IMPORTANT, RETAIN FOR FUTURE REFERENCE: READ CAREFULLY

FCC STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

INSIDE

CF1000R INSTRUCTIONS

LIGHT MODES

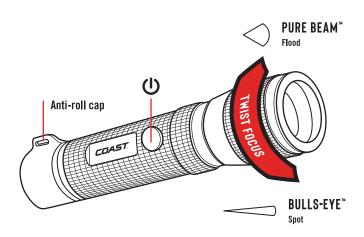

Use the power button on the handle to cycle through light modes. After 5 seconds in any light mode, pressing the power button will turn off the light.

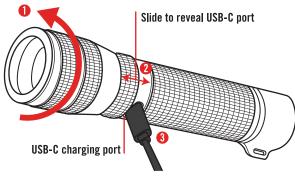

LOCK OUT MODE

The CF1000R features a Lock Out mode to prevent the light from being turned on accidentally. To engage Lock Out mode, press and hold the power button for 4 seconds until the light flashes. Repeat this process to disengage Lock Out mode.

FOCUSING BEAM SYSTEM

Twist the bezel to adjust from Pure Beam flood beam to Bulls-Eye spot beam.

ITM. / ART. 1718612

PRO-TEK CHARGING

The CF1000R is equipped with a built in USB-C charging port. To charge:

- Adjust the bezel to the full spot beam.
- 2 Push up the charge port cover collar to reveal the USB-C charging port.
- **3** Insert the USB-C charging cable and connect to a power source.

While charging, the power button will glow red. Once charging is complete, the power button will glow green.

RECHARGEABLE POWER

The CF1000R is powered by an embedded rechargeable battery.

Caution: Do not attempt to open the flashlight casing or remove the battery.

CARE

Keep lens clean and free of markings or debris to avoid damage to the optic.

To clean, wipe the exterior with a damp cloth. Do not submerge.
