OUR HAPPINESS
IS HANDMADE

CATALOGUE

SEPTEMBER 2023

Hi!

Welcome to the cheerful world of helen b!

Over the past year I've listened more than ever to the feedback of the helen b family: our cherished customers and esteemed stockists. As a result of that, it brings me great pride to announce a delightful addition to our **porcelain collection** – the introduction of cup XLs. Crafted especially for those who savor lattes and teas. I've also brought to life my creative vision of a unique helen b ABC: these distinctive characters now grace the surface of these cups. Thus, we are thrilled to unveil an assortment of 26 new ABC cup XLs! Furthermore, our porcelain collection will now encompass elegant soap dishes, elevating its versatility.

In recent months, my journeys to Portugal have been frequent, dedicated not only to nurturing our existing collaborations with trusted suppliers, but also to exploring new possibilities, innovating concepts, and forging new partnerships. Even after all these years, the unwavering reliability of our partners has been reaffirmed, as we brainstorm, and collaborate, with their steadfast commitment making them true ambassadors of helen b.

Considering these partnerships, we're able to propel our **textile collection** once again to new heights this year. Introducing brand-new XL tote bags and aprons, each crafted from the depths of my exploration with black fabric. Additionally, we proudly present a fresh rendition with a patterned laptop sleeve, a tea towel set and two inviting doormats – a perfect way to extend a warm welcome to all.

While it might go without saying, given Peter's and my deep affinity for Portugal, we've also woven a typically local element into our collection: cork. Every piece is fashioned from the residual material left behind after the production of wine corks. Through recycling and reprocessing, this material is transformed into the foundation of our distinctive placemats and coasters.

Our commitment to local production, cultivating regional partnerships, and fostering sustainable relationships with our suppliers remains unwavering. This approach enables me to unleash my creativity, secure in the knowledge that I can rely on exceptional partners, a steady team, and wonderful stockists. This synergy empowers us to continually renew and expand the helen b universe with all its distinctive characters. It's a task I gladly embrace each day, whether I'm nestled behind my desk drawing with pencils, doing ceramics or focusing on business with my laptop. **Your presence, support and smiles mean the world to us!**

Lots of love,

helen

ABOUT

helen b embodies the spirit of Helen Blanchaert, a spirited creative based in Ghent. Helen's universe is one of vibrant designs and delightful – somewhat quirky – creations that seamlessly integrate into everyday life. With a passion for illustration and ceramics, she embarks on new projects, finds solace in nature's wanderings, explores novel cities, relishes dining out, and embraces life's fullest moments.

♥ LOCAL

Our commitment to producing helen b's collection locally runs deep. We collaborate with steadfast partners and suppliers, some of whom we've journeyed alongside for over 8 years. An enduring partnership with a Ghent-based social workshop underscores our dedication to both the local and social economy. Helen takes a hands-on approach to monitor every step of the production process, ensuring that even international endeavors align with helen b's values.

SMILE

Your smile is what drives us, whether you're savoring a quiet coffee at your desk or sharing a cozy breakfast with your loved ones. At the heart of helen b lies a collection of unique characters and quotes, each lovingly illustrated in Helen's signature style. This forms her very own universe, a manifestation of how she perceives the world. Whether it's brought to life on porcelain, textile, or paper, her intention remains the same – to brighten your day with her creations.

DURABLE

Embracing sustainability at every turn, we strive to be mindful in our practices. Plastics are absent from both our product creation and packaging processes, and we consciously make eco-friendly choices whenever feasible. Postcards and prints find a home in recycled pouches crafted from corn starch, and we repurpose cardboard boxes for shipping. For our paper goods we opt for paper with a sustainable and ecologically responsible origin, and recycled cork forms the foundation of our coasters and placemats. Nurturing a relationship of respect with both humanity and the environment is an ongoing endeavor, as we continually seek ways to enhance our practices each day.

BESTSELLERS

An all-time favorite, the naked couple back illustration is the best known out of all helen b characters. Its cheeky but sweet nature conquers all hearts. This signature porcelain cup has been the ultimate bestseller since forever.

This beautiful jug is perfect for a big bouquet of flowers or to serve a fresh lemonade. Great for gifting or uplifting and decorating your dining table!

All our tote bags are made from 100% organic cotton and locally screen-printed with water-based inks.

We offer many illustrations as A4 or A3 prints to brighten up your walls.

If it's up to us, you can wear white gym socks with everything! Guaranteed the quirky quotes and illustrations won't go unnoticed and will make people smile when you pass by.

Recently added to our collection and an immediate hit! This set of 4 glasses comes in a beautiful cardboard gift box and has a naked couple pattern all over.

A lovely wooden tray, crafted from sustainable wood. The party only starts when this apero couple arrives!

PORCELAIN

This is where it all started: our porcelain collection.

Our mission is to offer you **quality, sustainable and affordable porcelain**. All of our products are designed in Belgium and we collaborate with partners that share our philosophy regarding respect for quality, work conditions and an overall sustainable production process.

A treasured bond we hold dear is the one with a local social workspace located in Ghent. With patience and precision, they grace each porcelain canvas with the illustrations, one unique design at a time and then bake them in our ceramic ovens at 840 degrees Celsius. This ensures that all our porcelain products are dishwasher and oven safe. They will also make sure that all our products are packed in a conscious way, as we don't want to contribute to a culture of wastefulness.

CUPS

Our porcelain cups are our most popular and well-known product. The illustrations will take you on a trip through the universe of helen b. They reflect my personal take on life, capturing the moments, people, and experiences that have left a mark on me. However, the real magic happens when these illustrations meet your imagination. I encourage you to create your own narratives and discover the stories that these images inspire. So, sip, enjoy, and let your creativity flow!

TEXTILE

At the heart of our textile assortment, you'll find the craftsmanship of small family businesses and charming textile studios in Portugal. A significant portion is adorned with designs that spring to life through local artisans using eco-friendly water-based inks. We produce our textiles as locally and closeby as possible, whenever that's not possible we always go for 100% organic cotton, reflecting our commitment to mindful choices. When it comes to collaborations, our partners are like family. Handpicked to share the helen b philosophy that pulses through our creations. We're involved every step of the way. From crafting the initial samples to selecting the finest threads, from producing the helen b labels that symbolize our dedication to those final, loving touches, we're there.

WOOD & CORK

For the first time, we've also woven a typically local Portuguese element into our collection: cork. Every piece is fashioned from the residual material left behind after the production of wine corks. Through recycling and reprocessing, this material is transformed into the foundation of our distinctive placemats and coasters. Our **commitment to local production, cultivating regional partnerships, and fostering sustainable relationships with our suppliers remains unwavering**. Once I visited the factory in Portugal where our coasters and placemats are made – I was immediately sure this had to become a part of our product range.
