INSTALLATION INSTRUCTIONS:

⚠ Electrical products can cause death, injury, damage to property. Installation of this product must be carried out by a qualified electrician, in accordance with SANS 10142. On completion of installation, ensure that the Certificate of Compliance is updated.

CAUTION: Risk of electric shock.

- Turn off main power supply before starting the installation.
- Refer to product labels to confirm the input voltage.
- Check whether the fitting is clean and dry before installation
- Do not make any modifications on the fitting at random.

Follow steps 1-7 below for installation:

- Remove the side screws and mounting plate. (Fig. 1)
- Mark and drill three holes where you want to install the fitting and insert the screw anchors into the wall. (Fig. 2)
- Pierce the grommet on the mounting plate using a round tool smaller than the cable size, ensuring a tight and sealed fit. (Fig. 3)
- Connect the power supply to the terminal block provided: (Fig. 7)
Brown (Live) - to Brown or Red
Blue (Neutral) - to Blue or Black
Earth - Yellow/Green or Copper
- Fix the mounting plate to the surface using the screws provided. (Fig. 5)
- Install the correct lamps as illustrated. (Fig. 6)
- Re-install the diffuser and turn on main supply. (Fig. 7)

WARNING: Ensure all items and screws are secure and fitted correctly.
