement of expenses for the replacement of the device or components and / or the installation of spare parts.
