

COAST®

COAST FL65 HEADLAMP

EN INSTRUCTIONS

HEADLAMP CONSTRUCTION

The FL65 is composed of a premium-grade resin, selected by COAST engineers specifically for its strength and durability.

USING THE HEADLAMP

The FL65 features a COAST-patented Optics System with a Wide Angle Flood Beam and a night-vision-saving red LED. Use the Power Button on the right side of the headlamp to turn on the white LED. Use the power button on the left side of the headlamp to turn on the red LED.

AIMING THE BEAM

The FL65 is attached to the head strap on an adjustable hinge. To change the angle of the beam, grasp the bezel of the light and tilt the headlamp forward.

POWERING THE HEADLAMP

The FL65 is powered by three COAST EXTREME PERFORMANCE™ AAA alkaline batteries. To change the batteries, lift the clasp on the top of the headlamp and open the battery compartment. Remove all three batteries and discard them. Install three new AAA alkaline batteries. Be sure the batteries are oriented correctly before closing the battery compartment.

WARRANTY

COAST'S Lifetime Warranty stands firm behind your product, providing you the assurance that COAST knives, tools, and headlamps, are warrantied against defects in workmanship for the life of the product as long as the original purchaser owns the product. Any problem at all? Just let us know—we'll repair or replace your product. Please understand this warranty does not cover normal wear and tear, nor damage resulting from misuse or neglect. The warranty also does not cover batteries and charging accessories (or damage

caused by either). Batteries or damage caused by batteries (i.e. leakage) are also not included in the guarantee. Warranty exchanges do not cover the cost of shipping and handling. Visit coastportland.com/warranty for more information.

CAUTION

The FL65 is compatible with COAST EXTREME PERFORMANCE™ AAA alkaline batteries, or standard AAA alkaline batteries. Do not attempt to power the headlamp with lithium, carbon-zinc, or rechargeable batteries. Alkaline batteries are single-use only. Do not mix old and new batteries.
