## BLEEDING HEARTS

WELCOME TO THE BLEEDING HEARTS EURORACK MODULE FROM RECOVERY EFFECTS! THE BLEEDING HEARTS IS AN EFFECT DEVICE AT IT'S CORE THAT STARVES, BIT CRUSHES, SPLATTERS, AND FILTERS AUDIO SOURCES LIKE NO OTHER. FEEDING A GATE SIGNAL TO THE BLEEDING HEARTS ENABLES A WHOLE NEW WORLD OF STRANGE AND RANDOM ANALOG GENERATED MOVEMENT. EACH POSITION OF THE 8 STEP SEQUENCER CAN BLEED INTO EACH OTHER AND INTERACT WITH THE DESTRUCTION EFFECT, CREATING GATED AND FILTERED SPLATTERS, GLITCHES AND CRUNCHES, THAT MOVE TO THE BEAT OF YOUR PATCH.

THE 8 KNOBS ON THE TOP ARE PART OF THE UNIQUE BLEEDING HEARTS SEQUENCER. WHEN ACTIVATED BY TURNING THE CHAMBER SEQUENCE ON (UP POSITION), AND FEEDING IT A TRIGGER OR GATE SIGNAL, THE SEQUENCE MOVES FORWARD. THE AUDIO IS EFFECTED BY THE 4 PARAMETERS AT THE BOTTOM (STARVE, DESTROY, BLEED, PRESSURE), AND THOSE SAME PARAMETERS FEED VOLTAGE INTO THE SEQUENCER. THE SEQUENCER SHARES THIS VOLTAGE, PUMPING AND LEAKING INTO EACH OTHER GENERATING STRANGE RHYTHMS AND TEXTURES. EACH OF THE 4 BOTTOM PARAMETERS CAN BE VOLTAGE CONTROLLED.

BLEEDING HEARTS IS HAND WIRED IN SEATTLE, WASHINGTON. IT INCLUDES A FULL-LIFETIME WARRANTY. 20HP, 42MM DEEP.
