INSTRUCTIONS:
COAST PX1R FLASHLIGHT

INSTRUCTIONS: COAST PX1R FLASHLIGHT

FLASHLIGHT CONSTRUCTION

The PX1R was constructed with a premium-grade aluminum, selected by COAST engineers specifically for it's strength and durability.

USING THE FLASHLIGHT

The PX1R features COAST's patented PURE BEAM® Optics System, as well as a three-setting lighting sequence. Use the Power Button to cycle through Medium, High, and Low brightness settings. Completely depress the Power Button to turn on the flashlight in the desired setting.

ADJUSTING THE BEAM

The PX1R is equipped with proprietary TWIST FOCUS™ Technology, and can be easily adjusted between an Ultra View Flood Beam and a BULLS-EYE™ Spot Beam. To pinpoint the beam on a precise area, rotate the bezel of the flashlight counterclockwise. To expand the beam and maximize the lighting area, rotate the bezel clockwise.

POWERING THE FLASHLIGHT

The PX1R is designed on COAST's Rechargeable-Dual Power platform, and can be powered by a ZITHION-X™ Rechargeable Battery (included) or three COAST EXTREME PERFORMANCE™ AAA alkaline batteries (not included). To charge the ZITHION-X™, unscrew the tail cap of the flashlight and open the battery compartment. Remove the rechargeable battery from the battery compartment. Plug the USB-C Charging Cable (included) into the charging port on the ZITHION-X™. Then plug in the cable at an available power source. Monitor charging progress using the Battery Life Indicator located opposite the charging

port of the ZITHION-X™. While the Battery Life Indicator is red, the battery is actively charging. When the Battery Life Indicator turns green, the battery is fully charged and ready for use.

WARRANTY

COAST'S Lifetime Warranty stands firm behind your product, providing you the assurance that COAST knives, tools, and headlamps, are warrantied against defects in workmanship for the life of the product as long as the original purchaser owns the product. Any problem at all? Just let us know—we'll repair or replace your product. Please understand this warranty does not cover normal wear and tear, nor damage resulting from misuse or neglect. The warranty also does not cover batteries and charging accessories (or damage caused by either). Batteries or damage caused by batteries (i.e. leakage) are also not included in the guarantee. Warranty exchanges do not cover the cost of shipping and handling. Visit coastportland.com/warranty for more information.

CAUTION

The COAST PX1R Flashlight was designed to be powered by a ZITHION-X™ Rechargeable Battery, COAST EXTREME PERFORMANCE™ AAA alkaline batteries, or standard AAA alkaline batterie. Do not attempt to power the flashlight with carbon-zinc or aftermarket rechargeable batteries. Standard *alkaline* batteries are single-use only. Do not mix old and new batteries.
