INSTALLATION INSTRUCTIONS:

⚠ Electrical products can cause death, injury, damage to property. Installation of this product must be carried out by a qualified electrician, in accordance with SANS 10142. On completion of installation, ensure that the Certificate of Compliance is updated.

CAUTION: Risk of electric shock

Ensure mains supply is switched off

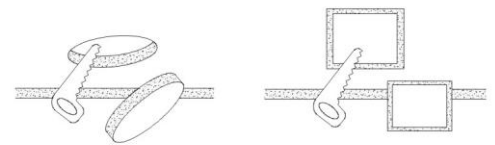

- Cut a hole in the ceiling as per the recommended cut out size (Fig. 1)
- Connect the lamp holder to the mains supply via the terminal block provided on the lamp holder bracket (Fig. 2)
- Remove the twist off diffuser and retaining ring from the fitting. (Fig. 2)
- Fit the lamp into the lamp holder and fix into position with the retaining ring (Fig 3).
- Insert the fitting into the cut out ensuring that the mains lead is not trapped. Push the mounting clips upwards to snap the fitting firmly into position, flush with the ceiling. (Fig. 4).
- Switch on mains supply.

WARNING:

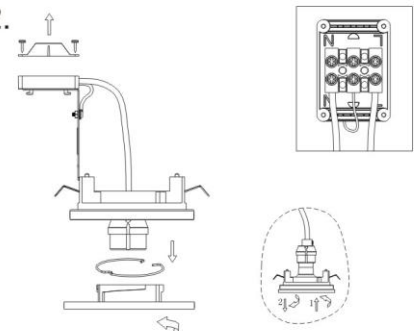

- Ensure all items and screws are tight.
- Do not operate/install any product which appears damaged in any way.
- If damaged return the complete product to the place of purchase for inspection, repair or replacement.
- Ensure there are no components missing before commencing installation
