

Before you measure your jewelry size, make sure this guide is **printed in US Letter size (8,5x11 in or 216x279 mm)** and scaled to 100%. You can check the accuracy of your print by placing a credit card on the line below. If the card lines up, you're all set. When measuring your jewelry remember to measure in diameter and gauge.

CBR - RINGS - HOOPS METHOD

When measuring your ring, remember that the circle in the illustration must be inside your jewelry.

To read your size:
Use an existing hoop, ring or CBR that fits you and slide it along the size-line below until the interior of the ring matches one of the circles.

GAUGE JEWELRY METHOD

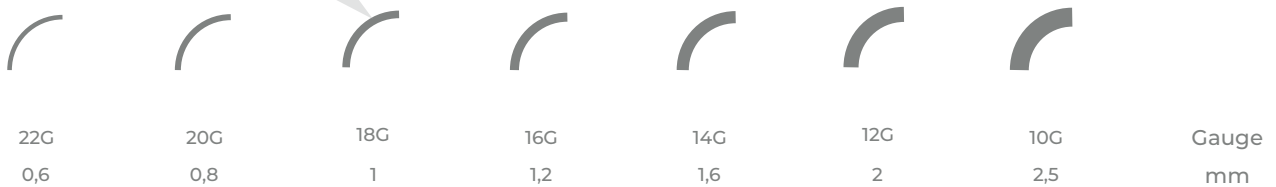

you can use this ruler to know the measurement of your accessory

SIZE YOUR TOP

To read your size:
Use an existing Jewelry that fits you and slide it along the size-line below until the interior of the full box matches one of the circles.

Place your jewel on one end as shown in the picture to measure the gauge.
