

Campania International Cast Stone Finishes Swatch Guide

The Cast Stone finishes by Campania International are applicable to all the products constructed of Cast Stone Material. These finishes are hand-applied to the cast stone products making them truly customized. The wide range of products include items from various categories such as Birdbaths, Birdbath Fountains, Outdoor Fountains, Benches, Planters, Pedestals and statuary.

AGED LIMESTONE

The Aged Limestone finish looks like weathered limestone. This finish looks darker than the shades of regular limestone. It duplicates the dramatic look and feel of weathered natural stone.

BROWNSTONE

The Brownstone is a light brown color and one of the popular cast stone finishes by Campania International. It is inspired by the brown Triassic-Jurassic sandstone that was historically a popular building material.

ALPINE STONE

The Alpine stone finish by the Campania International is an amazing color that gives the cast stone products a raw concrete look. It is a simple yet elegant finish.

NATURAL

The Natural finish by Campania International depicts the natural color of cast stone without any added finish. It is a neutral tone finish that will look great with any landscape setting.

COPPER BRONZE

The Copper Bronze finish by Campania International is a unique color that is comprised of hues of green and brown representing Copper and Bronze and hence the unique name.

ENGLISH MOSS

The English Moss is a light finish with green undertones. It is a beautiful finish applicable to all cast stone features by Campania International.

FERRO RUSTICO NUOVO

The Ferro Rustico Nuovo name stands for the rustic Iron look that finish provides to the Cast Stone Products. It is a beautiful burnt orange color that looks aesthetic and goes very well with a lot of landscape themes.

GREYSTONE

The name Greystone is self-explanatory as the finish as it makes the cast stone product look like it is constructed of Greystone which is basically a Grey colored limestone.

NERO NUOVO

The Nero Nuovo is a deep charcoal black finish that can be applied to all cast stone products. The Nero Nuovo finish is sure to complement any outdoor setting.

TRAVERTINE

The Travertine finish is inspired by the beautiful shades of the travertine rock that is a dense rock composed of calcium carbonate. This finish makes the cast stone product look simply amazing.

PIETRA NUOVA

The Pietra Nuova is an antique finish that features layers of brown. It adds an antique flair to the products and brings back the old-world charm.

VERDE

Verde is a finish that replicates Verdigris. Verdigris refers to the natural blue-green patina that develops when copper weathers as a result of exposure to air, water or humidity.

LEAD ANTIQUE

The Lead Antique finish resembles the color of the lead metal. It is in tone of shades of grey with green undertones. It gives a very unique touch to the cast stone products.

FRENCH LIMESTONE

The French Limestone finish by the Campania International is a beautiful color that closely resembles the famously astonishing limestone discovered in the Loire Valley of France.
