

To receive the maximum benefit from your Lunalux Pillowcase we recommend either hand washing or using a delicates bag with the gentle cold machine wash setting.

We also recommend washing your Lunalux products using a delicate silk or wool detergent that is specially formulated to be pH neutral. (These can be purchased at most supermarkets.)

Do not bleach or tumble dry.

We recommend hanging your pillowcase out to dry without direct sunlight if possible.

If you would like to get rid of the creases in the silk, iron when slightly damp using a cool setting and always iron inside out.
