

(RECOVERY) EFFECTS AND DEVICES

The Bad Comrade is a powerful glitch, delay, and chaotic distortion tool, packed in a tiny 4hp module.

Freeze wrecked blips and oscillations in place, create scrambled gated delays, and straight-up over-the-top distortion, all mixed to taste with the original signal. CV available for mix and delay time.

Designed and assembled in Seattle, Washington. Includes a one-year limited warranty if registered within 30 days of delivery.

Bad Comrade V3

Controls

MIX

Controls the amount of clean level versus effect.

GLITCH

Turning to the left will increase the threshold, cutting noise and "clipping" the signal.

TIME

Controls the delay time.

FREEZE

Momentary glitch/slice button. This freezes the signal at the rate set by the delay time control knob.

Important: power up the Bad Comrade with Glitch and Time wide open.

4hp, 30mm deep. 20ma current draw.
