Introduction

You are beginning a year-long program called Daily Grammar Practice (or DGP for short). Think of grammar like a bottle of vitamins. If you take one a day, they'll be good for you. If you take the whole bottle at once, you'll just get sick! Doing DGP is like taking a grammar vitamin each day. You'll have one little thing to do each day, but it will be good for you. It will really help you to understand grammar. The good news is that you won't ever have to do traditional grammar exercises with the DGP Program—that would be like taking a bunch of vitamins at once! With DGP, you will have just one sentence to work with each week and just one little assignment to do each day.

On Mondays, you will have to identify the part of speech for each word in the sentence of the week. You will have to complete this task before class starts, and you must have your workbook out on your desk for your teacher to see at the beginning of class. Your teacher will give you a point if you have tried the assignment. It's okay if you get some of the answers wrong, but you should try your best.

Your class will then go over the correct answers together. If you have made any errors, you should correct them in your workbook. On Tuesdays (before the beginning of class), you will have to identify the sentence parts and phrases in the same sentence. What you learned on Monday will help you to accomplish this task. Before class on Wednesday, you will have to identify the clauses, sentence type, and sentence purpose. Before Thursday's class, you will add punctuation and capitalization. Before coming to class on Friday, you will diagram the sentence. Each day your teacher will check to see that you have your workbook out and your assignment completed at the beginning of class. Each day you will get your point if you have tried the assignment, and each day your class will go over the correct answers together.

You will only spend a few minutes each day on DGP. If you have any questions, you should be sure to ask. For the first few weeks, the daily tasks will probably be difficult. Don't get frustrated! The more DGP you do, the easier it will become. Gradually, the concepts will begin to make sense, and you'll be amazed by how much better you understand grammar and by how well you remember the concepts. You will also be able to apply what you learn to your writing so that you can make better grades and be more prepared for high school.

This workbook includes a couple of resources to help you do your DGP assignments. First, you will find a list of abbreviations and markings to use in your daily work. Next, you will see a sample of a student's work. Finally, you will see a quick reference guide with a brief explanation of each concept covered in DGP. This guide is divided by daily tasks for your convenience. Refer to the guide as often as you need to. Highlight concepts that you have trouble with so that you can find them easily. Also, you will find that looking back at previous weeks' work will help you as you do your daily assignments. Be sure to fill in the date at the top of each weekly sentence so that you don't forget which sentence you're on at any given time.

Good luck with DGP, and remember that each day's assignment is small, but you have to try it every day. Vitamins don't do you any good if they just sit in the bottle!
