

CleanPlate installation instructions

1. Turn off power.

2. Remove old cover plate.

3. Align backing plate into place.

4. Tighten included screws down, but don't over tighten.

5. Adjust switches to level them out as needed.

6. Snap on clean plate

Trouble Shooting:

If plate does not sit flat, this may be because the wall is not flat.

Plates can be formed to meet with wall imperfections. Just bend it a little at a time until the desired fit is achieved.

Removal of CleanPlate:

There is a slot on the bottom which can be used to grip the clean plate. You can use a screw driver or even your finger nail!

Warranty:

The CleanPlate offers a one year warranty that covers replacement parts due to any defect in material. Your CleanPlate will last a long time if you

follow the care instructions included on this page. Please contact us if you have any issues and send photos through info@tedstuff.net
