# RS Pro 4 Row Brass Wire Brush

RS Pro Stock No.: 822-636

### **Specifications:**

- Application: Engineering/General Cleaning-Rust removal, non Spark
- Dimensions: 270 x 30 x 80mm filled
- Materials: Soft Grip Plastic Handle, 0.3mm dia. Straight Brass Wire
- 3.0mm dia. tuft, 56 tufts, 25mm trim

### **Further Information:**

Brass is a soft pliable material which makes this type of brush particularly suited to jobs where marking, damage or sparks need to be avoided.

Suitable for hazardous environments. Will not spark when struck against metal. Ideal for cleaning electrodes on spark plugs, battery terminals, engine parts and paint removal.

Safely enclosed in the Aurora Guard, an innovative solution for protecting the wires and your hands!
