MPZ ENGINE ASSEMBLY LUBE HP

>>Description

Professional mechanics favor MPZ Engine Assembly Lube HP (previously known as MPZ Cam Lube) for assembling valvetrain components. MPZ Engine Assembly Lube HP is a gelled version of MPZ Engine Assembly Lube featuring higher load-carrying ability and extended lube film protection. It provides severe anti-wear, anti-friction, and anti-scuff protection on cam lobes, lifters, and other highly stressed valvetrain components. MPZ EAL HP is entirely oil soluble.

>>Features

- >Heavier version of MPZ Engine Assembly Lube
- >Completely oil soluble
- >Increases protection during break-in
- >Reduces frictional values
- >Excellent adhesion properties to stay on and protect parts
- >Bright red color

>>Application

It is recommended as a pre-lube and storage protectant for cam lobes, lifters, bearings, and other highly stressed valvetrain components. It can also be used as an engine assembly lubricant for all types of internal engine components, including rod bearings, main bearings, crank bearings, wrist pints, etc.

>>Typical/Test Data

Description	ASTM#	EAL HP
Appearance	Visual	Red

>>Directions

Completely oil soluble and compatible with other petroleum and synthetic lubricants.

>>Package Sizes / P/N

Description	EAL HP
1-Ounce Tube	A380000HE
48/1-Ounce Case	A380000H
5-Ounce Tube	A380000QE
12/5-Ounce Case	A380000Q
